Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Highbank Bridge BR No. D-7-5 Dennis/Yarmouth (over Bass River) Rehabilitation project □ □	The Highbank Bridge Rehabilitation project involves the following improvements: Bridge Rehabilitation Repair broken diagonal bracing between timber piles...	\$790,000	Yarmouth/Dennis
Municipal	2009 – 2010 Well Rehabilitation and Pump Station Upgrades	Rehabilitate twelve gravel packed wells and upgrade their associated pump station equipment with new high efficiency motors and energy savings variable frequency drives.	\$960,000	Yarmouth DPW, Water Division
Municipal	Taylor Bray Farm Farmhouse Rehabilitation	Located in Yarmouth Port, the Taylor Bray farm was originally settled in 1639 and remained a working farm until the mid-1980s.	\$100,000	Yarmouth
Municipal	Yarmouth, MA –DPW Operations and Maintenance Facility Building:	The proposed DPW Operations and Maintenance Facility Building will be a 24,000 square foot modified pre-engineered building that will replace and consolidate several existing antiquated...	\$6,900,000	Yarmouth
Municipal	Yarmouth, MA – Flax Pond Recreation Area: Phase 1 Improvements	That master plan developed a phased implementation program to transform the facility into a more year round, multifaceted recreation area to better serve the full needs of the town...	\$1,100,000	Yarmouth
Municipal	Yarmouth, MA – Flax Pond Recreation Area: Phase 1A Building Replacements	That Master Plan developed a phased implementation program to transform the facility into a more year round, multifaceted recreation area to better serve the full needs of the town...	\$1,200,000	Yarmouth
Municipal	Parkers River Marine Park	The Town of Yarmouth is proposing to construct a multi-faceted marine park (the Project) located on the west side of Parker's River, south of Route 28, in West Yarmouth...	\$12,000,000	Yarmouth
Municipal	Run Pond Coastal Ecosystem Restoration		\$0	Yarmouth
Municipal	Scale House	Replace existing 8' X 10' concrete structure being used by the weigh master at the Disposal Area with a 12' X 20' wooden, insulated and energy efficient office, building.	\$75,000	Yarmouth
Municipal	Forest Road Overlay	Project to include: typical road overlay project (crackfill, frame adjustments, 3" overlay, pavement markings, shoulder work). No outside funding at this time.	\$700,000	Yarmouth
Municipal	Higgins Crowell Road Improvement Project	Project to include: new sidewalk and drainage (to remove from wetlands). No outside funding at this time.	\$1,400,000	Yarmouth
Municipal	Long Pond Drive Sidewalk	Project to include: removal of existing non-conforming sidewalk, and installation of granite curbing and 5' wide sidewalk. No outside funding at this time.	\$900,000	Yarmouth
Municipal	Mill Lane Parking Lot Improvements	This beautification/improvement project to include: sidewalk, bicycle racks, curbing, drainage, overlay, pavement markings, and significant landscaping. No outside funding at this time.	\$125,000	Yarmouth
Municipal	North Main Street Sidewalk	Project to include: installation of granite curbing and 5' wide sidewalk. No outside funding at this time.	\$650,000	Yarmouth
Municipal	Porous Pavement Projects	The porous pavement projects include the removals of existing road pavements and subbases, and the installations of porous pavements and drainage storage subbases...	\$750,000	Yarmouth
Municipal	Yarmouth, MA – Sandy Pond Recreation Area: Phase 1 Improvements	That master plan developed a phased implementation program to transform the facility into a multifaceted active recreation area to better serve the full needs of the town...	\$2,200,000	Yarmouth
Municipal	South Shore Drive Sidewalk	Project to include: installation of granite curbing and 5' wide sidewalk. No outside funding at this time.	\$650,000	Yarmouth
Municipal	Whites Path Overlay	Project to include: typical road overlay project. Whites Path is a major industrial/commercial area in Yarmouth with significant truck traffic. No outside funding at this time.	\$600,000	Yarmouth
Municipal	Winslow Gray Road Sidewalk	Project to include: installation of granite curbing and 5' wide sidewalk.	\$400,000	Yarmouth

Commonwealth of Massachusetts

Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	2009 Pump Station Upgrades	VFD installation and electrical upgrades	\$960,000	Yarmouth
Municipal	Install a Town-wide WIFI network	This project would eliminate the need to have costly individual cellular and site-to-site links for a wide variety of Town services. Also the Fire Department and DPW has equipment and services that would benefit from this.	\$50,000	Wrentham
Municipal	Install WIFI (Wireless Computer Network) at the Wrentham Public Safety building	The police and fire departments have several areas in the building that need access to the computer network. This project would allow workstations in the building as well as mobile laptops to connect to the network.	\$20,000	Wrentham
Municipal	Video Surveillance of the entrance and exit ways of Wrentham Village Premium Outlets	Video surveillance for purposes of live monitoring and archiving/retrieval would be extremely helpful to the Police in identifying and locating suspect vehicles and their direction of travel.	\$25,000	Wrentham
Municipal	Water System Capital Assessment Management Study	This is an engineering design to determine the most cost effective water system improvements.	\$50,000	Wrentham
Municipal	Department of Public Works Office and Garage Facility	The proposal would provide for approximately of office and habitable worker space and approximately of garage space with designated environmentally compliant wash bay facilities.	\$4,772,500	Wrentham
Municipal	Elysium Street Water Main	This is a replacement water main for an old, undersized water main that is supposed to be a transmission main from one of the Town's most productive wells.	\$930,000	Wrentham
Municipal	Madison Street Water Main	This project consists of installation of a new water main to connect two long dead end water mains which will also provide for greatly increased reliability in service to a remote commercial area of Town.	\$2,000,000	Wrentham
Municipal	Photovoltaic Solar Panel Installations	The Town has been working with a vendor to plan and design solar panel installations on both the Town Schools and DPW Garage.	\$2,100,000	Wrentham
Municipal	Stormwater Mitigation	The Town had an environmental assessment performed and the resultant report identified 4 major areas of pollution problems created by Stormwater runoff into bodies of surface water.	\$504,000	Wrentham
Municipal	Knuckup Hill Water Tank Resurfacing	Town Meeting approved this project funding in November 2008. The project is designed and ready to go to bid with a bid opening date of January with construction to begin April, 2009.	\$309,300	Wrentham
Municipal	Taunton Street Water Main	Replace water main services the downtown area as a second direct connection from the Knuckup Hill water tanks and is a vital upgrade according to the Town's water engineers hydraulic model calculations.	\$1,485,000	Wrentham
Municipal	Taunton Street Reconstruction	Sidewalk improvements in this area along with roadway and edging improvements could also include surface treatments for the southerly portion of Taunton Street.	\$3,428,879	Wrentham
Municipal	Water Facilities Security System	This project consists of installation of video surveillance cameras at all water system facilities with wireless links to a central location at the administration building.	\$100,000	Wrentham
Municipal	William A. Rice Recreation Complex	Building more fields and 2 buildings for office space, concessions, and bathroom facilities.	\$2,400,000	Wrentham
Municipal	PAINTING INTERIOR AND EXTERIOR OF FISKE LIBRARY	BUILDING IS 10 YEARS OLD AND IN NEED OF REPAINTING. PROJECT IS NOT CONSIDERED FOR STATE OR FEDERAL FUNDS.	\$15,000	WRENTHAM
Municipal	EMERGENCY GENERATOR	FISKE LIBRARY IS PLANNING TO ACT AS A DISASTER RECOVERY SITE FOR WRENTHAM. WE WILL NEED A STAND-BY GENERATOR TO PROVIDE POWER.	\$6,000	WRENTHAM
Municipal	TELEPHONE SYSTEM REPLACEMENT	CURRENT SYSTEM OUTDATED AND INEFFICIENT-NEEDS UPGRADING.	\$7,500	WRENTHAM
Municipal	COMPUTER UPGRADE	UPGRADE OF PUBLIC ACCESS COMPUTERS.	\$4,000	WRENTHAM

Municipal	Canal District Street/Sidewalk Reconstruction and Streetscape	Recreate the historic Blackstone Canal Route with improved streetscape and roadway improvements in this growing downtown area.	\$7,500,000	Worcester
Municipal	Blackstone Gateway Park (Visitors' Center)	This development will provide an important link from the Blackstone River to a major open space amenity within Worcester.	\$3,000,000	Worcester

Commonwealth of Massachusetts

Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Blackstone Bikeway Connection to Visitors center	Current Blackstone Bikeway travels on street through a section of Worcester including the access point for the Worcester's Blackstone Valley Gateway Visitor Center.	\$2,500,000	Worcester
Municipal	Railroad Bridge Replacement, Providence & Worcester Railroad	Project will replace two side by side railroad bridges owned by the Providence & Worcester Railroad with a single, newly constructed modern span over Southbridge Street in Worcester.	\$10,200,000	Worcester
Private Development - Traditional Infrastructure (unreviewed)	Family Health Center of Worcester	Renovate/build out 22,000 SF to expand primary care services, urgent care, dental and mamography services and make minor improvements to existing facility	\$9,400,000	Worcester
Private Development - Traditional Infrastructure (unreviewed)	Great Brook Valley Community Health Center - PP	Addition to current building	\$500,000	Worcester
Private Development - Traditional Infrastructure (unreviewed)	The Robotics Center at WPI - A Center for Regional Industry/University Collaboration	A 75,00 sq. foot facility to house a new Robotics Center at WPI		Worcester
Private Development - Traditional Infrastructure (unreviewed)	RNAi Institute / advanced therapeutics cluster at UMass Worcester	Design, construction, development and related infrastructure improvements for an advanced therapeutics cluster to be constructed at the University of Massachusetts Medical School in Worcester, which shall be named the Albert "Albie" Sherman Center, and shall include a RNAi institute, a stem cell biology cluster, cord blood bank and a gene therapy cluster. No funding shall be used for salaries.		Worcester
Private Development - Traditional Infrastructure (unreviewed)	Downtown Worcester	design/construct parking garage and downtown roadway improvements	\$15,000,000	Worcester
Private Development - Traditional Infrastructure (unreviewed)	Marine Biological Laboratory located in Woods Hole	Construction, renovations and infrastructure improvements for the Marine Biological Laboratory located in Woods Hole. The Marine Biological Laboratory shall collaborate with the Regional Technology Development Corporation of Cape Cod and the University of Massachusetts at Dartmouth to create and support a Center for Regenerative Biology and Medicine located at said Marine Biological Laboratory to develop commercial marine technology, provide research and development for life sciences including, <del>but not limited to, marine-based stem cell research, and expand life science and marine technology education</del>		Woods Hole, Falmouth
Private Development - Traditional Infrastructure (unreviewed)	WHOI Ocean Observatory Initiative – New Facilities	The project includes the construction of a 15,000 square foot state of the art research facility consisting of laboratory, office and assembly spaces including 25 ton overhead crane capability to assist with the engineering, design, construction, operation and maintenance of a variety of surface and subsurface buoys, moorings, gliders, drifters and other scientific instrumentation to measure and monitor the ocean processes.	\$11,000,000	Woods Hole
Private Development - Traditional Infrastructure (unreviewed)	WHOI Extension of Sewer Line to Iselin Dock for Research Vessel use – New Infrastructure	The project consists of the construction of a complete facility to accept treated sewage and other waste water from 4 research vessels while stationed in port. The project design includes all collection network piping, locking valves, check valves, 3,500 gallon pump chamber, duplex pumping system and associated wiring and controls to transfer waste and waste water from the research vessels to the local sewer system at a metered rate.	\$250,000	Woods Hole
Private Development - Traditional Infrastructure (unreviewed)	Woods Hole Oceanographic Institution (WHOI) Wind Turbine Installations.	The project includes the construction of two utility scale wind turbines of 1.5 or 2 megawatt capacity each on the Quissett Campus in Woods Hole, MA.	\$11,000,000	Woods Hole
Municipal	Magazine Hill Park & Ride Facility	Construction of a 92 space parking facility to be located in Woburn Square, the City's traditional commercial center.	\$2,000,000	Woburn, Woburn Redevelopment Authority
Municipal	Water System Improvements Program	Replace an existing 4.4 mg steel water storage tank with a new precast concrete water storage tank.. TConstruction of filtration treatment processes for the groundwater supply.	\$24,500,000	Woburn
Municipal	Leland Park Remediation and Site Preparation Project		\$3,000,000	Woburn
Municipal	Water Main Cleaning and Relining Program Year 4	Relining existing 6" cast iron water mains on several streets.	\$1,400,000	Woburn
Municipal	Proposed Forest Park Cemetery	Installation of roadway, with drainage and water main, construction of retaining walls, placement of earth fill, site grading, walkways and landscaping to develop new burial spaces.	\$4,200,000	Woburn
Municipal	Proposed Hart Street Drainage Improvements	Installation of a RCP drain, including pavement, loaming and seeding.	\$1,400,000	Woburn

## Commonwealth of Massachusetts

### Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Water Main Improvements	Install 12" cement lined ductile iron pipe on ceratin streets and install approximately 8" cement lined ductile iron water pipe on Locust Street	\$3,100,000	Woburn
Municipal	Main Street (Route 38) Distributed Coordinated Signal System	Replacement of existing traffic signal controllers and cabinet assemblies, as well as implementation of a fiber optic communications back bone and systems capabilities at City Hall.	\$1,100,000	Woburn
Municipal	Area 3 Sanitary Sewer Rehabilitations Project		\$2,445,000	Woburn
Municipal	Dix Road, West Side, and Area 3 Private Inflow Source Removal Project		\$445,000	Woburn
Municipal	Dix Road Pump Station Improvements		\$969,000	Woburn
Municipal	Plympton School Building Rehabilitation	The proposed project will rehabilitate the former Plympton School Building for use as the City Hall Annex.	\$1,550,000	Woburn
Municipal	Residential Water Meter Installation	This project includes the replacing of 10,100 residential water meters and installation of fixed network radio reading system.	\$5,500,000	Woburn
Municipal	Joyce Middle School Gymnasium and Ice Rink Roof Replacement	The proposed project will rehabilitate the Gymnasium and Ice Rink section of the Joyce Middle School Building.	\$1,250,000	Woburn
Municipal	Kennedy Middle School Roof Replacement	The proposed project will rehabilitate the roof of the Kennedy Middle School Building.	\$1,650,000	Woburn
Municipal	Woburn Public Library Addition	The proposed project will construct addition at the rear of the existing library.	\$20,000,000	Woburn
Municipal	Main Street Reconstruction	Reconstruction of Main Street including: roadway, sidewalk ADA compliant update, installation of trees along roadway, improved lane stripping, and reconfiguration of roadway drainage.	\$2,400,000	WOBURN
Municipal	Police Station Roof Replacement	Rehabilitate the roof on the existing police station. The building will be retrofitted with a new energy efficient roofing system including roof drains and coping.	\$350,000	Woburn
Private Development - Traditional Infrastructure (unreviewed)	Proposed Drainage Improvements Washington Street near Cedar Street	The proposed project consists of the installation of 600 feet of 24 inch RCP drain, including pavement, loaming and seeding. The project will be constructed over private property and Washington Street to alleviate severe flooding on numerous, large commercial properties adjacent to Washington Street. In the past, severe flooding has caused closure of businesses for an extended period of time.		Woburn
Private Development - Traditional Infrastructure (unreviewed)	Cambridge Road (Rte. 3) and Rehabilitation Way Intersection Improvements	New left hand turn lane off Cambridge Road (Rte. 3) to Rehabilitation Way with improvements to Rehabilitation Way to enhance right turn only restriction. The project is currently privately financed by Five Star Quality Care to improve access to New England Rehabilitation Hospital and facilitate future improvements to the hospital grounds		Woburn
Municipal	EB Newton school boiler replacement project	Replacing a 1961 previously converted boiler	\$70,000	Winthrop
Municipal	Larson Rink Repairs	Includes the roof skin, installing insulated roof panels and converting existing lighting to energy efficient components	\$180,500	Winthrop
Municipal	Middle School boiler gas conversion and emergency generator replacement project	Replacement of two oil feed boilers with high efficiency gas boilers and to replace two undersized emergency generators	\$160,000	Winthrop
Municipal	Town Hall gas conversion and emergency backup power project	Convert the existing primary boiler and replace the 1961 secondary boiler with a high efficiency gas powered unit. Install a 400 kw backup emergency generator with new natural gas service and exhaust piping and emergency transfer switching	\$1,760,000	Winthrop
Municipal	Public Facilities Building Waste Oil Boiler Project	Installation of a waste oil boiler sized to provide heat to the garage facility	\$15,500	Winthrop
Municipal	Fort Bank Secondary Access Road Project	Construction of a secondary access road to minimize conflicts with a key public safety facility and to alleviate traffic congestion associated with peak school activities	\$600,000	Winthrop
Municipal	Winthrop Street Reconstruction # 605257	Roadway reconstruction, signal upgrades, handicap accessibility improvements and other safety and signage components for a local collector road	\$1,500,000	Winthrop
Municipal	Contract 3 – Sewer Main and Water Main Replacement Project	Replacement of approximately 6,500 linear feet of 8-inch through 12-inch gravity sewer with a new 8-inch through 12-inch PVC sewer main and installation of approximately 5,400 linear feet of 8-inch ductile iron water mains	\$2,150,000	Winthrop
Municipal	Contract 2 – Sewer Main and Water Main Replacement Project	Replacement of approximately 1,500 linear feet of 10-inch gravity sewer with a new 10-inch PVC sewer main, 200 linear feet of 8-inch ductile iron water mains, and installation of new 10-inch PVC sewer main	\$650,000	Winthrop
Municipal	Water Tower Repairs	Interior tank sealing of Winthrop's turn of the century stand pipe (tank)	\$165,000	Winthrop
Municipal	Revere – Crest Aves water line re-route project	Reroute about 150' of water main that runs through an abandoned railroad bridge	\$150,000	Winthrop

Commonwealth of Massachusetts

Municipal	Pump Station Improvements – Phase III	Design and construction of mechanical, electrical and HVAC repairs to all of the City's water and wastewater pump stations.	\$500,000	Waltham
Municipal	CHEMISTRY STATION PARK CONSTRUCTION	Construction of a new passive-recreation space on a remediated brownfield site in South Waltham.	\$550,000	Waltham
Municipal	Fernald Center, Trapelo Road, Waltham, MA	Acquisition and environmental clean-up of 196 acres of state land and buildings. S	\$200,000,000	Waltham
Municipal	FITCHBURG LINE I-95 MULTI-MODAL TRANSIT STATION CONSTRUCTION	Construction of a new multi-modal transit station on the Fitchburg Commuter Rail line adjacent to Interstate 95 in the vicinity of the Waltham and Weston corporate boundaries.	\$40,000,000	Waltham
Municipal	CRESCENT STREET PARKING GARAGE	Construction of a multi-level parking garage on Crescent Street in Waltham on the site of a municipal parking lot with expansion capability to provide parking for the downtown businesses.	\$12,000,000	Waltham
Municipal	RETROFITTING WALTHAM HIGH SCHOOL	Changes to the mechanical systems, windows, doors, technology, science labs, etc. to decrease energy consumption and greenhouse gas emissions.	\$40,000,000	Waltham
Municipal	RETROFITTING CITY OF WALTHAM MUNICIPAL BUILDINGS FOR ENERGY EFFICIENCY	We are seeking changes to the mechanical systems, windows, doors, energy efficient technology to decrease energy consumption and greenhouse gas emissions.	\$10,000,000	Waltham
Private Development - Traditional Infrastructure (unreviewed)	Foster-Miller electric vehicle infrastructure demonstration/pilot	Significant public and private investment is flowing into EV and batteries. Parallel investment is needed in planning and development for infrastructure required to support deployment of EV. This project would address this void via a coalition of major utilities, and universities under FMI as lead systems integrator, and would insure that infrastructure becomes available in time to support deployment of EV and batteries already under development by US companies. (white paper available)	\$2,000,000	Waltham
Private Development - Traditional Infrastructure (unreviewed)	Route 20 Interchange Improvements	This infrastructure project is located in Waltham, an attractive office and industrial area suitable for financial services, new technology and business. It would service the developed industrial area of Bear Hill Road as well as the proposed developments listed below and would provide significant relief to adjacent traffic congested residential neighborhoods. The project includes modifications to the interchange of I-95/Route 128 with Route 20/Route 117 and reconstruction of Green Street. The current Route 20	\$18,000,000	Waltham
Private Development - Traditional Infrastructure (unreviewed)	CityPoint (former Prospect Hill Executive Office Park at Totten Pond Road) in Waltham, MA	New northbound on-ramp from Totten Pond Road to Interstate 95/Route 128 (\$12 million); (ii) Storm water drainage infrastructure to correct faulty system and re-direct drainage CityPoint to the Cambridge Reservoir (\$7 million); and (iii) New road, sidewalk, and utility line construction (\$11 million, drawings substantially completed). This work would facilitate the redevelopment of the former Prospect Hill Executive Office Park where approximately 1 million square feet of new development could be constructed	\$30,000,000	Waltham
Private Development - Traditional Infrastructure (unreviewed)	Waltham Weston Corporate Center, Waltham, MA	Construction of access road from Interstate 95/Route 128 to the project. This work would facilitate approximately 200,000 sf of private development of office space	\$5,000,000	Waltham
Municipal	Water Treatment Plant Noise Mitigatin		\$480,000	Walpole
Municipal	Water Treatment Plant Rehabilitation		\$800,000	Walpole
Municipal	Walpole Year 3 I/I Reduction Project	The Town of Walpole has been working for several years to remove infiltration and inflow (I/I) from its municipal sewer system.	\$300,000	Walpole
Municipal	New Walpole Senior Center	A newly constructed senior center will have additional office space, room to provide services, and meeting/activity areas to allow for more than one program to occur at a time.	\$4,000,000	Walpole
Municipal	Construction of a New Walpole Public Library	Construction of a new 33,000 sq.ft. library facility in Walpole, Masssachusetts. Project approved as part of Massachusetts Board of Library Commissioners Library Building program.	\$12,000,000	Walpole
Municipal	New Public Safety Facility	A new public safety building combining the existing police and fire departments will be constructed.	\$20,000,000	Walpole
Municipal	Central Business District Revitalization	Reconstruction of sidewalks Reconfiguration and acquisition of additional parking Traffic safety improvements Traffic calming improvements Stormwater BMPs.	\$6,000,000	Walpole
Municipal	Elm Street Sidewalk Construction	Addition of sidewalks on State-Numbered Route 27 for safety of school children.	\$750,000	Walpole
Municipal	Washington Street Safety Improvements	Addition of sidewalks, traffic safety improvements and stormwater BMPs. This project is being considered for federal funding.	\$5,000,000	Walpole
Municipal	Brookfield Elementary Roofing Replacement	Replace leaking section of roof with new shingles	\$200,000	Wales Elementary School
Municipal	Wales Elementary Window Replacement	Replace aged single pane windows with double pane and insulated panels.	\$30,000	Wales Elementary School
Municipal	Wales Elementary Roofing Replacement	Re-skin the leaking roof section with new membrane	\$30,000	Wales Elementary School
Municipal	Wales Elementary Fuel Tank Replacement	Replace 30 year old single wall steel tank for #2 oil with double wall fiberglass	\$50,000	Wales Elementary School
Municipal	Wales Elementary Boiler Replacement	Remove asbestos, replace boiler, and insulate pipes	\$50,000	Wales Elementary School
Municipal	Green Energy for Wales	Wind Turbine to supplement municipal power located on town property	\$1,000,000	Wales
Municipal	Public Safety Complex	Energy Efficient and NFPA compliant Public Safety Complex	\$0	Wales
Municipal	New Wales Public Library	Construction of a Library Building or Purchase and Renovate an existing building to be used as a library	\$4,000,000	Wales

# Commonwealth of Massachusetts

## Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Woodland Heights/Union Road Rehabilitation	Road & Drainage Reconstruction	\$1,500,000	Wales
Municipal	Wind Turbine	Install a wind turbine	\$1,000,000	Wales
Municipal	Wak-01: WATER BOOSTER STATIONS (3) - CONSTRUCT	Build 3 water boosters stations to resolve e low pressure areas	\$1,660,000	WAKEFIELD
Municipal	Wak-03: LINDEN STREET WATER PUMPING STATION UPGRADE	Rebuild existing linden street water pumping station	\$1,100,000	WAKEFIELD
Municipal	Wak04: WATER MAIN IMPROVEMENTS ON 26 STREETS	Replace aging water mains on 26 streets	\$7,635,000	WAKEFIELD
Municipal	Wak05: WATER STANDPIPE REHABILITATION (SIDNEY STREET)	Rehabilitate interior, exterior, foundation, and controls of the Towns water standpipe	\$650,000	WAKEFIELD
Municipal	Wak32: WATER METER AND ELECTRONIC METER READING SYSTEM – PHASE IV	Replace 20 (+) year old water meters adn implement electronic meter reading system	\$975,380	WAKEFIELD
Municipal	Wak06: WATER/SEWER VEHICLE STORAGE FACILITY	Construct a vehicle storage facility at the water treatment plant	\$950,000	WAKEFIELD
Municipal	Wak02: SEWER PUMP STATIONS – REBUILD FIVE (5) STATIONS	Rebuild 5 sewer pump stations that are more than 25 years old	\$1,500,000	WAKEFIELD
Municipal	Wak07: BRICK OUTFALL SEWER REHABILITATION	Rehabilitate town primary sewer main	\$600,000	WAKEFIELD
Municipal	Wak13: SALEM STREET SEWER MAIN EXTENSION	Construct new sewer main in Salem Street from Chapman Road to Pleasure Island Road	\$525,000	WAKEFIELD
Municipal	Wak08: DRAINAGE SYSTEM IMPROVEMENTS TO FIVE (5) AREAS.	Replace failing drainage mains in 5 areas	\$275,000	WAKEFIELD
Municipal	Wak09: DRAINAGE SYSTEM IMPROVEMENTS – REPLACE 100 DRAINAGE STRUCTURES	Replace failing drainage structures in various sections of Town	\$600,000	WAKEFIELD
Municipal	Wak24: ROADWAY ADJUSTMENTS RELATED TO TRAIN HORN REGULATIONS	Construct a series of islands at three railroad crossing to improve safety and prevent the blowing of train horns	\$100,000	WAKEFIELD
Municipal	Wak30: TOWN CEMETERY ROADWAYS - REPAVE	Repave the roadways within the Town's cemetery	\$247,200	WAKEFIELD
Municipal	Wak10: WAKEFIELD MEMORIAL HIGH SCHOOL PARKING AREA CONSTRUCTION	Build a new parking area at the high school	\$375,000	WAKEFIELD
Municipal	Wak28: RESURFACING OF TWO (2) PARKING AREAS (GREENWOOD & MIDDLE SCHOOL)	Resurface the parking areas at the Greenwood elementary school and middle school	\$214,800	WAKEFIELD
Municipal	Wak31: WATER STREET PARKING AREA CONSTRUCTION	Construct a parking lot on Town owned land along Water Street	\$40,500	WAKEFIELD
Municipal	Wak33: LINCOLN SCHOOL PARKING LOT CONSTRUCTION	Construct a parking lot on housing authority land	\$135,000	WAKEFIELD
Municipal	Wak11: SIDEWALK CONSTRUCTION (NEW)	CONSTRUCT NEW SIDEWALK. THE PROJECT WILL BUILD 7,000 FEET OF SIDEWALK (ELM ST., SALEM ST. SECTIONS, MAPLEWAY AVE., WATER ST.)	\$550,000	WAKEFIELD
Municipal	Wak12: SIDEWALK REHABILITATION	REHABILITATE EXISTING SIDEWALK ALONG MAIN STREET IN WAKEFIELD	\$550,000	WAKEFIELD
Municipal	Wak14: TENNIS COURT REHABILITATION	REBUILD TENNIS COURTS AT THE HIGH SCHOOL AND VETERANS FIELD	\$375,000	WAKEFIELD
Municipal	Wak19: HIGH SCHOOL BLEACHER UPGRADE AT LANDRIGAN FIELD	UPGRADE BLEACHERS AT THE HIGH SCHOOL FOOTBALL FIELD	\$120,000	WAKEFIELD
Municipal	Wak20: CONSTRUCT SYNTHETIC TURF FIELD AT THE MIDDLE SCHOOL – WALTON FIELD	CONSTRUCT A MULTI-PURPOSE SYNTHETIC TURF FIELD AT THE MIDDLE SCHOOL	\$2,170,000	WAKEFIELD
Municipal	Wak21: CONSTRUCT SYNTHETIC TURF FIELD AT THE HIGH SCHOOL – BEASELY OVAL	CONSTRUCT A MULTI-PURPOSE SYNTHETIC TURF FIELD AT THE HIGH SCHOOL	\$1,640,000	WAKEFIELD
Municipal	Wak22: CONSTRUCT ATHLETIC FIELDS AT MAPLEWAY / ARUNDEL AVENUE FACILITY	CONSTRUCT PHASE II OF A PLANNED RECREATIONAL FACILITY. PHASE II WILL CONSTRUCT ATHLETIC FIELDS AT MAPLEWAY / ARUNDEL AVENUE	\$650,000	WAKEFIELD
Municipal	Wak23: HIGH SCHOOL TRACK RESURFACING – EXTERIOR	REHABILITATE THE EXISTING HIGH SCHOOL ATHLETIC TRACK	\$45,000	WAKEFIELD
Municipal	Wak25: FIELD HOUSE BLEACHER REPLACEMENT AT THE HIGH SCHOOL AND	REPLACE THE BLEACHERS IN THE HIGH SCHOOL AND MIDDLE SCHOOL FIELD HOUSES	\$115,000	WAKEFIELD
Municipal	Wak26: HIGH SCHOOL FIELDHOUSE FLOORING RESURFACING	RESURFACE THE EXISTING UREATHANE FLOOR WHICH IS IN EXCESS OF 35 YEARS OLD	\$144,000	WAKEFIELD
Municipal	Wak15: INTERIOR AND EXTERIOR SCHOOL PAINTING	PAINT THE INTERIOR AND EXTERIOR OF THREE SCHOOL FACILITIES (HIGH SCHOOL, MIDDLE SCHOOL AND GREENWOOD SCHOOL).	\$240,000	WAKEFIELD
Municipal	Wak16: SCHOOL WINDOW REPLACEMENT	REPLACE WINDOWS AT THE HIGH SCHOOL AND MIDDLE SCHOOL WITH NEWER ENERGY EFFICIENT UNITS	\$2,400,000	WAKEFIELD
Municipal	Wak17: LIGHTING REPLACEMENT	REPLACE LIGHTING AT THE HIGH SCHOOL, MIDDLE SCHOOL, TOWN HALL, AND PUBLIC WORKS FACILITIES	\$450,000	WAKEFIELD
Municipal	Wak18: ROOF REPLACEMENT AT TWO (2) SCHOOL FACILITIES	REPLACE ROOFS AT TWO (2) SCHOOLS (HIGH SCHOOL AND GREENWOOD)	\$1,250,000	WAKEFIELD
Municipal	Wak27: FLOORING REPLACEMENT GALVIN MIDDLE SCHOOL	ABATE AND REPLACE ASBESTOS CONTAINING VINYL COMPOSITION TILE	\$475,000	WAKEFIELD

# Commonwealth of Massachusetts

## Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Wak29: PERFORMING ARTS CENTER AT THE HIGH SCHOOL	COMPLETE THE PERFORMING ARTS CENTER AT THE HIGH SCHOOL	\$387,000,000	WAKEFIELD
Municipal	Wak36: MUNICIPAL ELECTRIC & GAS VEHICLE STORAGE FACILITY	CONSTRUCT A VEHICLE STORAGE FACILITY AT THE EXISTING MUNICIPAL ELECTRIC & GAS PLANT ON NORTH AVENUE	\$2,000,000	WAKEFIELD
Municipal	Wak34: DIGITAL IMAGING AND RECORDS MANAGEMENT – TOWN WIDE	PROVIDE AN ELECTRONIC SYSTEM OF DIGITAL ARCHIVING, DIGITAL IMAGING AND RECORDS MANAGEMENT THROUGHOUT THE TOWN	\$250,000	WAKEFIELD
Municipal	Wak35: MUNICIPAL WI-FI TOWN WIDE	Provide a town wide municipal wi-fi system	\$650,000	WAKEFIELD
Municipal	Meadow Walk – Mixed-Use	Project has been designed and approved as a mixed-use neighborhood village containing up to 395,000 SF of retail, 80,000 SF of office over retail, 18 apartments, 48 senior housing units and a nine-hole golf course.	\$3,600,000	Wakefield
Municipal			\$4,100,000	WAKEFIELD
Private Development - Traditional Infrastructure (unreviewed)	Bay State PORTS®	Installation and maintenance of a Physical Oceanographic Real-Time System (PORTS) for Massachusetts (for more details, see Bay State Ports Summary document attached). Funding request includes installation and Year 1 and 2 operation and maintenance.	\$2,200,000	Various
Municipal	Uxbridge High School	Construction of new high school facility on Town owned land for approximately 600-650 Grade 9-12 students	\$42,000,000	Uxbridge
Municipal	Uxbridge Water System Improvements	New well and pump station at the Rosenfeld Well Site, and approximately 1,800 linear feet of 16 diameter ductile iron main with all associated valves, fittings and hydrant	\$4,000,000	Uxbridge
Municipal	Water System Improvements – Quaker Highway (Route 146A), Main Street (Route 122) and North	Construction of approximately 16,000 linear feet of 20-inch diameter ductile iron water main, water services, and associated valves, fittings, and hydrants	\$3,800,000	Uxbridge
Municipal	Virginia Blanchard Building Structural Reconstruction and Renovation	Structural reconstruction and renovation of the Virginia Blanchard Building at 65 East Hartford Avenue	\$6,200,000	Uxbridge
Municipal	Uxbridge Town Hall Structural Reconstruction and Renovation	Structural reconstruction and renovation of the Uxbridge Town Hall at 21 South Main Street	\$4,000,000	Uxbridge
Municipal	Uxbridge Coronet John Farnum, Jr. House Replacement Roof	Replace roof shingles, many roof boards, and a few of the roof rafters	\$45,000	Uxbridge
Municipal	Bernat Mill/Downtown Uxbridge Connections	Connections and Streetscape/Sign/Façade programs in Downtown Uxbridge Establish/Enhance Pedestrian Connections and implement Streetscape/Sign/Façade Programs	\$1,750,000	Uxbridge
Municipal	Municipal Salt Shed at the Uxbridge DPW Facility		\$0	Uxbridge
Municipal	Hecla Street Bridge over West River		\$0	Uxbridge
Municipal	North Uxbridge Fire Station		\$0	Uxbridge
Municipal	Hartford Avenue East Pedestrian Bridge and Bicycle Path	Construction of a separated paved bicycle path running parallel to Hartford Avenue	\$2,200,000	Uxbridge
Municipal	Uxbridge Town Hall Historic Records Scanning and Preservation	All historical records and documents (many dating back to the early 1700's) being preserved in their original form and stored in a climate controlled area separate from the general document storage area.	\$120,000	Uxbridge
Municipal	The Upton Town Library Construction Project	Construction of a new Upton Town Library to replace one which is inadequate and out of date without access for the handicapped.	\$7,750,000	Upton
Municipal	Plant Improvement Project, Phase III	Improvement and upgrading of solids processing system needed to achieve water quality standards and energy efficiency enhancements.	\$25,000,000	Upper Blackstone Water Pollution
Municipal	Storm Drain Rehabilitation	Rehabilitation of 18-inch diameter concrete and clay pipe and associated manholes with a cured in place lining to protect against infiltration of potentially contaminated groundwater.	\$500,000	Upper Blackstone Water Pollution
Municipal	Cummings Rd., Kendall Rd., Locust Rd. Water Main Extensions	Install a water main from Progress Ave to Locust Rd. by way of Cummings and Kendall Rds.	\$700,000	Tyngsborough Water District
Municipal	Construct new Office and Maintenance Building	Construct an Office and Maintenance Building of Land owned by the District of Frost Rd. this would be a shared facility with the Town of Tyngsborough Sewer Dept., and Public Works Dept.	\$1	Tyngsborough Water District
Municipal	Pawtucket Boulevard water main extension	Install a water main extension on the East Side of the Merrimack River, install 12" water main and hydrants to supply water and fire protection to approximately 355 residents.	\$1,750,000	Tyngsborough Water District
Municipal	1 million gallon elevated water storage facility	Construct a 1 million gallon water storage facility to replace the existing .65 million existing tank that does not meet the storage capacity required.	\$2,400,000	Tyngsborough Water District
Municipal	Middlesex Road water main extension	Install 16" water main on Middlesex Rd. to furnish water and fire protection to the north section of Middlesex Rd. This is the planned business section of Middlesex Rd.	\$1,000,000	Tyngsborough Water District
Municipal	Elementary School - Energy Efficiency	Project Status: Planning Per State Energy Audit dated December 2008: Replace gym lights, reduce lighting levels, daylight harvesting, better switching, restore hot water reset...	\$34,899	Tyngsborough
Municipal	High School - Energy Efficiency	Project Status: Planning Per State Energy Audit dated December 2008: Commission control system, replace motors, insulate water tank, lower DHW water setpoint, reduce heating...	\$68,892	Tyngsborough
Municipal	Highway Garage - Energy Efficiency	Project Status: Planning Per State Energy Audit dated December 2008: Lighting efficiency This project is not being considered for any other state or federal funding.	\$4,135	Tyngsborough
Municipal	Police Station - Energy Efficiency	Project Status: Planning Per State Energy Audit dated December 2008: Lighting efficiency, replace boiler, air seal attic, replace windows	\$45,408	Tyngsborough
Municipal	Town Offices and Library - Energy Efficiency	Daylight harvesting, occupancy sensor, replace lights, reduce light levels, restore night setback, install automatic dampers, air seal attic, infrared scan of walls and insulation issues	\$69,308	Tyngsborough

## Commonwealth of Massachusetts

### Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	New Emergency Operations Center (EOC)	The Emergency Operations Center will be an addition to the Police Station, approximately 34' x 34', and will contain the essential equipment and supplies to provide a functional EOC.	\$125,000	Tyngsborough
Municipal	New Recreational Park along Merrimack River	The town has developed a design and cost estimate for the creation of a park that will include walkways, picnic tables, benches, grills, swing set, horseshoe pits, fishing areas, a campout...	\$800,000	Tyngsborough

### Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Relocation and Expansion of the Renaissance School	The build out of this site would provide this school with the necessary resources and provide the opportunity for higher educational opportunities.	\$10,500,000	Springfield
Municipal	Residential Roadway Resurfacing	Resurfacing of approximately 100 public and private residential streets. Work to include drainage improvements, ADA compliant sidewalks, curb cuts and public utility adjustments.	\$5,000,000	Springfield
Municipal	Riverfront Park Master Plan and Upgrades to Riverfront Park	The master planning would include a comprehensive study to determine the economic potential, recreation opportunities, and improving its accessibility to downtown.	\$5,000,000	Springfield
Municipal	School and Municipal Building Brick Pointing and Flashing Repairs	The city hosts over 80 School and Municipal buildings requiring a moderate amount of work to its exterior brick/ masonry structures.	\$7,200,000	Springfield
Municipal	School and Municipal Building Security/Camera, Safety Upgrades	The city has conducted a review of its current security systems inventory and has determined that a significant investment is needed in: security cameras, emergency generator upgrades...	\$12,500,000	Springfield
Municipal	Public School Classroom Technology and Information Systems Upgrades	In alignment with the district technology plan, each Springfield Public School has developed a technology plan which is a part of its School Improvement Plan (SIP).	\$20,000,000	Springfield
Municipal	School Facility Upgrades – 3 Schools	The replacement of the existing roofs is imperative to the overall environment of the schools. We have all seen the evidence of allowing a roof to go beyond its design life.	\$15,000,000	Springfield
Municipal	School Restroom Renovations – City wide – 8 Schools	Renovations to the restrooms are imperative to the overall environment of the schools. Most of the lavatories are original pedestal style porcelain, and with floor mounted toilets.	\$4,160,000	Springfield
Municipal	School Roof Replacements – City wide – 17 Roofs	The replacement of the existing roofs is imperative to the overall environment of the schools. We have all seen the evidence of allowing a roof to go beyond its design life.	\$15,615,000	Springfield
Municipal	Schools - Doors/Windows Replacement – City wide – 14 Schools	The windows are all original to the schools and are wooden framed or single-paned aluminum.	\$19,030,000	Springfield
Municipal	South End Community Center Roof Replacement and Wall Repairs	Complete tearoff and replacement of all slate and copper roofs and reconstruction of the exterior brick masonry parapets and walls.	\$7,000,000	Springfield
Municipal	Senior Center	It is the intent of the city to build a facility that would expand and enhance the programs currently being offered.	\$6,500,000	Springfield
Municipal	Solid Waste – Single Stream Recycling Program	City wide conversion from dual stream recycling collection to single stream recycling collection.	\$3,000,000	Springfield
Municipal	South End Neighborhood Revitalization	Expansion of the Emerson Wight Park along with the reconnection and reconstruction of Ashmun, Marble, Dwight St. Extension, Wendell and Rutledge Streets within the project area.	\$4,500,000	Springfield
Municipal	SPS Data Center and Data Storage Warehouse	Design and construct a new and secure consolidated data facility.	\$3,500,000	Springfield
Municipal	SPS Portables Replacement Program	Specify and Install Replacement Portable Classroom Units at 3 schools.	\$3,000,000	Springfield
Municipal	SPS SAFE Middle School Renovation	Design and renovate a former nursing home into a school building for middle school age children with special needs.	\$9,600,000	Springfield
Municipal	State Street Alliance Redevelopment Projects	Redevelopment of two historic properties at the center of the Mason Square neighborhood – the Mason Square Fire Station and Indian Motorcycle Building "B"	\$2,000,000	Springfield
Municipal	Springfield Technical Community College Parking Garage	Construct a new parking facility at Pearl and Federal Streets, adjacent the campus of the Springfield Technical Community College and the STCC Technology Park.	\$15,000,000	Springfield
Municipal	Swan Pond Erosion and Bank Stabilization	BECAUSE OF THAT STUDY A PLAN WAS PRODUCED IN ORDER TO REHABILITATE THE BANK SLOPE AND FIX THE REASON WHY THIS EROSION IS HAPPENING.	\$250,000	Springfield
Municipal	Symphony Hall	Exterior Renovation including repointing, restore bronze front entrance doors, restore/rewire historic lighting fixtures, replace deteriorated sidewalks, reset precast stair treads...	\$2,230,000	Springfield
Municipal	Municipal Operations New Vehicle Storage Facility	Purchase, design and construct a new vehicle storage facility for the DPW's specialty vehicles.	\$3,500,000	Springfield
Municipal	Springfield Municipal Operations Center - Shell Space Buildout and Renovations	Buildout of existing 2nd floor shell space into offices and warehousing/storage, and renovations to 1st floor warehousing space.	\$8,000,000	Springfield
Municipal	Taylor Street Reconstruction	Reconstruction / resurfacing of a section of Taylor Street including: drainage improvements, ADA compliant sidewalks and curb cuts, public utility adjustments, traffic signal upgrades...	\$3,000,000	Springfield
Municipal	Traffic Signal Upgrade at Intersection of Sumner/Allen and Abbott St.	Upgrade of existing signalized intersection including geometric realignment, express bus priority, pedestrian crossing, and new paving.	\$1,200,000	Springfield
Municipal	Trails / Bikeways / Walkways	Blunt Park Bikeway/Walkway – continuation of Phase I of bikeway/walkway project. Extend path to accommodate community bike racing, and neighborhood walking trails...	\$4,000,000	Springfield
Municipal	Union Station Intermodal Transit Center	To create a sustainable transit-oriented redevelopment project in Springfield's downtown that can maximize access to public transportation, boost transit ridership...	\$65,000,000	Springfield
Municipal	West Street Bridge	Rehabilitation of bridge deck and superstructure. Work to include sidewalk replacement, cleaning and painting.	\$2,000,000	Springfield
Municipal	Zoo Renovation/Drainage Project	The Parks Department and Zoo would like to eliminate the detention basin because it is an eyesore plus they could use the area for more displays.	\$4,500,000	Springfield
Municipal	Structural and Site Improvements of Colton Street Field Services Facility	The Project includes necessary building and site work, include roof replacement, brick repointing, window replacement, structural support repair, and building code improvements.	\$3,600,000	Springfield
Municipal	Connecticut River Phase I CSO 007.1 and 007.2 Separation project	In response to a USEPA Administrative Order under the Clean Water Act the Commission must abate CSO discharge to the Connecticut River.	\$28,000,000	Springfield

# Commonwealth of Massachusetts

## Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Nova Chicopee River Transmission Main	The Chicopee River Transmission Main Project is required in response to a leak that was repaired in 2006. The twin pipe river crossing provides 100% of the water supply.	\$2,900,000	Springfield
Municipal	Orchard Street Transmission Main and Valves Replacement	The project includes the temporary removal of a section of flood wall and replacement of steel piping, large gate valves, access manholes and appurtenances.	\$5,800,000	Springfield
Municipal	Provin Tank 2 Rehabilitation	Improve structural integrity, reliability and life span of concrete storage tank, includin 2 new steel reinforced walls, repair all water stops, repair all wall, roof and slab cracks...	\$3,300,000	Springfield
Municipal	Raw Water Tunnel Fill Valve, Surge Tank, Penstock and Power Valve Project	The project includes a new steel tank and foundation, lining of the trifurcation and penstocks, 6 new butterfly valves and operators, and one angle valve for filling the tunnel.	\$9,300,000	Springfield
Municipal	Emergency Engine Generator for West Parish Filters	The project involves demolishing the existing system and replacing with a self contained diesel engine/generator. New service connections and MCC panels will be included	\$600,000	Springfield
Municipal	Replace old antiquated engine/generator set and	as well.		
Municipal	York Street Pumping Station Bar Rack Replacement	Large bar racks are located upstream of the York Street Pumping Station to protect their impellers from large solids. The Racks must be replaced due to corrosion and wear and tear.	\$1,200,000	Springfield

Municipal	Rehabilitation of Route 57 Granville Road	Milling and paving of 4+ miles of MA 57, Granville Road, along with associated berm & apron work, guardrails, drainage/structure upgrades, line-striping, loam & seed in work areas.	\$3,000,000	Southwick
Municipal	Rehabilitation of Vining Hill Road	Overlaying 2.5+ miles of Vining Hill Road, along with associated berm & apron work, guardrails, drainage/structure upgrades, line-striping, loam & seed in work areas.	\$1,000,000	Southwick
Municipal	Environmental Industrial Park Access Road	The Town of Southbridge has designed and bid an Environmental Industrial Park access road.	\$17,600,000	Southbridge
Municipal	Municipal vehicles	These vehicles could be purchased quickly through state bid listings or consortium bids.	\$1,260,000	Southbridge
Municipal	Water Main Extension – Route 169 to Route 20	This project involves the installation of approximately 12,500 lineal feet of 16-inch cement lined ductile iron (CLDI) water main along Route 169 (a state highway)...	\$2,750,000	Southbridge
Municipal	Combined DPW Facility – Phase II Site Remediation	This project involves the remediation of contaminated soils on the site of the new Combined DPW Facility.	\$6,600,000	Southbridge
Municipal	South Street Sewer Replacement	This project involves replacing 850 feet of 8" sewer main with 12" PVC sewer pipe, installing 280' of 8" sewer force main, and the associated road surface repairs on South Street.	\$160,000	Southbridge
Municipal	Water Meter Replacement Program	This project involves replacing all (4,200 +/-) existing residential touch pad style water meters in the town with new radio-read models.	\$750,000	Southbridge
Municipal	Water Treatment Plant Improvements	The project includes providing and installing the 3rd water treatment unit at the water treatment plant, replacing the clarifiers and filter media in the existing two treatment units...	\$3,000,000	Southbridge
Municipal	Wastewater Treatment Plant – Generator Replacement	This project involves the replacement of a 23-year old, 750Kw Mitsubishi diesel generator that serves as the emergency power back-up for the towns 3.4 MGD wastewater treatment plant.	\$250,000	Southbridge
Municipal	Southbridge WWTF WAS Building Demolition and Replacement	The structural elements of the Waste Activated Sludge (WAS) Building at the Southbridge WWTF have significantly deteriorated over the past 2 years, resulting in the need to demolish...	\$800,000	Southbridge
Municipal	Environmental Industrial Park		\$0	Southbridge
Municipal	Fire Station Roof and Structural Repairs & Renovations	The plan includes removal and replacement of the existing roofs including the tower roof and includes all tower and main station structural and masonry repairs.	\$1,110,600	Southbridge
Municipal	New HVAC system and energy efficient windows for our emergency regional shelter / community center.	Replace a 35 year old heating system, and install air conditioning.	\$185,000	Southbridge
Private Development - Traditional Infrastructure (unreviewed)	Southbridge Business Center	The Southbridge Business Center is a multi-tenanted business park consisting of a 315,000 square ft., 205 room world class hotel and conference center and 900,000 square feet of commercial space in 10 buildings, offering a wide variety of uses including warehouse/ distribution, manufacturing, research & development, residential, and office		Southbridge
Municipal	Aerial Truck replacement	Replace the Department's 25 year old aerial truck, which cannot be certified to NFPA safety standards	\$950,000	Southborough
Municipal	Southborough Police Station and Combined Public Safety Complex		\$0	Southborough
Municipal	Installation of Solar Electric Photovoltaic (PV) Panels for the Department of Public Works Transfer Station	Installation of Solar Electric PV panels on the roof of the Department of Public Works (DPW) Transfer Station	\$184,500	Southborough
Municipal	Installation of Solar PV Panels at Transfer Station	Installation of 122 PV Panels on roof of Transfer Station Building	\$184,500	Southborough
Private Development - Traditional Infrastructure (unreviewed)	Patient Care Expansion at Southboro Medical Group	\$500,000 for Southboro Medical Group to expand its Southborough site by approximately 27,000 square feet, mostly accommodate growth in adult medicine, including primary care.	\$500,000	Southborough
Municipal	A. Solar Panel Project	Place solar panels on roof to offset 50 – 100 % of electricity	\$2,800,000	Southampton
Municipal	B. Boiler Project	Convert boiler for the ability to run on either Natural Gas or Oil	\$75,000	Southampton
Municipal	C. Wind Power Irrigation	Install a wind power irrigation system to save energy costs	\$30,000	Southampton

## Commonwealth of Massachusetts

### Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	D. Skylight Replacement	Replace inefficient skylights in school with skylights with higher R value to save energy cost	\$20,000	Southampton
Municipal	E. School Transportation Alternatives □	Installation of the following projects to facilitate students getting to school by alternative means other than school bus. Create a walkway between the school and apartment complexes on College Highway – Route 10.	\$100,000	Southampton
Municipal	F. School Lighting Project	Rewire the school to provide more zone control over lighting	\$50,000	Southampton
Municipal	G. Green Grid Roofing System	Install a Green Grid Roofing System to increase more insulation and energy efficiency. Roofing system is modular for easy installation and maintenance	\$0	Southampton
Municipal	H. Green Septic Tank System	Install a green septic tank system to provide more environmentally friendly waste system.	\$0	Southampton
Municipal	Technology Projects	Purchase interactive boards for 45 classroom – 45 classrooms, laptops for each teacher	\$400,000	Southampton
Municipal	K. Safety Issues	Enhance safety within building including sprinkler system	\$100,000	Southampton
Municipal	L. Environment Enhancements	Install a greenhouse for the cafeteria to provide fresh food year round and a composting system to recycle food waste and provide enriched material for food production plant fruit trees for shade and food	\$20,000	Southampton
Municipal	L. Handicap Accessible Playground Equipment	Purchase Handicap Accessible Playground Equipment to provide physical exercise and play opportunities for all students	\$25,000	Southampton
Municipal	M. Pre-School Addition	Build another 2 classrooms on the school to provide pre-school services.	\$0	Southampton
Municipal	Sewer Infrastructure for Hampton Ponds Area	Build sewer infrastructure in Southampton	\$11,500,000	Southampton
Municipal	Police Station Improvements	Reconfigure the entry area of the station to accommodate a 'sally-port', which would allow for the safe transfer of prisoners to cells. Remaining monies would be used to install separate changing and showering facilities for male and female officers	\$250,000	Southampton
Municipal	Labrie Field	Acquisition and development of former agricultural land to be used for active recreation (public playing fields)	\$1,135,000	Southampton
Municipal	Larrabee Building Adaptive Reuse	Renovation and rehabilitation of former Larrabee School to house Town Offices & Senior Center	\$2,400,000	Southampton
Municipal	Solar Energy	Offset electricity costs	\$2,800,000	Southampton
Municipal	Boiler Project	Ability to use natural Gas or Oil in boilers - currently Gas only. Install cost effective circulating pumps	\$75,000	Southampton
Municipal	Irrigation Project	Wind powered pump for irrigation	\$30,000	Southampton
Municipal	Skylight Replacement	Replace inefficient Skylights in school with high R value	\$200,000	Southampton
Municipal	School B&TTransportation - Walk	Create a walking path from apartments to School. Improving sidewalks & parking areas	\$100,000	Southampton
Municipal	Biodiesel Buses	Provide incentives to School Bus contract to obtain Biodiesel Buses	\$100,000	Southampton
Municipal	School lighting project	Rewire lights in school to provide more control on lighting	\$50,000	Southampton
Municipal	Roofing Project	Install a green grid roof to provide energy efficiency. Current Roof is 14 years old with a 15 year warrantee	\$0	Southampton
Municipal	Green Septic Tank	Install a green septic tank system	\$0	Southampton
Municipal	Redevelopment of Former South Weymouth Naval Air Station ("SouthField") – East West Parkway and	The proposed East-West Parkway will be a new 3.6-mile long roadway providing access to the new SouthField community and serving as a regional connector roadway between Route 18	\$74,975,000	South Shore Tri-Town Development
Municipal	Redevelopment of Former South Weymouth Naval Air Station ("SouthField") – Wastewater Treatment	Construction of a wastewater treatment plant, a 9-acre effluent disposal bed, a slurry wall containment system, and the "daylighting" and restoration of a culverted stream integral to the facility.	\$51,449,000	South Shore Tri-Town Development
Municipal	Redevelopment of Former South Weymouth Naval Air Station ("SouthField") – Phase 1B Infrastructure and Project-Wide Demolition	Replacement of peat with geotechnically suitable material in specific redevelopment areas Demolition and abatement, both horizontal and vertical...	\$68,068,000	South Shore Tri-Town Development Corporation
Municipal	Lower Woodbridge Terrace & Red Ledge Road Water Main Replaceme	Replace 6" cast iron water main with 8" ductile iron water main. .	\$323,000	South Hadley Fire District No.2
Municipal	Sycamore Park Sewer Pump Station upgrade project	Upgrade Sycamore Park pump station #1, eliminate pump station #2, and upgrade gravity sewer line between the two stations.	\$700,000	South Hadley
Municipal	Taylor Street- Road and Sidewalk reconstruction project	Road and sidewalk reconstruction.	\$150,000	South Hadley
Municipal	West Summit Street- Road and Sidewalk reconstruction project	Road reconstruction, sidewalk construction and drainage improvement	\$250,000	South Hadley
Municipal	Morgan Street- Road and Sidewalk reconstruction project	Road reconstruction, sidewalk, pedestrian bridge construction and drainage improvement	\$660,000	South Hadley
Municipal	Hadley Street (Rt. 47)- Road and Sidewalk reconstruction project	Road reconstruction, sidewalk reconstruction/construction and drainage improvement	\$600,000	South Hadley
Municipal	Ferry Street- Road reconstruction project	Road reconstruction and drainage improvement	\$475,000	South Hadley

Commonwealth of Massachusetts

Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Canal Street- Road and Sidewalk reconstruction project	Road, sidewalk reconstruction/construction and drainage improvement	\$550,000	South Hadley
Municipal	Brainerd Street- Road and Sidewalk reconstruction project	Road reconstruction, sidewalk construction and drainage improvement	\$550,000	South Hadley
Municipal	Pearl Street- Road reconstruction project	Road reconstruction and drainage improvement	\$500,000	South Hadley
Municipal	South Hadley Public Library HVAC Replacement	The library is heated and cooled by a Dunham-Bush RMC model HVAC unit installed in 1974. The town would realize significant energy savings in moving to high efficiency HVAC unit.	\$140,000	South Hadley
Municipal	Roof redesign and replacement	To redesign the structure of the entire roof of the senior center and to put in proper drainage and roofing material	\$500,000	South Hadley
Municipal	50-52 School Street	Clean up and renovate vacant house to create 2 additional public housing residential units.	\$250,000	South Hadley
Municipal	Beachgrounds Renovation Project	Renovation of a town park located in South Hadley Falls, which has been designated an Economic Development area.	\$260,000	South Hadley
Municipal	Judd Brook Sewer Interceptor I/I reduction project	CIPP lining 6,500 feet of 15" and 18" clay pipe and manholes along Judd Brook	\$1,100,000	South Hadley
Municipal	Sycamore Park Pump Station upgrade project	Upgrade Sycamore Park pump station , Eliminate Topher pump staion, and upgrade gravity line between the two station	\$700,000	South Hadley
Municipal	Depot Street Water Main		\$0	South Grafton
Municipal	Providence Road Well Pump Station Upgrade for Filtration Treatment		\$0	South Grafton
Municipal	Project 1 Wastewater Treatment Plant Upgrade	Repair/replace/upgrade wastewater treatment equipment	\$8,200,000	South Essex Sewerage District
Municipal	Project 3 - Combined Heat & Power (CHP) Electrical/Heat Cogeneration Facility	This project is a combined heat and power (Cogeneration) system that will take the place of our existing lead hot water/steam boilers, system will produce both hot water and electricity	\$3,844,000	South Essex Sewerage District
Municipal	Project 2 - Electricity/Energy Reduction - High Technology Mixers on Secondary Treatment	Replace/upgrade sixteen secondary treatment process mixers. Replace sixteen of the existing twelve year old mixers with new state of the art mixers that enhance treatment effectiveness	\$625,000	South Essex Sewerage District
Municipal	Project 4 Upgrade Collection System Pumping Stations	Repair/replace/upgrade wastewater pumping equipment, components and facilities including: Replace Beverly Pump Station Bar Screen, Remove Inoperable Harmonic Filtering System...	\$1,740,000	South Essex Sewerage District
Municipal	Project 5 – Wind Turbine	This project is a Wind Turbine that will produce electricity. The project will produce 1,200,000 kwh of electricity per year onsite, substantially reduce our demand for electricity...	\$4,200,000	South Essex Sewerage District
Municipal	Amelia Erhart Dam Repair		\$500,000	Somerville

Municipal	Magoun Square		\$3,100,000	Somerville
Municipal	Magoun Square		\$3,100,000	Somerville
Municipal	Electronic Permitting and Financial System		\$490,000	Somerville
Municipal	Electronic Permitting and Financial System		\$490,000	Somerville
Private Development - Traditional Infrastructure (unreviewed)	Assembly on the Mystic - Public Sewer	Build required public sewer	\$22,200,000	Somerville
Municipal	Contract No. 31 – Upgrade of Angus St. Pumping Station and Force Main	Rehabilitation of a municipal wastewater pumping station and cleaning & lining of approx. 1,900 feet of 6-inch diameter cast iron force main.	\$760,000	Somerset - Board of Water & Sewer
Municipal	Wind Turbines	Site and construct wind turbines at the water treatment facility and the Highway Dept.	\$300,000	Somerset
Municipal	Water Tank	Construct a water storage tank to ensure adequate fire protection for the Bayton Point Power Station	\$4,000,000	Somerset
Municipal	Town Hall Boiler Replacement & Solar Collectors	Replace the 50% efficient old boiler with an efficient new boiler and add solar collectors to roof	\$263,534	Somerset
Municipal	Senior / Community Center	Construct a "green" Senior / Community Center	\$3,500,000	Somerset
Municipal	Highway Dept. Roof & Solar Collectors	re-roof leaking structure and add solar photo voltaic collectors	\$203,534	Somerset
Municipal	Riverside Avenue	Coldplane, level, and resurface roadway, with granite curbing and rebuild sidewalks	\$3,279,000	Somerset
Municipal	Library Solar Collectors	add solar photo voltaic collectors	\$139,257	Somerset
Municipal	Green High School	Replace the old high school portions of which have been ruled as unsafe and are now closed with a green energy efficient high school	\$60,000,000	Somerset
Municipal	Martha's Vineyard Regional Comprehensive Wastewater Management Plan	The Towns of Martha's Vineyard will need to construct significant upgrades to its centralized and decentralized wastewater facilities in the next few years.	\$950,000	Six Martha's Vineyard Towns
Municipal	New Generator for our elementary school	Purchase and installation of generator	\$43,000	Shutesbury
Municipal	Clean-up of Hazardous waste site	Clean up an underground gasoline tank contamination of area soil	\$150,000	Shutesbury
Municipal	Wendell Road Culvert Replacement, and safety improvements	Replace an old stone culvert with concrete culvert, widen road, install other minor safety features.	\$125,000	Shutesbury
Municipal	CenTech Park East		\$0	Shrewsbury
Municipal	Window Replacement – Beal School	Replace all windows that are original to the building that was opened in 1922.	\$350,000	Shrewsbury
Municipal	Harrington Avenue Roadway Improvement	Reconstruction of the roadway and construction of a new sidewalk to allow safer pedestrian access from the residential area to the commercial district on Route 9.	\$1,122,650	Shrewsbury
Municipal	HVAC replacement - Library	Existing system is an electric pump system. It is proposed that the system be replaced with two new gas fired boilers and a new air cooled chiller.	\$2,139,702	Shrewsbury
Municipal	Renovation and Expansion of Shrewsbury Public Library		\$18,780,348	Shrewsbury
Municipal	New Pond Dam Rehabilitation	The rehabilitation project will remove trees and stumps, enlarge and reconstruct the concrete spillway, stabilize the dam crest, and provide permanent erosion protection.	\$300,000	Shrewsbury
Municipal	Floor Replacement – Paton and Spring Street Schools	Replace VCT floor tiles that are original to the 1950 and 1967 elementary school buildings. Project includes removal of asbestos materials.	\$339,000	Shrewsbury
Municipal	Pulverize and Resurface playgrounds and Spring Street and Paton Schools	Remove and replace multiple layers of pavement at two elementary school sites	\$406,220	Shrewsbury
Municipal	Window Replacement – Spring School	Replace all windows that are original to the building that was opened in 1967.	\$370,000	Shrewsbury
Municipal	Water Main Improvements on Harrington Ave, Old Mill Road, and Route 20	Replace existing undersized old water main with new 12 inch PVC water mains to improve both domestic and fire flows as part of an overall system improvement.	\$2,634,145	Shrewsbury
Municipal	Renovation & expansion of library building	project will include replacement of all electrical HVAC system with gas fired boilers	\$18,780,348	Shrewsbury
Municipal	Walker Well Chemical Feed Facility	The project consists of the construction of a combination well pumping station and chemical feed facility for the proposed Walker Well.	\$750,000	Shirley Water District
Municipal	Town of Shirley Police Station Renovation and Improvements	Renovation and expansion to the Town of Shirley's Police Station	\$1,974,500	Shirley
Municipal	Town of Shirley Town Offices Energy Improvements and Optimization	Proposed energy improvements to the Town of Shirley's Town Offices by modernizing and improving the building's HVAC/Boiler System and upgrading the electrical fixtures...	\$100,000	Shirley
Municipal	Town Offices Electrical Improvement Program	Electrical Improvements Work Completed within 90 days of notice of Funding	\$60,000	Shirley

## Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Shirley's Senior sunshine Energy	Install 8-10 KW solar panel system on ground next to newly renovated senior center. Ground location allows for southern exposure, maximum efficiencies and lower costs. It will create electricity to both operate the Senior center and to allow is use during	\$100,000	Shirley
Municipal	Phase II, Drainage Improvements, Farm Pond Recreation Area	Project Description: Installation of stormwater best management practices (BMP) and erosion controls in the vicinity of the Town's Farm Pond.	\$20,000	Sherborn
Municipal	WOODHAVEN ELDERLY HOUSING COMPLEX	Installation of a ventilation system to provide ventilation and conditional air to the public halls of Sherborn's Elderly Housing Complex which will bring the hallways up to code	\$39,000	Sherborn
Municipal	MAPLE STREET SIDEWALK PROJECT	1,500 LINEAR FFEET OF SIDEWAL FROM GREEN LANE TO WASHINGTON STREET. ALL ASIDEWALS ARE ADA ACCESSIBLE	\$211,000	Sherborn
Municipal	Sherborn CM&D Facility	Replace its existing Community Maintenance & Development (CM&D) garage facility and office with a new building and associated improvements.	\$2,550,000	Sherborn
Municipal	New CM&D Building	Construct New CM&D (DPW) Garage	\$2,550,000	Sherborn
Municipal	Pine Hill Elementary School Proposed Access Road	Construction of a road approximately 900 feet in length and 20 feet in width with a 5 feet sidewalk from Eliot Street (Route 16) to the Pine Hill Elementary School (Town's primary emergency shelter) existing parking lot.	\$950,000	Sherborn
Municipal	Salmon Falls Observation Area an Infrastructure Investment Project		\$0	Shelburne
Private Development - Traditional Infrastructure (unreviewed)	Mohawk Beef LLC	Conversion of a defunct apple farm into a mini agricultural infrastructure center which will address several needs of local farmers.	\$250,000	Shelburne
Municipal	Sheffield Senior Center	Construction of new 5,000 square foot Senior Center on Town owned land.	\$1,750,000	Sheffield
Municipal	Sheffield Highway Maintenance Facility	Construction of a new 13,000 square foot Highway Garage, 5,000 square foot Salt/Sand Storage Shed, and Fueling Facility on Town owned land	\$3,300,000	Sheffield
Municipal	Renovation of Shawsheen Valley Regional Vocational Technical High School	The following is a proposal for a Life Sciences Wing for Dental Assisting, Health & Medical Assisting and Biotechnology	\$3,500,000	Shawsheen Valley Regional Vocational Technical School
Municipal	East Elementary School Lighting Energy Upgrades	Working with our local electric utility through energy incentives the project would upgrade the existing lighting in the effort to save energy.	\$12,899	Sharon Public Schools
Municipal	Cottage Street Elementary School Lighting Energy Upgrades	Working with our local electric utility through energy incentives the project would upgrade the existing lighting in the effort to save energy.	\$8,600	Sharon Public Schools
Municipal	High School Modular Classroom Addition	The Sharon High School requires (2) two additional classrooms to accommodate the increased student population	\$402,000	Sharon Public Schools
Municipal	High School Lighting Energy Upgrades	Working with our local electric utility through energy incentives the project would upgrade the existing lighting in the effort to save energy	\$122,173	Sharon Public Schools
Municipal	Memorial Beach Bandstand Replacement Project	The project involves the removal of the existing wooden bandstand, construction of a new wooden bandstand and installation of electrical power and lighting required for the bandstand.	\$100,000	Sharon
Municipal	Sharon DPW Refueling Station Renovation Project	Project involves the replacement of the gas pumps, gas pump island and computer controls for the vehicle refueling area, which is outdated and in dire need of replacement.	\$97,000	Sharon
Municipal	Mountain Street Landfill Conversion Project	The former Town of Sharon landfill has been closed for over 25 years and the Town has been pursuing converting the landfill for recreation field use.	\$2,200,000	Sharon
Municipal	Horizons for Youth Roof Replacement Project	The Town of Sharon has obtained quotes to replace the roof shingles and siding on three buildings located at the Horizons for Youth site located on Lakeview Street in Sharon.	\$256,000	Sharon
Municipal	Bay Road culvert and headwall replacement project.	The Towns of Sharon is working on a project to replace a failed culvert lying under Bay Road and on the Town boundary line with Stoughton.	\$500,000	Sharon
Municipal	Sharon Middle School Force Main Project	Design, write the bid documents and obtain permitting for a new sewer force main that will allow septic waste to be pumped to Sharon High School for septic treatment.	\$1,500,000	Sharon
Municipal	Massapoag Avenue Repaving Project	The project involves reclaiming and repaving Massapoag Avenue and the removal and paving of the existing sidewalk along Massapoag Avenue.	\$3,764,000	Sharon
Municipal	Lighting System Efficiency Program for the Sharon DPW and Police Department	The Town of Sharon hired an energy consultant in September of 2008 to evaluate the lighting systems in Town-owned buildings.	\$17,840	Sharon
Municipal	Mann's Pond Dam Repair Project	Repairs are required to reduce or eliminate leaks that are currently found in the area of the dam spillway wall that are weakening the dam structure.	\$735,477	Sharon
Municipal	Post Office Square Shared Septic System Project	Construction of the shared septic system in the Post Office Square area; allowing the Town to permit new restaurants, businesses, and housing.	\$6,800,000	Sharon
Municipal	Charles R. Wilber School Septic System Connection Project	Town of Sharon is bound by legal agreement to connect twenty-six bedrooms or approximately eight abutting homes to the to be constructed Wilber school package treatment plant.	\$400,000	Sharon
Municipal	Norwood Street (RTE 27) Water Main Installation Project	Town of Sharon needs to install additional 12" concrete-lined ductile iron water main.	\$220,000	Sharon
Municipal	Glendale Road Water Main Installation Project	The Town of Sharon has identified, through residual pressure testing, that inadequate fire-flow capacity exists on Glendale Road.	\$440,000	Sharon

Commonwealth of Massachusetts

Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Cottage lighting upgradesd	upgrade existing fixtures with energy saving fixtures	\$5,880	Sharon
Municipal	East Elem. lighting upgradesd	upgrade existing fixtures with energy saving fixtures	\$8,818	Sharon
Municipal	Lighting upgrades	energy upgrades to existing building lighting system	\$0	Sharon
Private Development - Traditional Infrastructure (unreviewed)	Old Post Road and South Main Street Improvements	South Main Street: Installation of new signal systems and reconstruction of the geometry of 4 intersections ), in addition to complete box cut widening, drainage improvements, utility relocations, and other work as required to link these new signalized intersections together. Old Post Road: Reconstruction of approximately 4,300 linear of the existing Old Post Road, which is currently a minor gravel road providing access to several residential homes. The work will include re-aligning the roadway, installing 4 culverts/bridges, constructing approximately 13,150 square feet of retaining wall and providing a fully paved divided two lane roadway.	\$7,800,000	Sharon
Municipal	SEEKONK MEADOWS – SEEKONK TOWN PARK	Develop 8 acres of land surrounding the Seekonk Library to create Seekonk's first public park	\$350,000	Seekonk
Municipal	Scituate Arts Association/Ellis House Roadway Access, Drainage & Septic Improvement Plan	Improve road access including site lighting, site drainage and septic, plus hydrant and parking improvement.	\$220,000	Scituate
Municipal	Works Progress Administration Building		\$0	Scituate
Municipal	WATERMAIN IMPROVEMENTS		\$1,225,000	SCITUATE
Municipal	ROSA'S LANE SEWER EXTENSION		\$360,000	SCITUATE
Municipal	DRIFTWAY MULTI-USE TRAIL		\$300,000	SCITUATE
Municipal	COMMUNITY / SENIOR CENTER		\$3,700,000	SCITUATE
Municipal	FORESHORE PROTECTION / SEAWALL REPAIR		\$1,050,000	SCITUATE
Municipal	LIBRARY BUILDING REHABILITATION		\$1,750,000	SCITUATE
Municipal	MUSQUASHCUT POND SEWER EXTENSION		\$6,100,000	SCITUATE
Municipal	BEAVER DAM ROUNDABOUT		\$620,000	SCITUATE
Municipal	THREE 1/4 –MILE SIDEWALK CONNECTORS		\$420,000	SCITUATE
Municipal	TOWN HALL REHABILITATION		\$2,300,000	SCITUATE
Municipal	Cushing Elementary School, Zone Control Valves to Reduce Waste of Heating Oil and Carbon Emissions		\$25,000	SCITUATE
Municipal	Sweetwater Street Culvert Replacement		\$0	Saugus
Municipal	Broadway (Route 1) Pump Station Replacement		\$0	Saugus
Municipal	Howard Street Culvert Replacement		\$0	Saugus
Municipal	Watercourse Dredging – Howard Street / Sweetwater Street Area		\$0	Saugus
Municipal	Saugus Community Center Conversion	Conversion of a former elementary school to a community/cultural center for the development of the arts, tourism and Saugus culture.	\$1,135,000	Saugus
Municipal	Sewer System Rehabilitation Subsystem PS-5	Rehabilitation of asbestos cement sewer with CIPP, 195 manholes to be lined with cementitious liner and 483 service connections sealed.	\$3,600,000	Saugus
Municipal	Bristow Street Area Storm Drains	Furnish and install storm drain and catch basins, alleviate chronic flooding in residential neighbor hoods caused by inadequate capacity of the existing drain system	\$5,000,000	Saugus
Municipal	Fairchild Brook Drainage Improvements	Furnish and install torm drain improvements that include 72"x 48" box culvert. Project will alleviate chronic street and private property flooding caused by inadequate capacity.	\$2,000,000	Saugus
Municipal	Golden Hills Water Main Replacement	Replacement of 4,000, lf of 8" and 10" unlined cast iron pipe which has had a history of breaks and no longer meets pressure requirements	\$900,000	Saugus

## Commonwealth of Massachusetts

### Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Hamilton Street Water Main Replacement	Replacement of 6,000 lf of 8" and 10" unlined cast iron pipe which has had a history of breaks and no longer meets pressure requirements or water quality requirements.	\$1,200,000	Saugus
Municipal	Lincoln Ave Pump Station Electrical Upgrade	Remove and replace existing electrical wiring in 1930's wastewater pumping station that has been deemed faulty. Project includes new alarm system for security and fire.	\$500,000	Saugus
Municipal	Sewer System Rehabilitation Subsystem 6A	Rehabilitation of 17,000 lf of asbestos cement sewer with CIPP, 105 manholes to be lined with cementitious liner and 270 service connections sealed.	\$2,000,000	Saugus
Municipal	1 Million Gallon Steel Water Storage Tank	The work consists of construction of a new 1 million gallon (MG) steel water storage tank.	\$2,500,000	Sandwich Water District, Sandwich
Municipal	Cleaning and Lining 10,000 feet of Water Mains	The work consists of construction of cleaning and lining approximately 10,000 linear feet of existing water main along Canterbury Road.	\$1,000,000	Sandwich Water District, Sandwich
Municipal	Hydrant Replacement Program	The work consists of the removal and replacement of approximately 45 designated hydrant branches and/or distribution system valves.	\$350,000	Sandwich Water District, Sandwich
Municipal	Pumping Station Renovations	The work consists of building and equipment renovations to existing Pumping Station Nos. 2, 3 and 5.	\$425,000	Sandwich Water District, Sandwich
Municipal	Sandwich Village Improvement Project		\$2,000,000	Sandwich
Municipal	Quaker Meetinghouse Road Pedestrian Accessibility Project	Construction of a sidewalk and associated pedestrian amenities along Quaker Meetinghouse Road in Sandwich, MA	\$1,055,000	Sandwich
Municipal	Sandwich Senior Center	Design and construction of a building to be known as the 'Sandwich Senior Center	\$4,250,000	Sandwich
Municipal	Variable Frequency Drives	Install Variable Frequency Drives on selected pump motors	\$100,000	Sandwich
Municipal	Capt. Gerald F. DeConto Veterans Memorial Stadium at Sandwich High School	Creation of a state-of-the-art facility that will replace a decrepit running track, at a stadium named after Capt. Gerald F. (Jerry) DeConto, a Sandwich native who was killed on the Sept. 11, 2001 attack on the Pentagon.	\$3,300,000	Sandwich
Municipal	Border to Boston Trail	Construction on the Border to Boston Trail began on a 1.1-mile section in Newburyport and construction is slated to begin on a 1.4-mile in Salisbury in Spring 2009	\$12,000,000	Salisbury, Newburyport, Newbury
Municipal	Fanaras Drive Road Reconstruction Project	The Town of Salisbury is currently working on a \$6 million sewer and water line project on Old Elm Street, Rabbit Road and Fanaras Drive in order to bring the necessary utilities...	\$1,200,000	Salisbury

## Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	New Cooling and Heating Systems and Electrical Updates at Peabody Institute Library		\$1,725,000	Peabody
Municipal	O'Connor Park Ballfield Lighting and New Recreational Structures		\$275,000	Peabody
Municipal	South Elementary School in Peabody – Replace Boiler and Upgrade Interior Lighting		\$0	Peabody
Municipal	Strongwater Brook Stormwater Mitigation in Peabody		\$500,000	Peabody
Municipal	Replace Finished Water Pumps at West Peabody Water Pumping Station		\$800,000	Peabody
Municipal	Upgrade Water Infrastructure: New Storage Tank and Water Main for Peabody Rt. 1 High Service Area		\$4,500,000	Peabody
Municipal	Welch Elementary School in Peabody – Replace Classroom Univent and Common Area Heating Units		\$540,000	Peabody
Municipal	Peabody Institute Library	Boiler conversion, light replacement, DDC controls	\$750,000	Peabody
Municipal	Welch School	replace 40-yr old univent heaters	\$460,000	Peabody
Municipal	Winona Treatment PlantPumps	Replace 3 1970s era Finished water pumps	\$800,000	Peabody
Municipal	Town Hall Renovation Project	Renovation and addition to the Paxton Town Hall to provide additional workspace, meeting rooms and handicapped accessibility. No other State or Federal Funds have been applied for.	\$2,000,000	PAXTON
Municipal	263 MGD Water Filtration Plant for Asnebumskit Reservoir	Construction of a Water Filtration Plant to treat drinking water for the Town of Paxton from Asnebumskit Reservoir.	\$5,000,000	PAXTON
Municipal	Route 31 Holden Road Rehabilitation	Rehabilitation of Holden Road commencing at Grove Street and extending .82 miles to the Holden Town Line. This project presently is not considered for any other State or Federal funds.	\$2,000,000	PAXTON
Municipal	Olsen Farm Project	16" Water Main Construct for a Commercial / Retail Corridor in the Town of Palmer, which a Water Main Extension is necessary for the future Development.	\$3,000,000	Palmer Fire District & Palmer Water District #4
Municipal	Palmer Senior Center Window and Insulation Project	The project would be for the refurbishing and weatherization of the 32 exterior windows of the building, and would also include additional insulation in second floor ceiling.	\$181,798	Palmer
Municipal	PHASE FOUR (4) SEWER SEPARATION PROJECT (CSO)	FINAL PHASE OF SEPERATION OF SANITARY AND STORMWATER SEWERS. TO COMPLETE THE SEPARATION OF THE REMAINING SIX (6) ACTIVE CSO'S BY THE END OF 2011	\$7,360,000	PALMER
Municipal	Public Works Facility Project	The plan is to build the Public Works Department a new facility on town owned property. The parcel already has electricity service and water service; but would need either a septic system or a sewer connection.	\$4,000,000	Palmer
Municipal	Burlingame Road Reconstruction Project	The Burlingame Road Reconstruction Project entails the complete reconstruction and widening of approximately 3000 linear feet of roadway.	\$1,100,000	Palmer
Municipal	Water Main Replacement – Main Street (Route 12)	Installation of approximately 6,000 feet of undersized (8" diameter) water main connecting the water supply wells with a water storage tank in the north part of Town	\$1,200,000	Oxford
Municipal	Charlton Street Drainage Improvements and Roadway Reconstruction	Drainage improvements and full depth reconstruction of 0.8 miles of travel lanes and sidewalk on Charlton Street. Project will be submitted to MHD District 3 for TIP Listing also.	\$2,800,000	Oxford
Municipal	Downtown Pavement Rehabilitation	Downtown pavement in the intersection of Main Street and Charlton Street / Sutton Avenue is severely rutted and deformed. Heavy truck traffic has worsened the pavement condition.	\$1,035,000	Oxford
Municipal	Renovation of Former Police Facility into New Municipal Offices	This project is for general renovations and Energy Efficiency improvements to former Police Facility to be used for Municipal Offices.	\$850,000	Oxford
Municipal	Algerie Road Reconstruction		\$0	Otis
Municipal	Solar Photovoltaic (PV) Installation: Orleans Council on Aging	Install a 14.7 KW PV array on the Council on Aging roof. The array would be hooked up via a net metering facility to the municipal building	\$114,980	Orleans
Municipal	Solar Photovoltaic (PV) Installation: Orleans Town Hall	Install a 14.7 KW PV array on the Council on Aging roof. The array would be hooked up via a net metering facility to the municipal building	\$116,071	Orleans
Municipal	Solar Photovoltaic (PV) Installation: Orleans Water Treatment Plant	Install a 20 KW PV array on the Town Hall roof. The array would be hooked up via a net metering facility to the municipal building	\$182,000	Orleans
Municipal	Municipal Wind Turbine: Orleans Water Treatment Plant	Install a 660 KW (or similar) Commercial Wind Turbine in the Orleans Watershed. The Wind Turbine would be hooked up to the Water Treatment Plant as well as a net metering facility.	\$3,000,000	Orleans
Municipal	Skaket Beach Septic Replacement / Drainage Improvements	This project includes the replacement of a failed septic system that serves a seasonal restroom located at Skaket Beach in the Town of Orleans. The restroom is located on a parking lot that also has poor drainage features. Existing stormwater runoff ent	\$250,000	Orleans

Municipal	Turn Out on Western Route Main Line at 1600 Osgood Street in North Andover	Add Turn out on Western Route Main Line at 1600 Osgood Street	\$151,250	NULL
Municipal	Western Main Line Route Double Tracking	Adding additional track to Western Route Main Line between Andover St. in Lawrence and Ash Street in Reading	\$69,520,000	NULL
Municipal	The Forsyth Institute Relocation and Facility Upgrade	Relocation to an Energy Efficient facility and upgrade of laboratories and operations, upgrade to a state of the art scientific facility	\$15,000,000	NULL
Municipal	Historic Preservation and Site Restoration Marconi RCA Wireless Receiving Station		\$0	NULL
Municipal	Coakley Middle School / Endean Recreation Center Parking Lot Expansion	Rehabilitate the existing pavement, realign the existing parking areas and construct new parking areas on site, will increase the parking from the existing 241 to total of 398 spaces.	\$650,000	Norwood
Municipal	Pleasant Street and Morse Street Intersection	Pavement replacement/reconstruction, installation of traffic signals, curbing installation, pedestrian activated controls, drainage upgrades, pavement markings and signage.	\$800,000	Norwood
Municipal	Old Fire Station Capital Repairs	Rebuild existing structurally unstable parapets; Replace the existing decayed metal cornice and flashing; Clean and repoint any failed mortar joints on brick masonry walls;	\$550,000	Norwood
Municipal	Hawes Pool and Father McAleer's Pool Renovations	Father McAleer's Pool renovation-Replace return lines, replace all the piping, and remove the existing cement concrete deck and a new cement concrete deck constructed.	\$120,000	Norwood
Municipal	SRE Building Geothermal HVAC System	Design and construction of an energy efficient Geothermal HVAC system at the SRE Building at Norwood Memorial Airport.	\$325,000	Norwood
Private Development - Traditional Infrastructure (unreviewed)	Upland Woods Corporate Center, Norwood MA	As part of traffic mitigation several physical infrastructure improvements are required to be made to Route 1A. They are as follows: * Installation of traffic signal and lane alignment at the intersection of site entrance and Route 1A.	\$1,650,000	Norwood
Municipal	Washington Street Well Field Rehabilitation	This project involves the rehabilitation of municipal wells to recover lost capacity and improve water quality. The project improvements will allow increased withdrawals.	\$4,100,000	Norwell – Water Department
Municipal	New Well No. 11 and South Street Well Field Improvements	Construction of a new 800 gallon per minute source and associated pumping station located in the South Coastal Watershed, reduce reliance on the Town's other watershed, Boston Harbor	\$13,000,000	Norwell
Municipal	Route 123 Main Street	Drainage improvements, cold planning, resurfacing entire length of five (5) miles. Currently, 1.8 miles from Dover Street to the Scituate line is in the TIP process, at 25% design	\$4,000,000	Norwell
Municipal	Town Hall Renovation and Expansion	Renovation and expansion of the Norwell Town Hall to make the building handicapped accessible and move the Town Library into the newly renovated and expanded building.	\$12,000,000	Norwell
Municipal	Police station renovation and expansion.	Renovation and expansion of the Norwell Police Department to make the building handicapped accessible and address serious safety and code issues in the existing building.	\$5,000,000	Norwell
Municipal	Taunton River Desalination Plant Transmission Main Interconnect	The project involves the design and construction of approx. 14,000 LF of 12" DI water transmission main to interconnect water distribution system with the existing water transmission main	\$2,500,000	Norton
Municipal	Norton School Sewer Extension	Limited sewer extension on Plain Street to eliminate failing septic system (circa 1959 and 1963) at the Town's Nourse Elementary School.	\$400,000	Norton
Municipal	Water Department Modular Office Building Request for Proposals	Project includes construction of on-site subsurface sewage treatment and disposal system plus connections to municipal water, electric and telephone utilities.	\$400,000	Norton
Municipal	Wheaton College, Norton Grove and Great Woods Sewer Extension		\$0	Norton
Municipal	Health Office Makeover	To fix the walls and expand the office to provide more file storage.The project is not being considered for state or federal funds.	\$15,000	Norton
Municipal	Norton Schools Wastewater System Consolidation	Connection of existing schools using on-site wastewater disposal systems to existing municipal wastewater treatment facility. No other funding is currently being considered.	\$1,200,000	Norton

# Commonwealth of Massachusetts

## Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Demolition of Center Water Storage Tank	Demolition of existing 1912 elevated steel water storage tank. Considered by Town to be unsafe. No other funding is being considered.	\$50,000	Norton
Municipal	Energy Service Performance Contract	Improved energy efficiency and application of renewable energy in City schools and municipal buildings through a guaranteed energy services performance contract	\$4,000,000	Northhampton
Municipal	Main Street Revitalization Project	The Northfield Main Street Revitalization Project includes the construction of new sidewalks, streetscape improvements, plantings, pedestrian scale lighting, pedestrian safety improvements, signs and other streetscape related infrastructure improvements	\$1,190,109	Northfield
Municipal	Highland Avenue Sewer Replacement	The Highland Avenue Sewer Replacement Project calls for replacement of about of clay pipe sewer. The existing pipe receives excessive infiltration, is structurally deficient and suffers from major root intrusion.	\$250,000	Northfield
Municipal	Reconstruction of 650 feet of Carpenter Road Causeway	Reconstruction of roadway, Replace HVAC System Police Station, Replace Heating System, Wastewater Treatment Plant Process Upgrade, Wastewater Treatment Plant Sludge Upgrade...	\$730,000	Northbridge
Municipal	Reconstruction of 1,250 feet of Crescent Street	Reconstruction of roadway, Replace HVAC System Police Station, Replace Heating System, Wastewater Treatment Plant Process Upgrade, Wastewater Treatment Plant Sludge Upgrade...	\$750,000	Northbridge
Municipal	Bridge Replacement Douglas Road over the Mumford River	Reconstruction of roadway, Replace HVAC System Police Station, Replace Heating System, Wastewater Treatment Plant Process Upgrade, Wastewater Treatment Plant Sludge Upgrade...	\$1,585,000	Northbridge
Municipal	Reconstruction of 1,900 feet of North Main Street	Reconstruction of roadway, Replace HVAC System Police Station, Replace Heating System, Wastewater Treatment Plant Process Upgrade, Wastewater Treatment Plant Sludge Upgrade...	\$850,000	Northbridge
Municipal	Bridge Replacement Route 122 over the Blackstone River	Reconstruction of roadway, Replace HVAC System Police Station, Replace Heating System, Wastewater Treatment Plant Process Upgrade, Wastewater Treatment Plant Sludge Upgrade...	\$6,333,000	Northbridge
Municipal	Traffic Signals Route 122 and Church Street	Reconstruction of roadway, Replace HVAC System Police Station, Replace Heating System, Wastewater Treatment Plant Process Upgrade, Wastewater Treatment Plant Sludge Upgrade...	\$1,050,000	Northbridge
Municipal	Reconstruction of Sutton Street from Sutton TL to Route 122	Reconstruction of roadway, Replace HVAC System Police Station, Replace Heating System, Wastewater Treatment Plant Process Upgrade, Wastewater Treatment Plant Sludge Upgrade...	\$7,000,000	Northbridge
Municipal	Replace HVAC System Police Station	Reconstruction of roadway, Replace HVAC System Police Station, Replace Heating System, Wastewater Treatment Plant Process Upgrade, Wastewater Treatment Plant Sludge Upgrade...	\$150,000	Northbridge
Municipal	Public Works Complex	Reconstruction of roadway, Replace HVAC System Police Station, Replace Heating System, Wastewater Treatment Plant Process Upgrade, Wastewater Treatment Plant Sludge Upgrade...	\$7,500,000	Northbridge
Municipal	Replace Heating System – Town Hall	Reconstruction of roadway, Replace HVAC System Police Station, Replace Heating System, Wastewater Treatment Plant Process Upgrade, Wastewater Treatment Plant Sludge Upgrade...	\$700,000	Northbridge
Municipal	Replace Windows – Town Hall	Reconstruction of roadway, Replace HVAC System Police Station, Replace Heating System, Wastewater Treatment Plant Process Upgrade, Wastewater Treatment Plant Sludge Upgrade...	\$400,000	Northbridge
Municipal	Wastewater Treatment Plant Process Upgrade	Reconstruction of roadway, Replace HVAC System Police Station, Replace Heating System, Wastewater Treatment Plant Process Upgrade, Wastewater Treatment Plant Sludge Upgrade...	\$4,750,000	Northbridge
Municipal	Wastewater Treatment Plant Sludge System Upgrade	Reconstruction of roadway, Replace HVAC System Police Station, Replace Heating System, Wastewater Treatment Plant Process Upgrade, Wastewater Treatment Plant Sludge Upgrade...	\$4,500,000	Northbridge
Municipal	Replace Boilers – Middle School	Reconstruction of roadway, Replace HVAC System Police Station, Replace Heating System, Wastewater Treatment Plant Process Upgrade, Wastewater Treatment Plant Sludge Upgrade...	\$615,032	Northbridge
Municipal	Update Heating System – Balmer School	Reconstruction of roadway, Replace HVAC System Police Station, Replace Heating System, Wastewater Treatment Plant Process Upgrade, Wastewater Treatment Plant Sludge Upgrade...	\$64,579	Northbridge
Municipal	Replace Storm Windows – School Administration	Reconstruction of roadway, Replace HVAC System Police Station, Replace Heating System, Wastewater Treatment Plant Process Upgrade, Wastewater Treatment Plant Sludge Upgrade...	\$23,833	Northbridge
Municipal	Middle School Air Conditioning	Reconstruction of roadway, Replace HVAC System Police Station, Replace Heating System, Wastewater Treatment Plant Process Upgrade, Wastewater Treatment Plant Sludge Upgrade...	\$41,899	Northbridge
Municipal	Replace Oil Tank – Balmer School	Reconstruction of roadway, Replace HVAC System Police Station, Replace Heating System, Wastewater Treatment Plant Process Upgrade, Wastewater Treatment Plant Sludge Upgrade...	\$126,850	Northbridge
Municipal	Replace Heating/Air Conditioning – School Administration	Reconstruction of roadways, Bridge Replacement, Replace HVAC System Police Station, Replace Heating System, Wastewater Treatment Plant Process Upgrade, Replace Boilers...	\$49,950	Northbridge
Municipal	Collins Road and Brigham Street Water Mains	This project consists of the construction of 12-inch diameter ductile iron main on Collins Road and 12-inch diameter ductile iron main on Brigham Street.	\$500,000	Northborough– Department of Public Works
Municipal	Northborough – Signal Improvements on Route 20 at 3 Intersections: Church St, South St, Hudson St	Reconstruct the Route 20 (West and East Main Street) corridor from approximately 950 feet west of the Church Street intersection to a point approximately 350 feet east of the Hudson Street intersection.	\$3,000,000	Northborough
Private Development - Traditional Infrastructure (unreviewed)	Northborough Infrastructure Improvements	The project will involve ramp widening, signalization and roadway corridor expansion at the Route 9/Route 20 interchange (servicing the towns of Northborough, Westborough and Shrewsbury, among others) and an expansion/extension of water and sewer service. Specific improvements will include: (i) ramp widening; (ii) signalization; (iii) roadway corridor expansion; (iv) water main extension; (v) sewer extension; (vi) inflow/infiltration removal; (vii) water pump station; and (viii) sewer pump station.	\$10,000,000	Northborough
Municipal	Final Effluent Pump Replacement	Construction of replacement 30 year old final effluent pumps at the wastewater treatment plant	\$500,000	Northampton

## Commonwealth of Massachusetts

### Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Forbes Library Exterior Wall Restoration	Restoration of the exterior walls has been a standing priority of the Trustees of Forbes Library for many years	\$438,217	Northampton
Municipal	Renovations of James House to Create the Northampton Community Education Consortium	Renovations of a three-level, 8,500 square foot structure, including a basement, that previously housed the Hampshire County Juvenile Court, to create a community learning center	\$400,000	Northampton
Municipal	Roundhouse Transit Oriented Development Parking Structure	Construct 288-space parking structure	\$5,500,000	Northampton
Municipal	Construction of a New Municipal Police Facility/Public Courthouse Parking Structure	Construction of a new, three- level (including basement) police facility building	\$4,574,335	Northampton
Municipal	Upper Roberts Meadow Dam Removal	Removal of the Upper Roberts Meadow Dam, a high hazard dam in poor condition	\$600,000	Northampton
Municipal	Installation of Zinc Orthophosphate Chemical Feed at Water Treatment Plant	Installation of zinc orthophosphate chemical feed and related systems at the Mountain St Water Treatment Plant	\$700,000	Northampton
Municipal	Upgrade asbestos cement water mains to current standards.	City has approximately 40 miles of asbestos cement water mains that need upgrading. In two (2) years approximately ten (10) miles could be replaced.	\$3,000,000	Northampton
Municipal	Well Chlorination Facilities	Construction of chlorination facilities at the Spring St. and the Clark St. water supply wells. This project is on the SRF Draft CY2009 Intended Use Plan for a low interest loan.	\$695,000	Northampton
Municipal	Forbes Library Window Replacement	This project would replace the frames and glass for all the windows in the building. The project would install new windows, which would meet state building code energy standards...	\$555,286	Northampton
Municipal	Manhan Rail Trail: 4,021 Meters from Grove Avenue Northampton to Ferry Street Easthampton	The project would connect the existing Norwottuck and Manhan Rail Trails in Northampton to the existing Manhan Rail Trail, and fill in the current 4.021 meter gap between the two trails.	\$3,100,000	Northampton
Municipal	Hydroturbine at water filtration plant	Installation of a 28 kW micro turbine/generator small conduit hydroelectric system in the flow of the conduit connecting the Ryan Reservoir with the Water Filtration Plant	\$328,000	Northampton
Municipal	Police Station		\$0	Northampton
Municipal	James House Energy Efficiency and Renewable Energy Project to Benefit Low Income Residents	Lighting upgrades and installation of a 13 kW PV array	\$152,619	Northampton
Municipal	Senior Center Renewable Energy Project to Benefit Low Income Residents	Installation of a 58 kW PV array It is possible to divide this project into four equal sized phases	\$523,876	Northampton
Municipal	LED Parking Lot Light Upgrade	Replace 16 shoe-box fixture parking lot lights (400 W HPS) with 180 W LED (same light output)	\$35,000	Northampton
Municipal	Hydropower at Cooks Dam on Mill River	64 kW hydropower facility at old Cooks Dam hydropower site on the Mill River	\$0	Northampton

Municipal	Pedestrian Transportation Project Sidewalks	This project will reconstruct approximately 1,200 l.f. of brick sidewalk in the center of Nantucket's Historic District.	\$200,000	Nantucket
Municipal	Town Pier (Municipal Marina) Maintenance	Replace Decking, Cross-bracing, electrical, sewer and water infrastructure at the only municipally owned and operated facility on Nantucket Island. .	\$250,000	Nantucket
Municipal	Saltmarsh Senior Center	Renovation and expansion of senior center facility.	\$3,000,000	Nantucket
Municipal	New Police Station	Construction of New Police Station	\$17,000,000	Nantucket
Municipal	2 Fairgrounds Road Renovation	Renovation of municipal building	\$165,000	Nantucket
Municipal	Industrial Park Road	Construction of 22,000 linear feet of road with utilities to serve a 20+ acre industrial area	\$977,000	Nantucket
Municipal	Greenlawn Cemetery Annex	The Town of Nahant expects to run out of available cemetery space by 2012 and this project includes expanding the existing cemetery area to provided burial sites to 2075.	\$3,200,000	Nahant
Municipal	Rehabilitation of Town Pier	The project includes a complete rehabilitation of this very important commercial and recreational facility.	\$750,000	Nahant
Municipal	Mt Greylock Regional School District's Energy Efficiency Renovation	Energy efficiency upgrades will include: a) installation biomass system; (b) energy reduction window upgrades; (c) Light upgrades; (d) hot water upgrade; (e) motor upgrades; (f) solar etc.	\$972,000	Mt Greylock Regional School District
Municipal	Bash Bish Falls Road Reconstruction	Reconstruct failed roadway and provide additional structures to prevent further deterioration of roadway. The only access from Massachusetts to Bash Bish falls scenic area	\$300,000	Mount Washington
Municipal	Bathroom Facilities and Septic Systems for Public Safety Buildings	Construction of bathroom facilities and septic system for public works garage and fire department. Both of these are necessary for emergency responders training and use for emergency management	\$158,500	Montgomery
Municipal	Main Road Bridge Replacement	Replacement of 12-foot bridge & its footings	\$375,000	Montgomery

Commonwealth of Massachusetts

Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Transfer Station	Rebuild transfer station to meet EPA requirements, prevent runoff pollution of aquifer.	\$350,000	Monterey
Municipal	Route 23 repaving	Pave Route 23 – 7.1 miles with 1 ½" masstop, reclaim .8 miles, pave with base and binder. Have applied for a strap grant - \$500,000.00	\$1,590,192	Monterey
Municipal	Salt & Sand Storage Shed	Salt & sand storage shed to prevent runoff. Approved earmark in transportation bond bill – not yet funded.	\$325,000	Monterey
Municipal	Demolition, Remediation and Redevelopment of Griswold Cotton Mill/Railroad Salvage Site		\$0	Montague, in partnership with Rural Development.
Municipal	Montague WPCF – Proposed Energy/Cost Saving Project.	Roof replacement & Photovoltaic system installation, replacement of the existing ballasted roofing membrane with an EPDM membrane system.	\$6,794,657	Montague
Municipal	Roof replacement on the Operations Building to.	The replacement of the existing ballasted roofing membrane with an EPDM membrane system. To include HVAC fan and vent upgrade as required and structural issues.	\$11,640	Montague
Municipal	Plunger Pump Upgrade.	The replacement of the existing primary sludge pumps (2) and the thickened sludge pumps with new pumps and energy efficient electrical and mechanical drives.	\$109,408	Montague
Municipal	Septage receiving Facility	The upgrade of the septage receiving facility. Provides for immediate dewatering and disposal.	\$923,819	Montague
Municipal	Solids Handling system upgrade.	The installation of a new solids handling system for the purpose of reducing the cost to dispose of WPCF biosolids.	\$3,354,458	Montague
Municipal	Strathmore Paper Company – Removal of Asbestos Debris Pile generated by fire.	The project involves the removal of a large asbestos laden debris pile created when one of the eleven buildings that make up the Strathmore Paper Company was destroyed in a fire.	\$650,000	Montague
Municipal	MONTAGUE DPW GARAGE	NEW DPW GARAGE	\$3,100,000	Montague
Municipal	GREENFIELD ROAD RECONSTRUCTION	RECONSTRUCTION OF ROAD, SAFETY IMPROVEMENTS	\$6,500,000	Montague
Municipal	Flynt Park Baseball Field	We have laid out the beginnings of a new baseball field at Flynt Park located on Park Road.	\$32,500	Monson Parks and Recreation
Municipal	MONSON SENIOR CENTER – BOILER REPLACEMENT	Replace aged oil boiler with efficient natural gas boiler	\$41,454	Monson
Municipal	Palmer Road Water Main Replacement	Construction of approximately 4,000 linear feet of 12-inch diameter water main on Palmer Road from Bunyan Road to Hospital Road. This project also includes roadway improvements.	\$870,000	Monson
Municipal	High Service Area Expansion	Construction of a 150,000 gallon capacity water storage tank, booster pump station and approximately 8,500 linear feet of 8-inch diameter ductile iron water main, water services, and associated valves, fittings, and hydrants	\$2,100,000	Monson
Municipal	Margaret Street and High Street Water Main Improvements	Project includes all water main, water services, and associated valves, fittings and hydrants as well as a bridge crossing and road improvements. This project will improve transmission and available fire flows.	\$1,000,000	Monson
Municipal	Moriarty Field Lighting Project		\$0	Monson
Municipal	Kidder Branch Library repairs	Repair windows adn rotted handicapped entry vestibule at Kidder Branch Library	\$35,000	Milton, Milton Public Library
Municipal	Restoration/Renovation/Construction: Two Maintenance Facility Garages with Solar Panels.	Restoration/renovation of Garage #1, a 1936 Cut Granite four bay structure and demolition and replacement of Garage #2, a four bay wood shingled structure.	\$421,222	Milton
Municipal	Blue Hills Parkway Roadway and Landscape Enhancements – Eliot Street to Neponset River	Rehabilitation of approximately 750 feet of Blue Hills Parkway, beginning at the Eliot Street intersection and ending at the Neponset River/Boston City Line	\$1,500,000	Milton
Municipal	Milton Wind Energy and Energy Efficiency Project	Town major components: energy efficiency improvements to town-owned buildings and construction of a 1.5MW Class 3 wind turbine on town-owned land adjacent to former landfill	\$5,800,000	Milton
Municipal	Central Avenue Reconstruction	The project involves the reconstruction of approximately 4,500 feet of Central Avenue, beginning at Brook Road and Reedsdale Road intersection to Eliot Street.	\$3,000,000	Milton
Municipal	Blue Hills Parkway Roadway and Landscape Enhancements – Canton Ave to Brook Road	The project involves the rehabilitation of approximately 6,200 feet of Blue Hills Parkway, beginning at the Canton Ave intersection and ending at the Brook Road intersection.	\$7,800,000	Milton
Municipal	Renovation/Construction - Two garages w/ solar panels	Restoration/Renovation/Construction: Two Maintenance Facility Garages with solar panels	\$421,222	Milton
Municipal	Replacement of culvert on Environmental Way	Replace culvert on Environmental Way with new concrete culvert, replace headwalls, restore roadway.	\$28,000	Millis
Municipal	Drainage improvements on Forest Road	Install drain lines, manholes, and catch basins, and a water quality structure on Forest Road.	\$533,114	Millis
Municipal	Design and construct a new Millis Public Library	Acquire land, design and construct a new public library in Millis.	\$7,722,403	Millis

## Commonwealth of Massachusetts

### Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Drainage improvements on Myrtle Street	Installation of manholes, catch basins and drain lines on Myrtle Street. Installation of a water quality structure. Repair of road surface after pipe installation.	\$121,000	Millis
Municipal	Sidewalk replacement on Pleasant Street from Village Street to Myrtle Street	Remove existing sidewalk and install 3000 feet of new 5' wide bituminous concrete sidewalk, provide handicap ramps at intersections, provide driveway transitions.	\$250,000	Millis
Municipal	Installation of new sidewalk on Pleasant Street	Install 4,400 feet of new bituminous sidewalk on Pleasant Street from Village Street to Country Village Way	\$367,000	Millis
Municipal	Repaving various streets	Resurface all streets with pavement management rating of fair or lower. Surface treatments to include paving with bituminous concrete, chip seal & crack seal. Cold plane where necessary.	\$1,565,000	Millis
Municipal	Water main improvements on Village Street	Furnish & Install a new 12" ductile iron water main on Village St., provide new water services, valves and hydrants, repave roadway where disturbed.	\$717,000	Millis
Municipal	Village Street reconstruction project	Design and construct improvements to Village St. including reconstruction of the roadway, sidewalk construction, installation of curbing, reconfiguration of intersections...	\$8,000,000	Millis
Municipal	Micro Sealing of several streets	Apply single lift or two lift micro sealing to various streets in the Town of Millbury	\$16,007	Millbury 1527
Municipal	Overlay Various Streets	Overlay the various streets in Millbury	\$1,000,000	Millbury 1527
Municipal	Stowe Road Drainage	Install a storm Drain system on Stowe Road and complete paving improvements.	\$350,000	Millbury 1527
Municipal	Highway Garage Paving	Repave the parking lot in front of the Highway Garage and also the maneuver areas around the building.	\$92,537	Millbury 1527
Municipal	New Gas Trap	Install a new gas trap in the Highway Department floor drain system to become fully compliant with the State Plumbing code.	\$20,000	Millbury 1527
Municipal	Abandoned Building Demolition	Demolish a Town owned abandoned building on Providence Street after hazardous material abatement is completed.	\$76,000	Millbury 1527
Municipal	Little Dorothy Pond Development	Complete development of the Little Dorothy Pond Master Plan for open space recreation by constructing walkways, picnic tables, fishing piers, foot bridges, parking areas etc.	\$125,000	Millbury 1527
Municipal	Briery Pond Dam Inspection and Repair	Perform Phase II Dam inspection and analysis. Then complete the repairs mandated in the report.	\$300,000	Millbury 1527
Municipal	Install Water Line for Transfer Station	Install a new 900 LF potable water line to the Transfer Station for wash down and cleanup purposes.	\$50,000	Millbury 1527
Municipal	New Athletic Field	Convert the old sludge drying beds into a new athletic field for Cal Ripkin Baseball teams. Erect a chain link fence to separate the Sewer Department buildings from the new athletic field. Construct new dugouts and install a stone dust infield.	\$45,000	Millbury 1527
Municipal	Install New Butler Farm Driveway	Remove the existing severely deteriorated 1,000 foot long asphalt driveway and install a new asphalt driveway with 2.5 inches of binder and 1.5 inches of top asphalt. Reconstruct the drainage swales on both sides of the driveway.	\$35,000	Millbury 1527
Municipal	Highway Garage Roof Repair	Repair the Highway Garage Roof and paint the exterior of the building.	\$110,850	Millbury 1527
Municipal	Replace McCracken Road Bridge	Remove and replace the old stone culvert bridge which transports an unnamed stream under the McCracken Road with a new precast concrete box culvert bridge.	\$329,000	Millbury 1527
Municipal	Main Street (Rte 16) From Hopedale Town Line to Water St. Resurfacing & Sidewalk Replacement Project.	Cold Plane, resurface, remove and replace concrete sidewalks & granite curbing	\$650,000	Milford
Municipal	Dilla Street Bridge Project	Repairs to bridge deck to correct joint leakage	\$100,000	Milford
Municipal	Milford Armory Renovation	This project involves the renovation of the Armory Building, includes demolition and renovation to upgrade all building components, expand the use of the structure, comply with ADA.	\$2,650,000	Milford
Municipal	MASS CARE SHELTER – EMERGENCY GENERATOR PROJECT	Replace / upgrade the emergency generator at our communities primary MASS CARE SHELTER. The project will provide emergency power that will support the heating, cooking, hot water and life safety systems.	\$500,000	Milford
Municipal	Milford Community Field Project	This project will address the repair, renovation and upgrade needs of the Milford High School football field, track, lighting, stands, tennis courts and softball fields. These areas have largely remained untouched since 1973, except for the installation of wooden light poles on or about 1985 and minimal yearly maintenance by the town.	\$3,000,000	Milford
Private Development - Traditional Infrastructure (unreviewed)	Route 85 Corridor Improvements	signalization, rotary construction, pedestrian improvements	\$4,935,000	Milford
Municipal	Wastewater Treatment Facility Upgrades	Adding a new 6.5 million gallon per day (MGD) screw pump at the head of the facility and associated electrical equipment	\$315,000	Milford
Municipal	Sewer System Rehabilitation	Removal and replacement of sewer mains, chemical grouting, cured in place pipe (CIPP) liner, manhole repairs and direct connections within the existing 100 year + old infrastructure.	\$1,200,000	Milford
Municipal	National Street/Depot Street Siphon Modifications	Resizing an existing siphon at National Street and Depot Street and all associate permitting.	\$250,000	Milford
Municipal	Middleton Stimulus Project M-1 Replacement of the existing Howe-Manning Elementary School on Central Street	This project will replace the existing Howe-Manning Elementary School constructed in 1938, with a new 84,000 square foot building and an expanded capacity of 553 students.	\$33,000,000	Middleton
Municipal	Middleton Stimulus Project M-2 Construction of a Middleton Public Safety Building	This project will construct a new Public Safety Building to house the Town's Police and Fire Departments in a single structure on land donated to the community by a developer.	\$8,000,000	Middleton

Municipal	School Conversion Project	The Friends of Martin Luther King, Jr. Charter School of Excellence, Inc. are converting an industrial building at 285 Dorset Street in Springfield for use as a K-5 public charter school	\$5,300,000	Martin Luther King, Jr. Charter School of Excellence
Municipal	Martha's Vineyard Regional High School Wastewater Piping System	The Martha's Vineyard Regional High School, in conjunction with the YMCA of Martha's Vineyard, proposes to build a wastewater piping system...	\$1,561,088	Martha's Vineyard Regional High School
Municipal	Revetment & Seawall Repair Project Brant Rock	Repair approximately 1100 Linear feet of Seawall Revetment - Final Phase along Ocean St. from Jersey St. Middle St., Marshfield, MA	\$0	Marshfield
Municipal	ADDITIONS TO THE REXHAME AREA STREAM RESTORATION AND CULVERT IMPROVEMENT PROJECT	The project includes (1) new culverts on 6 streets (2) stream restoration (3) a stormwater pump station to augment the natural flow of water through the restored stream channel.	\$500,000	Marshfield
Municipal	BUILDING ENVELOPE REPAIRS MARSHFIELD WASTEWATER TREATMENT FACILITY (MWWTF) OPERATIONS BUILDING AND BLOWER BUILDING	A building envelope evaluation has been completed with the following recommendations: Operations Building: replace roof; replace skylights; masonry repairs, and repoint/clean remaining walls.	\$1,650,000	Marshfield
Municipal	Marshfield Wastewater Treatment Facility Aeration System Upgrade		\$0	Marshfield

Commonwealth of Massachusetts

Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Collaborative First Responder Wireless Infrastructure project	Multi Agency/Municipal Communications and Data Network. This project will allow for cross agency, shared Municipal interconnectivity.	\$313,244	Marshfield
Municipal	Roof replacement- Francis J. Kane Elementary School.	Removing the existing ballasts roof and replacing with a rubber membrane roofing system	\$600,000	Marlborough
Municipal	Route 20 (East Main Street) Roadway Reconstruction from Main Street to the Lincoln Street/Stevens Street/Route 20 intersection	This East Main Street Roadway Reconstruction project will improve pedestrian and vehicular safety by improving the severe pavement deficiencies including the removal of concrete slabs, retaining wall renovations, minor grading, and sidewalk/curbing recons	\$2,000,000	Marlborough
Municipal	Edinboro Street Sidewalk Construction	Sidewalk construction project includes the reconstruction of approximately 900 linear feet form Church Street to Maple Street. The project also includes some minor roadway and drainage reconstruction.	\$110,000	Marlborough
Municipal	Farm Road Roadway Reconstruction from Cook Lane to Route 20	Farm Road Roadway Reconstruction project is from Cook Lane to Route 20. Will improve pedestrian and vehicular safety by improving the severe pavement deficiencies, minor realignment changes within the existing ROW, minor retaining wall renovations, minor	\$2,825,000	Marlborough
Municipal	Forest Street and Bartlett Street Roadway Reconstruction (from I-495 Bridge to Town-line)	Roadway reconstruction projects encompasses approximately 9,000 linear feet from the Interstate-495 bridge to the Town-line. Will include roadway reconstruction, drainage reconstruction, drainage system improvements, pavement markings and sidewalk construo	\$1,600,000	Marlborough
Municipal	Route 20 (East Main Street) at Concord Road Intersection Signalization	Route 20 (East Main Street) / Concord Road Intersection Signalization project include the construction of fully signalized intersection and associated roadway reconstruction	\$1,675,000	Marlborough
Municipal	Route 85 (Maple Street) Roadway Reconstruction from John Street to Town-Line	Roadway reconstruction project encompasses approximately 6,200 linear feet from John Street to the Town-line. The project will include standardizing the Route 85 typical section and safety improvements throughout the corridor	\$4,000,000	Marlborough
Municipal	Replacement of Waterline; Maple Street (Walker Street to Town-Line)	Waterline replacement project involves the replacement of 2,000 linear feet of existing waterline infrastructure from Walker Street to the Town-Line	\$324,000	Marlborough
Municipal	Stevens Street & Union Street Roadway Reconstructions	Roadway reconstruction projects will include roadway reconstruction, drainage reconstruction, drainage system improvements, pavement markings and sidewalk construction for roadways that service the local High School (Stevens Street) and the local Hospital	\$1,000,000	Marlborough
Municipal	Sudbury Street Sewer and Roadway Reconstruction Project	Sewer installation and roadway project will include installation of approximately 7,000 linear feet of sewer, installation of pump station, and a roadway reconstruction project (approximately 8,700 linear feet)	\$4,800,000	Marlborough
Municipal	Rehabilitation of parking deck located on Newton Street in downtown.	Rehabilitation of this parking facility will include painting, masonry repairs, stairway replacement, plumbing repairs, security cameras and lighting upgrades	\$900,000	Marlborough
Municipal	Lead Service Replacement	Replacing water services containing lead with a non-lead replacement material. The lead-containing services pose potentially significant health risks to the 1500 locations in Marlborough with this condition	\$5,500,000	Marlborough
Municipal	Redundant 16" Transmission Line Project	Installation of a redundant 16" transmission line transporting drinking water from our primary water supply pump station	\$1,960,000	Marlborough
Municipal	Water Meter Replacement Program	Replacing existing old manual read water meters with new radio read meters. The City has replaced about 30% of the meters	\$2,500,000	Marlborough
Municipal	Westerly Wastewater Treatment Plant Upgrades	Consists of designing and constructing upgrades to the existing Westerly Wastewater Treatment Plant to meet existing NPDES permit requirements and also to meet 20 year growth projections.	\$34,000,000	Marlborough
Municipal	Phase 3A - Village Loop Structural Repairs Project	The project includes: Replacement of sewer with new sewer, Replacement of 7 leaking manhole frames and covers Replacement of 52 service connections Roadway rehabilitation	\$750,000	Marion
Municipal	Infiltration and Inflow Rehabilitation Project	The project includes: Replacement of sewer with new sewer, Replacement of 7 leaking manhole frames and covers Replacement of 52 service connections Roadway rehabilitation	\$3,900,000	Marion
Municipal	Pleasant Street and Converse Road Water Mains	The project generally consists of the installation of 9,300 linear feet of 12-inch ductile iron water main in Pleasant Street from the intersection at Main Street to the intersection	\$2,600,000	Marion
Municipal	Marion Police Station	This project involves the design and construction of the new 10,000 s/f Marion Police Station, located on Mill Street in Marion. The land designated for the site has been donated	\$3,800,000	Marion
Municipal	Install Security, Low-Heat, and Water Flow Alarm at former Police Station/Fire Station	This request will provide the funding necessary to install appropriate security systems that will monitor the Police Department, the Fire Dept. and Emergency Medical Services building for burglary and for fire.	\$50,000	Marion
Municipal	Washburn Park Ballfield	Marion Recreation is ready to build a new ball field for use by its baseball and softball teams. Our programs and participation numbers are growing.	\$55,000	Marion
Municipal	Service Improvement at Taber Library	The requested funds would purchase five (5) new computers complete with the software. In addition the funds would allow the Taber Library to expand its available databases.	\$13,000	Marion
Municipal	Ocean Avenue Causeway Harborside Seawall Repair Project	Selective demolition of an existing concrete seawall, installation in part of new reinforced concrete cap, spall and crack repairs to existing concrete seawall, mortar joint repairs to existing granite block seawall, applying concrete sealer over concrete	\$600,000	Marblehead
Municipal	Main Artery Roadway Resurfacing Project	Repave the town's main street critical to the support of emergency services	\$1,450,000	Marblehead
Municipal	Storm Damage Repairs at Fort Sewall	On the northeast and southeast side of Fort Sewall, construct a mortared stone knee wall 2-3 feet in height and 120 feet in length pinned to ledge at base of the eroded embankment back fill w/ loam and revergatate bio gradable opwm weave geo-textile fabri	\$228,000	Marblehead

Commonwealth of Massachusetts

Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Water Main Replacement	Replacement of 4200 linear feet of 8" iron water main dating from the 1880's with 12" PVC pipe in a salt water zone	\$525,000	Marblehead
Municipal	Village Street Bridge Repair	Repair of a 1939 single span steel beam bridge spanning 49'-6"	\$750,000	Marblehead
Municipal	Village, Vine, Pleasant, Cross Street	Reconfigure a five way unsignalized intersection located adjacent to Marblehead's Central Business District and the middle school	\$400,000	Marblehead
Municipal	Clean and Line or Replace Water Mains-Kimball, Manley Road and Follett Street	Clean and Line 1560 LF of water main for improved fire service and water quality	\$260,000	Marblehead
Municipal	Relay Sewer in Ruby Avenue, Humphrey to West plus Tufts	Replace 3000 linear feet of sanitary sewers to eliminate infiltration and sewer back ups	\$708,300	Marblehead
Municipal	Renovate Clifton Road Sewer Pump Station	Renovate sewer pump station and replace mechanical facilities with more efficient equipment	\$175,000	Marblehead
Municipal	Renovate Green Street Sewer Pump Station	Renovate sewer pump station and replace mechanical facilities with more efficient equipment	\$1,044,100	Marblehead
Municipal	Evans and Roosevelt Drain Replacement	Upgrade municipal drain system to eliminate neighborhood flooding	\$80,800	Marblehead
Municipal	Masonry and Waterproofing Abbot Public Library	Repair and rebuild exterior brick walls, perform below grade waterproofing repairs and flooring to improve site drainage problems at the Abbot Public Library.	\$140,000	Marblehead
Municipal	Gerry School Repair Project	The primary work is to replace the roof, however the need for masonry and exterior woodwork repairs/replacement will be revealed when the slate roof is removed.	\$285,150	Marblehead
Municipal	Albertini Well Water Treatment Facility	Consists of the construction of 1.5 million gallons per day (MGD) green sand plus water treatment plant for the removal of iron and manganese	\$5,000,000	Mansfield
Municipal	Walsh Well Field Water Treatment Facility Modifications	Construction of a 70,000 gallon backwash waste sludge storage tank, 1.5 million gallon finished water storage tank and a new finished water pumping station	\$2,100,000	Mansfield
Municipal	Water Mains and related services on Williams Street, East Street, Old Elm Street, School Street, West Street and Oak Street - Alternate #1	Construction of approximately 1,700 linear feet of 12 inch diameter water main, including all valves, fittings and appurtenances, temporary bypass, hydrants, water services and temporary pavement	\$271,000	Mansfield
Municipal	Road Improvements (Mill & Overlay)	Repave various streets in Mansfield consisting of mill and overlay of existing deteriorated pavement	\$4,933,600	Mansfield
Municipal	Municipal Complex to include Mansfield Fire Station, MEMA, Highway and Public Buildings	Build new Municipal Complex to include two (2) new buildings. Public Safety building to house a main Fire Station and MEMA	\$18,500,000	Mansfield
Municipal	Mansfield Water Pollution Control Facility Regional Expansion - Design	Prepare the design documents for the treatment plant expansion with effluent disposal to land. The expansion to a 4.5 mgd capacity would require process improvements and additional tankage throughout the existing facility	\$4,500,000	Mansfield
Municipal	Mansfield Water Pollution Control Facility - Acquisition of Land Treatment Sites	Acquisition of land treatment sites where highly treated effluent would be applied to help recharge the groundwater as part of the regional wastewater expansion	\$3,100,000	Mansfield
Municipal	Plymouth Street Recreation Center Phase V	Installation of new playing fields Phase V at Plymouth Street Recreation Center consisting of two (2) multi-purpose fields	\$880,000	Mansfield
Municipal	Memorial Park Lights	Replacement of aged athletic field lighting at Memorial Park Field Complex. Installation includes new foundations, poles, lighting and necessary electrical work and enclosures. To replace existing lighting system	\$900,000	Mansfield
Municipal	Mansfield Police Station Roof	Re-roof Police Station that is in a 1974 building that has been evaluated by roofing engineer and recommended for total roof replacement	\$280,000	Mansfield
Municipal	Canoe River Campground Dam Repairs	Significant repairs to the 170 ft. long earthen Canoe River Campground Dam and concrete spillway	\$400,000	Mansfield
Municipal	Opticom Traffic Signal Upgrades	Install Opticom signal upgrades for Fire Department at seven (7) traffic signal locations in Town	\$280,000	Mansfield
Municipal	Sewer Infiltration Rehabilitation Project, Phase IV, Contract 09-1	Significant structural and infiltration related repairs to the town's municipal sewer collection system, and repairs and re-sealing sewer manholes where defects and leakage	\$650,000	Mansfield
Municipal	Saw Mill Brook channel wall repairs		\$362,000	Manchester by the Sea
Municipal	New Public Works Facility		\$598,000	Manchester by the Sea
Municipal	Waste Water Collection System Inflow and Infiltration removal		\$1,520,000	Manchester by the Sea
Municipal	Lincoln St. Well generator		\$66,000	Manchester by the Sea
Municipal	Round Pond Pump Station		\$270,000	Manchester by the Sea

Commonwealth of Massachusetts

Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Saw Mill Brook Culvert/ Bridge replacement		\$1,520,000	Manchester by the Sea
Municipal	Waste Water Operational Upgrades	Improve public water supplies pumping stations and treatment facilities. Installation of generators, upgrade to communications an data collection, replacement of old pumping stations, water main installation and replacement and equipment upgrades	\$2,795,000	Manchester by the Sea
Municipal	Water Main Installation		\$1,330,000	Manchester by the Sea
Municipal	Water Operational Upgrades	Improve public water supplies pumping stations and treatment facilities. Installation of generators, upgrade to communications an data collection, replacement of old pumping stations, water main installation and replacement and equipment upgrades	\$2,654,000	Manchester by the Sea
Municipal	Informational upgrades for Water & Wastewater Treatment facilities.		\$75,000	Manchester by the Sea
Municipal	Iron and Manganese Removal Facility		\$0	Manchaug Water District; Sutton, Massachusetts
Municipal	Public Works Improvements Program Contract 2009-H/W-1	Replacement of approximately 5,000 LF of circa-1900 unlined cast iron water mains with new cement-lined ductile iron pipe, including replacement of approximately 150 lead residential and commercial/industrial service connections	\$3,200,000	Malden
Municipal	Public Works Improvements Program Contract 2009-H/W-2	Replacement of approximately 5,000 LF of circa-1900 unlined cast iron water mains with new cement-lined ductile iron pipe, including replacement of approximately 150 lead residential and commercial/industrial service connections	\$3,200,000	Malden
Municipal	Broadway Sidewalk and Roadway Improvements	Reconstruction of approximately 4,800 linear feet of roadway pavements and sidewalks on Broadway, (Route 99) from Salem Street to the Malden/Saugus city line.	\$3,500,000	Malden
Municipal	Public Works Improvements Program Contract 2009-S-1 (Citywide Sewer Rehabilitation)	Rehabilitation and/or replacement of wastewater collection and conveyance piping including in-situ lining, replacement/spot repair of structurally deficient vitrified clay pipes and joint testing and sealing.	\$2,500,000	Malden
Municipal	Public Works Improvements Program Contract 2009-S-2 (Citywide Sewer Rehabilitation)	Rehabilitation and/or replacement of wastewater collection and conveyance piping including in-situ lining, replacement/spot repair of structurally deficient vitrified clay pipes and joint testing and sealing.	\$2,500,000	Malden
Municipal	Citywide Beautification Program Contract 2009- T-1	Continuation of citywide tree planting and landscaping program. Five Hundred street trees would be planted under this project.	\$500,000	Malden
Municipal	Ferryway Park Renovation	Renovation of Ferryway Park including re-grading and additions and extension of site drainage systems to allow proper drainage of the playing surface,	\$285,000	Malden
Municipal	Florence Street Parking Garage	Construction of a 250-space parking garage on the site of the existing municipal surface parking lot on Florence Street.	\$7,200,000	Malden
Municipal	Government Center Relocation	Relocation of Malden's municipal offices from their current location at Government Center including the demolition of the existing Government Center, re-establishment of Pleasant Street, and renovation and fit-out of space	\$15,000,000	Malden
Municipal	Jenkins Auditorium Performing Arts Center at Malden High School	Renovation and modernization of the existing Jenkins Auditorium to create a 1,600-seat art-deco performing arts center at Malden High School.	\$6,000,000	Malden
Municipal	Lead Water Service Replacement	Replacement of approximately 1,000 lead residential and commercial/industrial service connections with new copper tubing including new corporation stops and curb stops.	\$4,500,000	Malden
Municipal	Salem Street/Overlook Ridge Drive/Route 1 Access Reconstruction City of Malden - in conjunction with City of Revere		\$0	Malden
Municipal	Macdonald Stadium Renovation	Renovation of Macdonald Stadium including replacing the existing natural grass playing surface, reconstruction the existing running track, replacing the existing sports lighting system etc	\$4,400,000	Malden
Municipal	Malden Downtown Central Business District Revitalization Project (Phase 2)	This project is the second phase of a "vision" to inspire economic and social activity by improving both vehicular and pedestrian connections along several streets and enhancing or adding streetscape amenities	\$1,093,950	Malden

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Road Building for Upland Drive	Leveling and micro sealing of roadway. Surface width 23 feet and length is .46 miles. Approximately 4-5 days to complete project.	\$69,693	Hingham
Municipal	Road Building for Wanders Drive	Leveling and micro sealing of roadway. Surface width 23 feet and length is .35 miles. Approximately 4-5 days to complete project.	\$69,692	Hingham
Municipal	Beal Street Corridor	Roadway will receive full depth reconstruction and an installation of 21/2" of Dense Binder	\$625,000	Hingham
Municipal	Station Street Parking Lot	Roadway will receive the wearing surface (Top/Finish Coat)	\$100,000	Hingham
Municipal	North Street Reconstruction	Section 1 of the roadway will receive full depth reconstruction (pulverize-grade-pave). Section 2 will receive a wearing course (Top Coat-Finish) and sidewalk construction	\$618,685	Hingham
Municipal	South Street Roadway Reconstruction	South Street will receive full depth reconstruction (pulverize-grade-pave).	\$85,000	Hingham
Municipal	Road Building Fiscal Year 2010 for Beal Street	Full depth reconstruction with a 3" dense binder, micro surfacing roadway. Sidewalk reconstruction, drain upgrade. Surface area is 40 by 6,916.8 feet.	\$376,519	Hingham
Municipal	Road Building Fiscal Year 2010 for Nutty Hill Road	Project will include leveling and micro sealing of roadway. Surface area is 22 by 686.4 feet. It will take approximately 5 working days to complete.	\$19,380	Hingham
Municipal	Road Building Fiscal Year 2010 for Clifford Court	Project will include full-depth reconstruction. Surface area is 18 by 475.2 feet.	\$32,832	Hingham
Municipal	Road Building Fiscal Year 2010 for Carleton Road	Project will include micro sealing of roadway. Surface area is 21 by 1372.8 feet.	\$11,378	Hingham
Municipal	Road Building Fiscal Year 2010 for Hemlock Road	Project will include leveling and micro sealing of roadway. Surface area is 22 by 1320 feet. It will take approximately 5 working days to complete.	\$40,918	Hingham
Municipal	Road Building Fiscal Year 2010 for White Horse Road	Project will include leveling and micro sealing of roadway. Surface area is 22 by 633.6 feet. It will take approximately 5 working days to complete.	\$22,245	Hingham
Municipal	Road Building Fiscal Year 2010 for Nichols Road	Project will include leveling and micro sealing of roadway. Surface area is 24 by 686.4 feet. It will take approximately 5 working days to complete.	\$21,272	Hingham
Municipal	Road Building Fiscal Year 2010 for Leavitt Street	Full depth reconstruction with a 3" dense binder, micro surfacing roadway and sidewalk reconstruction. Surface area is 24 by 7671.84 by feet.	\$48,254	Hingham
Municipal	Road Building Fiscal Year 2010 for New Bridge Street	Project will include micro sealing of roadway. Surface area is 26 by 5332.8 feet.	\$46,475	Hingham
Municipal	Road Building Fiscal Year 2010 for New Bridge Street	Project will include micro sealing of roadway. Surface area is 22 by 2428.8 feet.	\$18,176	Hingham
Municipal	Road Building Fiscal Year 2011 for Miles Road	Full depth reconstruction with a 3" dense binder, micro surfacing roadway. Surface area is 16 by 739.2 feet.	\$34,424	Hingham
Municipal	Road Building Fiscal Year 2011 for Fearing Road	Full depth reconstruction with a 3" dense binder, micro surfacing roadway. Surface area is 21 by 2217.6 feet.	\$126,184	Hingham
Municipal	Road Building Fiscal Year 2011 for Cottage Street	Full depth reconstruction with a 3" dense binder, micro surfacing roadway and sidewalk reconstruction. Surface area is 22 by 1636.8 feet.	\$138,926	Hingham
Municipal	Road Building Fiscal Year 2011 for Ship Street	Full depth reconstruction with a 3" dense binder, micro surfacing roadway and sidewalk reconstruction. Surface area is 18 by 950.4 feet.	\$73,445	Hingham
Municipal	Road Building Fiscal Year 2011 for Burditt Avenue	Full depth reconstruction with a 3" dense binder, micro surfacing roadway and sidewalk reconstruction. Surface area is 19 by 1953.6 feet.	\$131,884	Hingham
Municipal	Road Building Fiscal Year 2011 for Cole Road	Project includes micro surfacing roadway and sidewalk reconstruction. Surface area is 10 by 1003.2 feet.	\$14,018	Hingham
Municipal	Road Building Fiscal Year 2011 for Central Street	Project includes micro sealing roadway. Surface area is 28 by 5332.8 feet.	\$65,483	Hingham
Municipal	Road Building Fiscal Year 2011 for Fort Hill Street & Fresh River Avenue	Project includes micro sealing roadway. Surface area is 44 by 4593.6 feet.	\$78,063	Hingham
Municipal	Road Building Fiscal Year 2011 for Water Street	Full depth reconstruction with a 3" dense binder, micro surfacing roadway and sidewalk reconstruction. Surface area is 26 by 2059.2 feet.	\$130,416	Hingham
Municipal	Road Building Fiscal Year 2012 for Paige Street	Full depth reconstruction with a 3" dense binder, micro surfacing roadway and slope drain reconstruction. Surface area is 20 by 792 feet.	\$55,156	Hingham
Municipal	Road Building Fiscal Year 2012 for Malcolm Street	Full depth reconstruction with a 3" dense binder, micro surfacing roadway and slope drain reconstruction. Surface area is 20 by 580.8 feet.	\$35,191	Hingham
Municipal	Road Building Fiscal Year 2012 for Mann Street	Full depth reconstruction with a 3" dense binder, micro surfacing roadway and slope drain reconstruction. Surface area is 16 by 792 feet.	\$45,576	Hingham
Municipal	Road Building Fiscal Year 2012 for Whiton Avenue	Full depth reconstruction with a 3" dense binder, micro surfacing roadway and slope drain reconstruction. Surface area is 10 by 158.4 feet.	\$95,998	Hingham

## Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Information Technology / Computerized Recordkeeping Software	Purchase recordkeeping software for Police Department in order to move from paper method to computerized program	\$20,390	Hatfield
Municipal	Municipal Facilities Project / Renovation and Restoration of former Hatfield Center School	Renovate and restore former elementary school for municipal purposes	\$2,500,000	Hatfield
Municipal	Hatfield 16 Inch Water Transmission Main	Construct approximately 3.7 miles of 16 inch ductile iron water main from the Hatfield Water Filtration Plant located on Reservoir Road to the intersection of School and Main Streets	\$7,263,575	Hatfield
Municipal	Repair and Stabilization of Connecticut River Dike	Design plan and repair in order to stabilize an area of the dike where erosion is taking place. In 2007, the Town of Hatfield applied for a Hazard Mitigation Grant through the Department of Conservation and Recreation.	\$350,000	Hatfield
Municipal	Elm Street Rehabilitation	Roadway and sidewalk rehabilitation along Elm Street. The work for the project is within the existing roadway and sidewalk footprint.	\$1,022,000	Hatfield
Municipal	Rehabilitation of Center School for Municipal Purposes	Project would entail renovating and restoration of 88 year old building (Circa 1920). Project would include upgrading for energy efficiency replacing windows, updating light fixtures, lowering ceilings.	\$2,500,000	Hatfield
Municipal	Contract 2010-1 for the Rehabilitation of the Lothrop Avenue Elevated Water Storage Tank with	Removal of all coatings, welding repairs, structural member replacements, and the application of high performance coating systems to the interior/exterior surfaces of the elevated storage tank.	\$1,302,000	Harwich Water Department
Municipal	Contract 2009-1 for the Rehabilitation of the Route 39 Elevated Water Storage Tank with Appurtenant	Removal of coatings, welding repairs, structural member replacements, and the application of high performance coating systems to the interior/exterior surfaces of the elevated storage tank.	\$1,382,000	Harwich Water Department
Municipal	Multi-Purpose Field Project	Build a large multi-purpose field behind the Town of Harwich Community Center	\$267,000	Harwich Recreation and Youth
Municipal	Town of Harwich Police/Fire Public Safety Facility	Construction of new and existing Fire Department renovation to join the Harwich Police and Fire Departments in a combined Public Safety Facility that includes a communications center with regional capabilities...	\$9,250,000	Harwich
Municipal	Information Technology Infrastructure for New Public Safety Building	The Town of Harwich is currently building a new Public Safety Building that will house both the Police and Fire Departments.	\$437,549	Harwich
Municipal	DPW garage expansion project	Construction of a 40 foot by 80 foot metal space building consisting of 5 bays with overhead doors and storage space for inventory	\$600,000	Harwich
Municipal	Brewster-Chatham Road (Route 137), Harwich MA - Transportation Improvement Project	Brewster-Chatham Road (Route 137), Harwich MA - Transportation Improvement Project	\$4,600,000	Harwich
Municipal	Allen Harbor Dredge Project	Establish a dredging zone to perform maintenance dredging. The area was previously dredged to a depth of -6.0' MLW under the Department of Public Works Division of Waterways Dredge Contract No. 2264	\$1,070,000	Harwich
Municipal	Water Treatment Plant at Site 10	Permitting, design and construction of a water treatment facility at Site 10. The plant will have a design capacity of approximately 3 MGD and will treat raw water with high levels of iron and manganese from both an existing water supply well and several	\$6,000,000	Harwich
Municipal	Main Well Field – Water Treatment Plant	Design and construction of water treatment plant for removal of iron and manganese from the Town's largest water supply well field – the Main Well Field.	\$7,000,000	Harwich
Municipal	New Water Supply at Site 10	Permitting, design and construction of a new well field at Site 10, which will serve as a redundant water supply to the Town's existing well fields. The project will consist of the construction of approximately five new water supply wells at Site 10	\$2,000,000	Harwich
Municipal		Upgrade existing heating/cooling equipment in several buildings; install controls /drives at WWTF	\$110,000	Harwich
Municipal	Ayer Road Corridor Infrastructure and Roadway Improvement Project	Redesign of Ayer Road from Route 2 to the Ayer town line. The project will include various traffic safety improvements along with the complete resurfacing of the roadway and a utility component as well.	\$6,100,000	Harvard
Municipal	Town of Harvard Historic Center Preservation and Revitalization Sewer Project	Construction of low pressure sewer pipeline, grinder pump units, one pumping station, force main, one new equalization tank, and an upgrade to the facilities de-nitrification treatment unit.	\$2,300,000	Harvard
Municipal	Senior Center Construction/Renovation Project	Construction and renovation of a Senior Center to accommodate a significantly growing elderly population in Harvard.	\$1,300,000	Harvard
Municipal	Water Distribution - Renovation and Upgrade	This project would completely replace the 70 year old water distribution system for the Town of Harvard and combined with the sewer project will provide ongoing economic impact..	\$500,000	Harvard
Municipal	Renovation of Harvard's Hapgood Library	This project would completely renovate the current brick structure which would include insulating the building and providing for greater energy efficiency.	\$1,600,000	Harvard
Municipal	Historical Restoration and Renovation of Harvard Town Hall	Renovate the current 1871 wood structure and provide for additional energy conservation measures, including insulating the building and providing for a solar array on the roof.	\$125,000	Harvard
Municipal	Wastewater Treatment Facility Influent Pumping Station Replacement		\$0	Hardwick
Municipal	Sanitary Sewer Replacement Project		\$0	Hardwick
Municipal	Gilbertville Wastewater Treatment Facility Upgrade		\$0	Hardwick
Municipal	Gilbertville/Hardwick Road Rehabilitation	Upgrade & Resurface Hardwick Road (Rt. 32A) commencing at the junction of Rt.32 & 32A and extending 3.4 miles to its intersection with the Petersham Road and Barre Road Intersection.	\$6,000,000	Hardwick
Municipal	Greenwich Road Rehabilitation	Upgrade & Repave Greenwich Road commencing at the Ware town line and extending 7.4 miles to the intersection with Petersham Road	\$10,300,000	Hardwick

# Commonwealth of Massachusetts

## Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Hardwick Center Improvements Project	Upgrades to the Hardwick Center Water System, consisting of the installation of a new control building with storage tanks and original equipment, well casting modifications, interconnecting piping and electric service between the new building and the exis	\$550,000	Hardwick
Municipal	Hanson - Rehabilitation/ Resurfacing, Mill and overlay, and related improvements on federal aid	Use Economic Stimulus Funds to perform rehabilitation/resurfacing, mill and overlay work and streetscape improvements on the following federal aid eligible roadways (High Street, King Street, Maquan Street, County Road, Frankl	\$3,749,083	Hanson
Municipal	Water Main Improvements & Appurtenant Work – East Washington Street	This project includes, but is not necessarily limited to, the replacement of approximately 6,300 linear feet of 6-inch and 8-inch cast iron water main with 8-inch and 12-inch ductile iron pipe...	\$950,000	Hanson
Municipal	Water Main Improvements & Appurtenant Work – West Washington Street and part of East	This project includes, but is not necessarily limited to, the replacement of 8-inch cast iron water main with 12-inch ductile iron pipe, including gate valves, hydrants, and water services.	\$1,800,000	Hanson
Municipal	Water Main Improvements & Appurtenant Work – Vinyl-Lined AC Pipe Replacement	This project includes, but is not necessarily limited to, the replacement of vinyl-lined asbestos cement water main with 8-inch ductile iron pipe, with gate valves, hydrants, and water services.	\$1,400,000	Hanson
Municipal	Water Main Improvements & Appurtenant Work – Main Street (Route 27)	This project includes, but is not necessarily limited to, the installation of approximately 3,150 linear feet of 12-inch ductile iron water main including gate valves, hydrants, and water services.	\$475,000	Hanson
Municipal	Water Main Improvements & Appurtenant Work – King Street	This project includes, but is not necessarily limited to, the replacement of 6-inch cast iron water main with 8-inch ductile iron pipe, including gate valves, hydrants, and water services.	\$450,000	Hanson
Municipal	Crystal Spring Wellfield Treatment Facility Chemical Feed Modifications	The project involves the construction of modifications to the Crystal Spring Wellfield Water Treatment Facility.	\$150,000	Hanson
Municipal	Phase 2 Bridge Repairs	Repairs to the Washington Street Bridge over the North River and the Curtis Crossing Bridge, includes concrete patching, filling of voids, pointing of mortar joints, wing wall spot repairs...	\$700,000	Hanoverjointly with thePembroke
Municipal	King Street Recreation Complex	Construction of recreation and athletic complex, to include 10 multi-sport fields, walking/nature trails, conservation space, access roads, parking facilities, storm water controls...	\$5,000,000	Hanover
Municipal	Washington Street (State Highway Route 53) Hanover -Transportation Improvement Project –	The Washington Street (State Highway Route 53) Hanover -Transportation Improvement Project consists of improvements to approximately 2300 feet of Washington Street (Route 53) from Route 3 to Webster Street	\$1,800,000	Hanover
Municipal	New Hanover High School Project	156,000 sf new High School for 800 students to include athletic fields, gymnasium, theatre, multipurpose room, classrooms and administrative offices	\$43,000,000	Hanover
Private Development - Traditional Infrastructure (unreviewed)	The Village of Hanover	A mixed-use complex of 200,000 sq. ft. for retail, commercial and residential smart-growth development. 104 Residential Units and all components tied to a 38,000 gallon waste water treatment plant.	\$15,000,000	Hanover
Municipal	A. Renovations - Infrastructure	Retrofit the hardware. Rebuild the receiving area. Rebuild Septic Tank Pumps	\$25,000	Hampshire Regional School District
Municipal	B. Solar Panels	Place solar panels on roof to offset 25 to 50 % of electricity	\$4,000,000	Hampshire Regional School District
Municipal	C. Technology – Providing for Head End and Wide Area Network	Telecommunications, centralizing computer services and resources , upgrading server and network capacity, purchasing software and enhancements, training, providing a software program to meet the reporting needs of the medical information for students.	\$65,000	Hampshire Regional School District
Municipal	Solar Energy	Offset electricity costs	\$4,000,000	Hampshire
Municipal	Public Safety Complex	Conversion of existing Fire Station into Police and Fire Complex. This project is not under consideration for any other Federal or State Funds.	\$0	Hampden
Municipal	Hampden Town Hall Air Conditioning and Heating Upgrade	See above This project is not under consideration for any other Federal or State Funds.	\$100,000	Hampden
Municipal	Hampden Highway Department Building Replacement	Complete construction of new structure to replace existing building constructed in 1938. This project is not under consideration for any other Federal or State Funds.	\$850,000	Hampden
Municipal	Main Street Culvert Replacement	Replacement of existing culvert and associated drainage on Main Street which has caused severe flooding over the past three years.	\$0	Hampden
Municipal	Central Building Roof Replacement	Replace 75+ year old slate roof and 30+ year old flat roof on the District's Administrative Building.	\$98,000	Hamilton-Wenham Regional School
Municipal	Upgrade and Replacement of Equipment at the Water Treatment Plant	The Water Treatment Plant and associated wells are in need of significant upgrades and replacement of its equipment and media to adequately treat the raw water. This project would upgrade the filter media and treatment system along with replacing malfunc	\$250,000	Hamilton
Municipal	Installation of exterior ADA elevator at Town Hall.	This project would be the construction of an ADA Elevator on the exterior of Town Hall for access to all levels of Town Hall.	\$500,000	Hamilton
Municipal	Bridge Street Culvert Replacement	Improved Bridge Street box culvert routinely sustains overtopping of the roadway during major storm events.	\$1,075,000	Hamilton
Municipal	Water Line Extension and Paving on Chebacco Road	Extend the existing water line on Chebacco Road to connect with the Town of Manchester's water treatment plant. Provide an emergency connection between the two towns.	\$350,000	Hamilton
Municipal	Fire Department Staff Quarters	Fitout of Fire Department 2nd floor. The structure is a combined police and fire complex approximately 1 year old.	\$180,000	Hamilton
Municipal	Grading and repaving of Gregory island Road	Sections of Gregory Island Road consistently floods during rain events. This project would increase the elevation to prevent this safety issue from occurring.	\$75,000	Hamilton
Municipal	Howard Street Culvert Replacement	This project would replace two culverts on Howard Street that are causing flooding in the adjacent neighborhood during many normal rain events.	\$45,000	Hamilton
Municipal	Emergency Access to Locust Street from Public Safety Facility	Access to Locust Street and the adjacent neighborhood from the Public Safety Building is significantly longer than need be due to the route which must be traveled.	\$50,000	Hamilton
Municipal	Upgrade and Replacement of Equipment at the Town Pool	The piping and coping at the Town's 47 year old pool is in dire need of replacing. This project would replace the piping, the pool lining along with some of the decking.	\$50,000	Hamilton
Municipal	Installation of Supplemental Safety Measures on Bay Road and Asbury Street	Install supplemental safety devices at the railroad crossings at Asbury Street and Bay Road. In order for the Town of Hamilton to maintain its "quiet zone" status.	\$150,000	Hamilton
Municipal	Senior Center Building Renovations	Thebuilding needs significant renovations, ADA requirements are lacking, and the mechanical and electrical systems need upgrades and replacement.	\$675,000	Hamilton
Municipal	Expand Winthrop School Parking Lot	The Winthrop School parking lot, which also has cars from the senior center and public safety building utilizing it, needs to be expanded and paved to accommodate its use.	\$50,000	Hamilton

## Commonwealth of Massachusetts

### Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Halifax - Rehabilitation/ Resurfacing, Mill and overlay, and related improvements on federal aid	Use Economic Stimulus Funds to perform rehabilitation/resurfacing, mill and overlay work and streetscape improvements on the following federal aid eligible roadways (Plymouth Street, Monponsett Street, Walnut Street, Thompson	\$6,922,823	Halifax

Municipal	Reconstruction of western portion of Route 106	Reconstruction includes new base and surface, drainage and sidewalks	\$0	Halifax
Municipal	Hayward Street Culvert Crossing	Installation of approximately 60 linear feet of 8-inch insulated steel and ductile iron water main for the purpose of crossing an existing masonry culvert	\$40,000	Halifax
Municipal	Thompson Street Bridge Crossing	Installation of approximately 110 linear feet of 12-inch insulated ductile iron water main for the purpose of crossing the Thompson Street Bridge	\$150,000	Halifax
Municipal	Wastewater Treatment Facility Aeration Tank Improvements	This project involves rehabilitation of the treatment facilities four aeration tanks due to their age and condition.	\$110,000	Hadley
Municipal	Pumping Station #1 Improvements	Pumping Station #1 is a critical pumping station for the Town as it provides full pumping of sanitary sewage from the Town's collection system to the treatment facility.	\$560,000	Hadley
Municipal	Sewer Pipe Rehabilitation on Route 9	This project involves lining of approximately 500 linear feet of sewer pipe along the Route 9 commercial corridor.	\$40,000	Hadley
Municipal	Hadley Connecticut River Dike Survey and Upgrade	The Town will use these funds to survey the dike facing the river (approximately 5,000 feet) and repair damaged portions.	\$800,000	Hadley
Municipal	Goodwin Memorial Library Accessibility Addition	Elevator Addition and Building Improvements to Existing Town Library This project comprises an elevator/stairwell addition which will house accessible bathroom and new HVAC system.	\$950,670	Hadley
Municipal	North Hadley Village Hall Renovation	Renovations include exterior painting and repair to rotted wood clapboards, interior electrical, plumbing, and HVAC upgrades, foundation repair, and roof repair.	\$1,500,000	Hadley
Municipal	Hadley Senior Center Renovation	The Hadley Senior Center HVAC system needs to be replaced.	\$600,000	Hadley
Municipal	Hadley Town Hall Renovation	The 1840 Town Hall needs interior renovations to bring it into compliance with various codes.	\$100,000	Hadley
Municipal	Electrical Improvements to Pumping Stations #5, #6, #7, and #8	Pumping Stations #5, #6, #7, and #8 are similar pumping stations. Electrical components in these pumping stations require upgrade due to their age and condition...	\$550,000	Hadley
Municipal	Pumping Station #4 Replacement	Pumping Station #4 is a pre-packaged below-grade pumping station accessed via a 3-foot diameter entrance shaft. The pumping station is in need of complete replacement	\$900,000	Hadley
Municipal	Wastewater Treatment Facility Sludge Handling Improvements	The sludge handling system at the Hadley WWTF is archaic and very inefficient.	\$852,000	Hadley
Municipal	Water main replacement project -Rt. 9	Replace 6" Cast Iron old water main along Rt. 9 from Whalley St. to East St with 12 "approximately 3470 feet of pipe.	\$467,700	Hadley
Municipal	South Maple Street Waterline Replacement Project/Road Reconstruction	Reconstruction project for South Maple Street: South of Rte. 9 to Bay Rd.-road, bridge and water main	\$2,750,000	Hadley
Municipal	Mapping of Water Distribution System	Locate and map all valves and hydrants in Hadley water distribution system-then computerized.	\$50,000	Hadley
Municipal	Water Tank Mixing system	Install tank mixers on 3 water tanks to improve water quality. Applied for SRF funding to state.	\$410,000	Hadley
Municipal	Senior Center HVAC Project	Replace old HVAC system with energy efficient system, install solar panels where appropriate	\$600,000	Hadley
Municipal	Well No.1 Pumping Station Upgrade and Water Treatment Facilities	This project involves the rehabilitation of the Town's drinking water well, upgrade of the 40 year old pumping station and equipment and construction of water treatment facilities	\$560,000	Groveland Water & Sewer Department
Municipal	Water main replacements and looping	This project involves the design and construction of water main improvements required to replace aging infrastructure, improve distribution system water quality, pressure and reliability.	\$500,000	Groveland Water & Sewer Department
Municipal	Wastewater Pumping Stations	This project involves the design and construction of a new wastewater pumping station for the Bagnall School and equipment upgrades for the Main Street Pumping Station.	\$250,000	Groveland Water & Sewer Department
Municipal	Water and Wastewater SCADA Control System	This project involves the design and construction of a computer based monitoring and control SCADA system for the town water and sewer facilities.	\$150,000	Groveland Water & Sewer Department
Municipal	New Water Storage Facility	This project involves the design and construction of a new water storage tank to serve the High Service Zone.	\$1,200,000	Groveland Water & Sewer Department
Municipal	Town wide Paving and Road side Rehabilitation	Reclaim and Pave 5 miles of road and sidewalk rehabilitation.	\$1,137,664	Groveland Highway Dept.
Municipal	Salt Shed	Construction Of New Salt Shed	\$200,000	Groton
Municipal	Biomass Power Plant	Development of a 50 megawatt biomass fired power plant, which will generate nearly 400,000 MWh of renewable electricity per year	\$250,000,000	Greenfield

## Commonwealth of Massachusetts

### Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	First National Bank Building Project	Redevelop one of the most important and visible historic buildings in the center of downtown Greenfield	\$514,000	Greenfield
Municipal	Sewer Extension at Greenfield Industrial Park	Extend town sewer approximately 500 feet across town owned property (no roadways crossed) to provide municipal sewer service to a 3 acre parcel within the Greenfield Industrial Park	\$40,000	Greenfield
Municipal	MAPLE BROOK CULVERT REPLACEMENT	Construction of approximately 1200 feet of a 6' X 5' concrete box culvert bypass from Sanderson St. to Federal St	\$2,500,000	Greenfield
Municipal	Upper Story Project: Downtown Greenfield Revitalization Program	Redevelop eight buildings owned by five separate owners in the center of downtown Greenfield	\$3,000,000	Greenfield
Municipal	WEST SIDE WATER STORAGE TANK	Construct a 1.5 million gallon water storage tank on the west side of town off Gorge Road. The project will also install 13,000 feet of 12" and 20" distribution mains connecting the tank to the existing system.	\$5,500,000	Greenfield
Private Development - Traditional Infrastructure (unreviewed)	Community Health Center of Franklin County	Leasehold improvements for 14,000 square foot clinic to repce existing facility	\$1,500,000	Greenfield
Municipal	Greenfield Olive Street Parking and Office Facility	Building parking facility to support the redevelopment and re-vitalization of the Bank Row Urban Renewal District	\$10,000,000	Greenfield
Municipal	INCREASED LANDFILL CAPACITY AND METHANE PRODUCTION THROUGH SOLID	The process of shredding municipal solid waste, shredding glass, and methane pipeline for increased electrical production at our facility's 3.2 megawatt power plant	\$900,000	GREATER NEW BEDFORD
Municipal	Contract 01 – ECM: Main Pump Station Improvements	Replace existing 800 hp motors with higher efficiency, inverter-duty rated units. Refurbish pumps. Upgrade pump control system to operate more efficiently. Install instrumentation to monitor efficiency continuously.	\$1,800,000	Greater Lawrence Sanitary District
Municipal	Contract 03 – CSO Construct New and Parallel Force Main	Project will consist of the following components: Installation of a new parallel 72-inch diameter Force Main between the Main Pump Station and the Treatment Plant.	\$8,400,000	Greater Lawrence Sanitary District
Municipal	Contract 05 Replacement of Existing 23 kv Circuit Breakers	Replace the two existing 23 kv Circuit Breakers that feed the entire WWTP. The existing breakers were manufactured by a company that went out of business twenty years ago. Spare parts are no longer available for these breakers.	\$375,000	Greater Lawrence Sanitary District
Municipal	Contract # 15 – CSO Capacity Upgrades to the Wastewater Treatment Plant	A restriction in the flow capacity of the existing secondary clarifier effluent channel will be corrected. A new secondary clarifier effluent channel will be built to increase the flow from two of the existing secondary clarifiers.	\$275,000	Greater Lawrence Sanitary District
Municipal	Contract # 02- ECM Waste Water Treatment Plant Improvements	Replace existing 800 hp motors with higher efficiency, inverter-duty rated units. Refurbish pumps. Upgrade pump control system to operate more efficiently. Install instrumentation to monitor efficiency continuously.	\$2,552,500	Greater Lawrence Sanitary District
Municipal	Contract # 04 – ECM Wastewater Treatment Plant (WWTP) Aeration System Improvements.	Increase the energy efficiency of the operation of the aeration system and decrease the horsepower required to provide air to the four aeration tanks at the WWTP	\$1,263,500	Greater Lawrence Sanitary District
Municipal	Contract # 06 - ECM Improvements at the Wastewater Treatment Plant (WWTP)	Install Variable Frequency Drives' on the existing four "Y" zone 8.3 hp mixers in the aeration tanks. Current loading and design conditions only require 4.8 hp of mixing energy	\$336,500	Greater Lawrence Sanitary District
Municipal	Contract # 07 - ECM Modification to the HVAC System at the Wastewater Treatment Plant	Install condensate hot water pumps and motors at the sludge drying building and pump the hot water to the existing heat exchangers in the digester building. Modify existing piping and mechanical items	\$458,000	Greater Lawrence Sanitary District
Municipal	Contract # 08 - ECM Lighting System Improvements	Wherever cost-effective, existing lighting systems at the Wastewater Treatment Plant and the Main Pump Station would be upgraded with new energy efficient lighting systems.	\$142,000	Greater Lawrence Sanitary District
Municipal	Contract # 09 Removal of Rarely Used Underground Oil Storage Tanks	This project will entail the removal of two 20,000 gallon heating oil storage tanks. The existing tanks are aging and represent a potential danger of release of oil. Fuel oil is only infrequently used for heating.	\$100,000	Greater Lawrence Sanitary District
Municipal	Contract # 10 – ECM Main (Riverside) Pump Station Heating and Ventilation System Improvements	Reduce heating costs and improve the energy efficiency of the Riverside Pump Station while maintaining minimum ventilation requirements: Install variable speed drives on Supply Fans 1 and 2 to reduce speed to 50% during cold water months Install automatic	\$27,500	Greater Lawrence Sanitary District
Municipal	Contract # 11 – CSO Main (Riverside) Pump Station 1250 hp Raw Sewerage Pump Modifications	Rebuild the existing thirty-year-old pumps to restore efficiency of operation. Rebuild existing eddy current clutches and replace current electro-mechanical controls with new digital controls.	\$1,000,000	Greater Lawrence Sanitary District
Municipal	Contract # 12 – CSO Repair Force Main Segments	Excavate each of the identified pipe sections and install a structural post-tensioned tendon system on the exterior of each section.	\$1,250,000	Greater Lawrence Sanitary District
Municipal	Contract # 13 – CSO Construct Primary Bypass	The existing sewerage system is a partially combined system and experiences periodic combined sewer overflows, a bypass around the primary treatment system would be constructed.	\$2,700,000	Greater Lawrence Sanitary District
Municipal	Contract # 14 – CSO Replace Highest Risk Force Main Sections	To strengthen this section of force main and in conjunction with allowing more wet weather flows to pass through this force main, the lower 450 linear feet of force main pipe would be replaced.	\$2,800,000	Greater Lawrence Sanitary District
Municipal	State Road 12" Main	Replace existing 6" – 8" transit pipe with 12" class 52 - ductile iron pipe	\$1,660,000	Great Barrington
Municipal	Secondary Water Source	New water source development – Drill well & purchase property	\$1,200,000	Great Barrington
Municipal	Ramsdell Library Heating System and Energy Upgrades		\$150,000	Great Barrington
Municipal	Town Hall Energy Upgrades		\$150,000	Great Barrington
Municipal	Rising Ave & cone Ave Pumping Station Emergency Generators		\$150,000	Great Barrington
Municipal	Gilmore Avenue Sewer Replacement	Replace older section of sanitary sewer including new house connections.	\$50,000	Great Barrington
Municipal	Wastewater Treatment Plant Heating system Replacement Wastewater Treatment Plant Heating		\$65,000	Great Barrington
Municipal	New England Log Homes Redevelopment, Stage I Demolition	A public/private partnership for the redevelopment of an 8-acre brownfield site in the town center of Great Barrington. ) Estimated Total Development Costs: \$28,000,000	\$1,000,000	Great Barrington
Municipal	New England Log Homes Redevelopment, Stage I Demolition	Background: A public/private partnership for the redevelopment of an 8-acre brownfield site in the town center of Great Barrington.	\$1,392,448	Great Barrington

Commonwealth of Massachusetts

Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Replace Culvert on Amherst Street	Replace Existing 72 inch Corrugated Metal Culvert	\$210,000	Granby
Municipal	Amherst Street Overlay	Mill and Overlay existing pavement	\$460,000	Granby
Municipal	Chicopee Street / Carver Street Reconstruction	Reclaim and Repave existing Pavement	\$880,000	Granby
Municipal	Granby Heights Septic System	Replace current septic system for the 76-unit condominium project has been deemed to be non-compliant under DEP regulations	\$1,500,000	Granby
Municipal	Granby Public Library	Construction of a new Town public library to replace the existing "Carnegie" library	\$3,265,500	Granby
Municipal	New Ludlow Road Sanitary Sewers	Provide sanitary sewers to a low to moderate income area of Granby that has had chronic problems with on-site subsurface wastewater disposal systems for a number of years	\$6,000,000	Granby
Municipal	Granby Public Safety Facility	Construction of a new 2-story public safety facility totaling approximately 25,381 square feet	\$6,400,000	Granby
Municipal	Granby Public Schools	Renovation of the Town's existing high school facility and construction of additional classrooms on the same site creating a campus style educational environment thereby allowing the Town to close down one elementary school	\$86,977,677	Granby
Municipal	School Street Reconstruction	Reclaim and Repave existing Pavement	\$440,000	Granby
Municipal	West Street Reconstruction	Reclaim and Repave existing Pavement	\$600,000	Granby
Municipal	Brigham Hill Road River Crossing repair	Replace broken 8-inch cast iron water main with new 12-inch ductile Iron water main under river.	\$75,000	Grafton Water District
Municipal	Carroll Road water main extension	Install 980 feet of 12-inch Ductile Iron Pipe and 50 foot railroad crossing	\$165,000	Grafton Water District
Municipal	Cold Spring Drive water main extension	Install 500 feet of 8-inch Ductile Iron Pipe.	\$82,000	Grafton Water District
Municipal	Aeration tower media replacement	Replace aged media within the East Street treatment plant aeration tower	\$20,000	Grafton Water District
Municipal	North Street Railroad Crossing	Replace broken 8-inch cast iron water main with new 12-inch ductile Iron water main under railroad crossing.	\$35,000	Grafton Water District
Municipal	New Generator Pigeon Hill Booster station	Install a new generator to the Pigeon Hill Booster station that serves 45 homes. Presently when the power goes out the homes lose water.	\$75,000	Grafton Water District
Municipal	Well Cleanings East street #2 And #3, Follette Street and Worcester street wells	Clean and redevelop four municipal gravel packed wells to promote efficiency of water withdrawal	\$60,000	Grafton Water District
Municipal	Generator replacement Worcester street pump station	Replace old generator for the Worcester street pump station with new automatic generator	\$125,000	Grafton Water District
Municipal	Depot Street Bridge Sidewalk Repairs	Structural repairs to the concrete cantilever sidewalk	\$100,000	Grafton
Municipal	Millbury Street Culvert at Cronin Brook Replacement	Culvert replacement and roadway repairs	\$150,000	Grafton
Municipal	Lake Ripple and Silver lake Dam Repairs	Dam repairs	\$700,000	Grafton
Municipal	Brigham Hill Road Rehabilitation	Propose Reclamation of existing Roadway pavement, bituminous concrete paving, and minor drainage improvements	\$400,000	Grafton
Municipal	Willard Street Rehabilitation	Propose Reclamation of existing Roadway pavement, bituminous concrete paving, and drainage improvements	\$300,000	Grafton
Municipal	Riverview Recreational Field Construction	Construction of a new multi use recreational field	\$400,000	Grafton
Municipal	Main Street (Route 122A) Rehabilitation	Propose Reclamation of existing Roadway pavement, bituminous concrete paving, sidewalk construction, and minor drainage improvements	\$500,000	Grafton
Municipal	Pleasant Street Rehabilitation	Propose Reclamation of existing Roadway pavement, bituminous concrete paving, and minor drainage improvements	\$400,000	Grafton
Municipal	North Street Reconstruction	Propose roadway reconstruction and drainage improvements	\$400,000	Grafton
Municipal	Brigham Hill Roadway Improvements	Propose Reclamation of existing Roadway pavement, bituminous concrete paving, and minor drainage improvements	\$200,000	Grafton
Municipal	North Street & Old Westboro Road Rehabilitation	Propose Reclamation of existing Roadway pavement, bituminous concrete paving, sidewalk construction, and minor drainage improvements	\$200,000	Grafton
Municipal	Fisherville Mill Blackstone River and Canal Restoration Eco-park	Construction of a public park complex at the site of the Fisherville Mill Brownfield that will incorporate innovative river, storm water and contaminated sediment treatment systems into an interpretive public historic, recreational and ecological park	\$2,500,000	Grafton
Municipal	Phase 1 Wastewater Treatment Facility Upgrade, Essex Avenue WWTF	Upgrade wastewater treatment facility	\$6,610,000	Gloucester
Municipal	Phase 2/3 Wastewater Treatment Facility Upgrade, Essex Avenue WWTF	Upgrade the wastewater treatment facility	\$14,110,000	Gloucester

## Commonwealth of Massachusetts

### Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Combined Sewer Overflow – Repair and Modification of CSO-002 Regulator	Removal, refurbishment/replacement, and field testing of the modified CSO-002 regulator to work as intended to maximize flows to the WWTF and reduce overflows	\$160,000	Gloucester
Municipal	Infiltration / Inflow Correction – Hartz Street Pumping Station Sewer Catchment Area	Investigate collector sewers within the Hartz Street catchment area and repairing, replacing, or relining broken and cracked pipes contributing to the Infiltration/Inflow at the pump station including 54 feet of 18-inch pipe that has already been identified	\$205,000	Gloucester
Municipal	Combined Sewer Overflow – Upper and Lower CSO-002 Sewer Separation	Construct a new storm drain outfall to serve the CSO-002 area of downtown Gloucester then complete sewer separation in the downtown catchment area. Extensive sewer separation in the upper reaches of this catchment area and includes installation of new drains	\$6,000,000	Gloucester
Municipal	Sewer Pumping Station Repairs and Upgrades	Electrical upgrades, pump and control replacement, draining and rehabilitating the wet wells, and site and buried utility work associated with bypass pumping and pipe and valve installation. Three additional stations are in serious need of repairs and	\$4,500,000	Gloucester
Municipal	Collector Sewers – Goose Cove Force Main Extension	Installation of approximately 1,200 feet of force main to extend the low pressure sewer discharge to the pump station wetwell directly to reduce the problems discussed. Rehabilitation of several gravity manholes that have become corroded over the years	\$550,000	Gloucester
Municipal	Modify and Abandon Sludge Lagoon – West Gloucester Water Treatment Facility	Installation of groundwater dewatering pumps, and use of sludge pumps and heavy equipment to control the groundwater and remove the sludge and transport it to the local wastewater treatment facility	\$180,000	Gloucester
Municipal	Abandon Sludge Lagoons and Install Bypass Gravity Sewer for Backwash Babson Water Treatment Facility	Installation of groundwater dewatering pumps, and use of sludge pumps and heavy equipment to control the groundwater and remove the sludge and transport it to the local wastewater treatment facility	\$380,000	Gloucester
Municipal	Repair and Upgrade Water Storage Tank – Plum Cove Tower on High Street	Cleaning and painting the interior and exterior of the water tank and upgrading the tank to include mechanical or static mixing systems to improve the water quality. Raising the existing water standpipe, installation of another ring on the bottom of the	\$250,000	Gloucester
Municipal	Upgrade Treatment Facilities, Babson and West Gloucester Water Treatment Facilities	Replacement of the existing chlorine gas disinfection system with sodium hypochlorite system. Removal of the existing rapid sand filters, modification of the structural tanks and piping to receive the new filters, and purchase and installation of new rapid	\$1,600,000	Gloucester
Municipal	Repairs and Maintenance, Babson and West Gloucester Water Treatment Facilities	Replacement of the leaking roof, replacement of the sludge collection system, replacement of flights and chains in the sedimentation tanks, and installation of sludge valves and level controls in the sedimentation tanks. Installation of a recycle system	\$970,000	Gloucester
Municipal	Master (Water Supply) Meter Replacement, Babson and West Gloucester WTFs	Replace the aging source "master" meters at each facility and install them in dedicated meter pits outside the treatment facilities where they can be relied upon to produce accurate results. Purchase and install new master meter within a metering pit	\$150,000	Gloucester
Municipal	Water Transmission Main Installation and Cast Iron Water Main Replacement	Completing flow tests to identify the pipes suffering from the highest tuberculation and greatest resulting pressure losses, then replacing the worst pipes. Installation of temporary water mains	\$26,550,000	Gloucester
Municipal	Aged Water Distribution Infrastructure Replacement (Hydrants, Valves, Services)	Repaired and/or replaced 130 hydrants and valves	\$2,770,000	Gloucester
Municipal	Fernwood Reservoir North Dam Rehabilitation	Stone masonry spillway repairs, permanent erosion protection on upstream and downstream slopes; discharge channel construction and improvements	\$70,000	Gloucester
Municipal	Repair and Rehabilitate Operations Building and Storage Garage	Rehabilitate Operations Building. Design and permitting of existing building demolition, demolition and disposal of existing building; excavation, concrete, and buried electrical for new 10,000 s.f. building foundation, construction of new 10,000 s.f. pre	\$575,000	Gloucester
Municipal	Construct New Salt Shed at DPW Facility	Purchasing a new salt shed and installing it in the location of the current salt pile. Construction and installation of footings for the new salt shed within the existing parking area at the DPW yard, purchase of the new salt shed, and installation of the	\$800,000	Gloucester
Municipal	Roadway Paving and Reconstruction Projects	Repair, repave, or reconstruct roadways according to their criticality, condition, and cost for construction. The Pavement Management report identifies \$11.5 million in projects which should be addressed over the next five years	\$9,625,000	Gloucester
Municipal	Gloucester City Hall	City Hall exterior restoration	\$3,237,500	Gloucester
Municipal	Newell Stadium Renovation	Rehabilitation of Newell Stadium athletic facility	\$3,800,000	Gloucester
Municipal	Police Station Court House Energy Upgrade	Energy retrofit of existing combined Police Station and District Courthouse. Installation of new heating plant, central air conditioning, doors, windows, ceiling panels. Rebuild entry to building for energy efficiency. Enclose garage for energy efficiency	\$3,000,000	Gloucester
Municipal	Addition and Renovation to the Gloucester Lyceum & Sawyer Free Library	Expansion of Gloucester Lyceum & Sawyer Free Library including needed repairs and renovations to the existing structures	\$18,210,500	Gloucester
Municipal	Gloucester High School Gym floor replacement	Remove and replace hazardous buckled floor	\$800,000	Gloucester
Municipal	Elevator Project	Upgrade/install elevator in three schools. Current elevators are antiquated and can no longer be repaired.	\$475,000	Gloucester
Municipal	Bleacher Replacement at O'Maley Middle School	Replace structurally unsafe bleachers with new structurally safe ADA accessible bleachers.	\$50,000	Gloucester
Municipal	ADA Upgrade	To make all buildings ADA accessible including but not limited to entry ways, bathrooms, etc.	\$3,000,000	Gloucester
Municipal	Paving Project	Pave entry ways and parking lots, fire lanes for eight existing schools	\$6,400,000	Gloucester
Municipal	Replacement of cafeteria tables – unsafe condition	Replace system wide cafeteria tables. Replacement parts no longer available – tables are hazardous	\$450,000	Gloucester
Municipal	Replace clocks, intercom, bells	Replace antiquated clock/ bell/intercom systems in 4 schools	\$350,000	Gloucester
Municipal	Fire Alarm upgrades – O'Maley and Fuller Schools: install fire doors	Upgrade antiquated fire alarm system and include the installation of fire doors	\$3,000,000	Gloucester
Municipal	System wide removal of asbestos floor tile and mastic retiling	Removal of all asbestos tile, mastic, retiling. Air quality reports, testing, clearance etc.	\$7,473,000	Gloucester
Municipal	System Wide roofing project	Re-roof all 8 school buildings system wide and rink	\$5,206,000	Gloucester

## Commonwealth of Massachusetts

### Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Exterior Lighting	Install energy efficient lighting in all K-5 schools for improved security and safety	\$3,450,000	Gloucester
Municipal	Window Replacements	Replace all current plexiglass and single pane window with fire code approved/energy efficient windows system.	\$2,250,000	Gloucester
Municipal	O'Maley Rink Upgrade/Replacement	Replacement of rotten boards, glass and antiquated bleachers	\$525,000	Gloucester
Municipal	Talbot Rink decessicant with heat exchange and lighting upgrade.	Install decessicant dehumidifier system and heat exchange/hot water tank, upgrade lighting to energy efficient lights.	\$475,000	Gloucester
Municipal	Gloucester High School hot water line and energy management system upgrade	To replace hot water line connecting 2 buildings and upgrade outdated energy management system, which will ensure efficient running of energy sources.	\$70,000	Gloucester
Municipal	School Heating and Univent Repair – Mechanical Systems	Upgrade heat and ventilation system. Repair/replace heating controls to regulate heat and reduce maintenance costs	\$15,369,576	Gloucester
Municipal	Town of Georgetown Public Safety Building Roof Replacement and Energy Conservation Project	The Town of Georgetown needs to replace the Roof of the Public Safety Building.	\$320,000	Georgetown
Municipal	Water Transmission Main Installation and Cast Iron Water Main Replacement	Projects were identified in the 2007 Drinking Water Infrastructure Needs Assessment (DWINSA) survey prepared for MassDEP and reviewed by USEPA.	\$1,325,000	Georgetown
Municipal	Storage Tank and Booster Station - Repair, Rehabilitation, and Controls Upgrade	Projects were identified in the 2007 Drinking Water Infrastructure Needs Assessment (DWINSA) survey prepared for MassDEP and reviewed by USEPA.	\$245,000	Georgetown
Municipal	Master (Water Supply) Meter Replacement		\$175,000	Georgetown
Municipal	Repair and Rehabilitate Operations Building and Storage Garage	Projects were identified in the 2007 Drinking Water Infrastructure Needs Assessment (DWINSA) survey prepared for MassDEP and reviewed by USEPA.	\$405,000	Georgetown
Municipal	Rehabilitate Existing Aging Water Supply Wells		\$1,610,000	Georgetown
Municipal	Aged Water Distribution Infrastructure Replacement (Hydrants, Valves, Services)		\$905,000	Georgetown
Municipal	Sulfate Stripping Facility	This Project is to construct a treatment facility to remove high levels of SULFATE from the Town's Municipal water supply.	\$955,000	Georgetown
Municipal	SOLAR Residuals Concentration Facility		\$125,000	Georgetown
Municipal	Elevated Water Storage Tank with Chlorination Station	This project is to construct a 1.5 Million Gallon Water Storage tank in an area of Georgetown that has seen substantial growth in recent years.	\$5,425,000	Georgetown
Municipal	Andover Street	Roadway Reconstruction	\$4,000,000	Georgetown
Municipal	Bailey Lane Bridge	Replace culvert that has been closed for at least 5 years	\$605,000	Georgetown
Municipal	New Highway Garage Roof	Replace existing roof and insulation with higher R-value	\$55,000	Georgetown
Municipal	North Street	Roadway reconstruction	\$3,000,000	Georgetown
Municipal	Parish Road Culvert	Replace Culvert	\$230,000	Georgetown
Municipal	Penn Brook Culvert	Replace existing culvert	\$280,000	Georgetown
Municipal	Sidewalk Improvements	Replace 15 miles of existing bituminous sidewalks	\$0	Georgetown
Municipal	East Main Street (133) Tenney Street Intersection	Safety improvements	\$350,000	Georgetown
Municipal	Increasing School Emergency Capacity for Community Use (ISECCU)	Build the capacity of the 7 Gateway schools to function as an emergency resource in an extended power outage	\$750,000	Gateway Regional School District (Blandford, Chester, Gardner)
Municipal	SENIOR CENTER SPRINKLER SYSTEM	Install a wet sprinkler system in the senior center to serve all three floors. Sprinkler system to be installed per building code.	\$225,000	Gardner

## Commonwealth of Massachusetts

### Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Reconstruction of Elm Street in Gardner	Reconstruction of Drainage, Sidewalks, Curbing and Road surface to Elm Street in Gardner	\$6,000,000	Gardner
Municipal	Upgrade of Water Pump Station on James Street in Gardner	Upgrade of Water Pump Station on James Street in Gardner	\$1,300,000	Gardner
Municipal	Replacement of Sewer Main on Parker Street in Gardner	Replacing approximately 2,650 feet of sewer main on Parker Street in the City of Gardner	\$1,000,000	Gardner
Municipal	Paving of various Streets in Gardner	Resurfacing approximately 11 miles of various Streets in the City of Gardner	\$5,500,000	Gardner
Municipal	Replacement of Sewer Main on Pearl Street in Gardner	Replacing approximately 7,200 feet of sewer main on Pearl Street in the City of Gardner	\$2,000,000	Gardner
Municipal	Replacement of Water Mains on various Streets in Gardner	Replacing of approximately 7 miles of water mains in the City of Gardner	\$11,000,000	Gardner
Municipal	Redevelopment of S.Bent Mill Complex	Demolition of derelict mill buildings to facilitate redevelopment of the City-owned site to accommodate a commercial food-waste composting facility	\$900,000	Gardner
Municipal	Wayside Pond Dam Reconstruction	Reconstruct a flood control dam on the Mahoney Brook. This dam is considered a significant hazard potential dam by DCR and is classified as being in poor condition with major deficiencies	\$567,000	Gardner
Municipal	Gardner Municipal Buildings Energy Improvements	Perform recommendations of ECIP Energy Audits including Install High Efficiency Fluorescent Lighting Possible funding from ECIP	\$179,220	Gardner
Municipal	PARKER STREET CONSTRUCTION	Install new granite curbing, concrete sidewalks and thermo-plastic road markings on Parker Street, between Nichols and Jean Street.	\$325,000	Gardner
Municipal	PINE STREET IMPROVEMENT PROJECT – PHASE III (CROSS TO CENTRAL STREET)	New concrete sidewalks, granite curbing and paving plus curb cut to support conversion of abandoned mill building into 78-unit, 100% affordable, assisted living facility (ALF)	\$400,000	Gardner
Private Development - Traditional Infrastructure (unreviewed)	Heywood Wakefield 3	The Project will convert a vacant mill building in Gardner into a 78-unit, 100% affordable, assisted living facility serving the housing and daily living needs of low income frail seniors. The facility will be constructed in a portion of the historic Heywood Wakefield furniture manufacturing facility. Two adjacent sections of this mill complex have been successfully converted into 171 units of elderly housing and 175 units of mixed income apartments. The Project has been awarded a \$9,950,000 HUD Grant. It will combine	\$3,800,000	Gardner
Municipal	Senior Center Energy Savings Project	Retrofit the existing 2-storey Senior Center with new propane gas, hot air furnaces that provide 90% efficiency rating, and includes A/C	\$18,500	Freetown
Municipal	Rehabilitate the Elm Street (Route 79) Bridge over the Assonet River		\$0	Freetown
Municipal	South Main Street (Route 79) Roadway Reconstruction		\$0	Freetown
Municipal	Elm Street Bridge Replacement over the Assonet River		\$0	Freetown
Municipal	Freetown Library Project	Repair the roof to the Freetown Public Library	\$35,000	Freetown
Municipal	Elm St. Bridge Project	Elm St. Bridge [Rte 79] is a deteriorated bridge that is currently rated as legal load limited, and this project would restore the bridge to accept school buses and heavy trucks.	\$1,200,000	Freetown
Municipal	South main Street Roadway Improvements	Widen and resurface a portion of South Main St, to provide for better lane delineation and to provide for sidewalks and a bikeway	\$2,000,000	Freetown
Municipal	Freetown South Main Street Sewer Project	Install sewer infrastructure for 1 ½ miles of area designated for industrial and commercial activity.	\$2,359,000	Freetown
Municipal	Energy Conservation Opportunities for Freetown	Substantially reduce energy cost by reducing lighting maintenance cost	\$21,522	Freetown
Municipal	Energy Conservation	Substantially reduce energy usage cost and reduce NOX and SO2	\$21,522	Freetown
Municipal	Construction of Franklin Regional Transit Center		\$0	Franklin Regional Transit Authority / Franklin Regional
Municipal	Restoration of the Towns Historic Museum	Renovating old senior center into a historic museum	\$400,000	Franklin Project #1
Municipal	Renovations to three public schools	Three schools that are in need of improvements including heating, wiring, security, painting, installation of an elevator, etc. The schools are the Parmenter, Kennedy school and Remington	\$1,725,000	Franklin– Project
Municipal	Franklin County Weatherization and Energy Efficiency Program		\$0	Franklin County Regional Housing and Redevelopment

# Commonwealth of Massachusetts

## Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Wachusett Water Main Replacement and Road Reconstruction	Replacement of 3400 feet of existing out dated 6-inch cast iron water line and all associated apparatus with new 8-inch ductile iron pipe. Reconstruction of roadway to improve travel surface	\$900,000	Franklin
Municipal	Chestnut Street Water Main Replacement and Road Reconstruction	Replacement of 1500 feet of existing out dated 8-inch AC water line and all associated apparatus with new 12-inch ductile iron pipe. Reconstruction of roadway to improve travel surface, drainage improvements	\$200,000	Franklin
Municipal	Emmons and Main Street Water Main Replacement	Replacement of 5000 feet of existing out dated 8-inch cast iron water line and all associated apparatus with new 12-inch ductile iron pipe, reconstruction of roadway	\$1,100,000	Franklin
Municipal	Paint Forge Hill Water Tank	Strip all interior and exterior paint and re-paint all areas. Work will include a plan for taking tank "off line" and still being able to provide potable and fire protection service to an area of Town that is heavily commercial and industrial based	\$900,000	Franklin
Municipal	Town Center Sanitary Sewer System Rehabilitation	Rehabilitation of approximately 20,000 linear feet of sanitary sewer pipeline and associated manholes	\$2,000,000	Franklin
Municipal	Pleasant Street Reconstruction	Complete reconstruction of roadway to improve travel surface, traffic calming, sidewalks, roadway marking, bike lanes, and signage improvements to increase pedestrian safety	\$8,100,000	Franklin
Municipal	Maynard Building Exterior Roof and Wall Repairs	The existing slate roof is leaking causing severe damage to the interior of the building. The walls are also admitting water into the building. The Town would like to renovate the building...	\$1,020,000	Framingham,
Municipal	HVAC Upgrades – Framingham Public Schools	Installation of new digital direct controls and air handler roof top units. No additional state or federal funds are being considered outside of the potential federal stimulus.	\$1,400,000	Framingham Public Schools
Municipal	Framingham Public Schools Domestic Boiler & Water Piping Replacement	Domestic boiler and water piping replacement. No additional state or federal funds outside of the potential federal stimulus are being considered at this time.	\$90,000	Framingham Public Schools
Municipal	Framingham Public Schools Fire Alarm Upgrade	Installation of magnetic door holders tied to fire alarm system. No additional state or federal funds outside of the potential federal stimulus are under consideration at this time.	\$130,000	Framingham Public Schools
Municipal	Framingham Public Schools – Fuller Middle School Brick Wall Replacement	Remove and replace deteriorated brick wall section of Fuller Middle School. No state or federal funds outside of the potential federal stimulus are being considered at this time.	\$60,000	Framingham Public Schools
Municipal	Framingham Public Schools Kitchen Upgrades	Replacement of outdated kitchen equipment at several schools. No additional state or federal funds outside of the potential federal stimulus are being considered at this time.	\$150,000	Framingham Public Schools
Municipal	Framingham Public Schools Underground Fuel Storage Tank Removals	Removal of three underground fuel storage tanks at three different school locations. The project is not being considered for state or federal funds outside of the potential federal stimulus.	\$560,000	Framingham Public Schools
Municipal	Integrated Phone & Security System Infrastructure Upgrades – All Schools	Data, voice and security camera installations and programming. The project involves converting to internet protocol (IP) for the phone, which involves network infrastructure upgrades.	\$1,500,000	Framingham Public Schools
Municipal	Framingham Public Schools Technology Upgrades	Upgrade student and staff information systems, update website, email, archiving and replace outdated hardware and software throughout the district. Local Capital Funding.	\$1,000,000	Framingham Public Schools
Municipal	Framingham Public Schools Parking Lot & Sidewalk Upgrades	Removal and replacement of existing deteriorated driveways, parking lots, sidewalks, granite curbs and handicap ramps in compliance with ADA requirements.	\$2,400,000	Framingham Public Schools
Municipal	Memorial Building Ceiling Insulation	The existing building is not insulated at all. An analysis of the payback period of going from 0 to R-38 insulation indicates that the payback period is less than twelve (12) months.	\$54,000	Framingham
Municipal	Memorial Building window replacement.	The Memorial Building located in Framingham was originally built in 1926. The existing windows are single glazed and are non-compliant with the current energy code.	\$400,000	Framingham
Municipal	Digitizing Building Permit Information System	The project will involve scanning and recording by means of address data base system to provide complete access to property construction information...	\$260,000	Framingham
Municipal	Network Infrastructure Improvements	To install a Town-owned fiber optic network to provide capacity for growth and redundancy; also to replace network equipment for critical communications systems...	\$1,950,000	Framingham
Municipal	Athenaeum Historical Restoration and Handicap Accessibility Project	This project will help restore the Athenaeum, an historic building that has played a critical role in the history of Framingham.	\$118,000	Framingham
Municipal	Barbieri Road Water Main Replacement		\$1,000,000	Framingham
Municipal	Beaver Dam Brook Drainage Improvements	Upgrade Waverley Street Drain, Upgrade Irving Street Drain, Upgrade Guild Road Drain, Replace 160 catch basins, Upgrade Irving Street Drain with Vegetated Swale, Replace high...	\$2,200,000	Framingham
Municipal	Public Water Treatment Facility at Birch Road	This project will include the construction of a facility to treat 4.3 million gallons per day of groundwater from the Birch Road well site.	\$43,900,000	Framingham
Municipal	Bowditch Athletic Complex Renovations and Improvements	The project consists of demolition and reconstruction of structurally failing concrete grandstands and construction of auxiliary facilities to support varied recreational events...	\$5,500,000	Framingham
Municipal	Central Street Siphon		\$8,000,000	Framingham
Municipal	Concord Street Water/Sewer Main Replacement		\$5,000,000	Framingham
Municipal	Cove Avenue Sewer Replacement		\$1,953,000	Framingham
Municipal	Cushing Memorial Park	The Town of Framingham has been working aggressively and collaborating with the State to convert the former Cushing State Hospital property into a new, passive park of regional...	\$1,500,000	Framingham
Municipal	Modular Facility at Western Ave.	Installation of modular building of office space for engineering staff overseeing design and construction of the Public Works Departments Capital Improvement Program	\$500,000	Framingham

Commonwealth of Massachusetts

Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	East Framingham Sewer Improvement Project (EFSIP)-North Concord St. Water Main and Rail	This project includes constructing new gravity sewer on Concord Street from Cochituate Road to Arthur Street and within the former rail right-of-way from Speen St to School St.	\$46,500,000	Framingham
Municipal	Eastleigh Farms Water System Improvements	This project involves the construction of a parallel water main 450' in length, and installation of a heated enclosure which will house a water meter and backflow prevention device.	\$200,000	Framingham
Municipal	Edmunds Road Water Main Improvements	This project involves the installation of approximately 1,500 feet of water main to provide for a looped system which will also improve water quality, volume of flow, and fire fighting protection.	\$2,000,000	Framingham
Municipal	Farm Pond Drainage Improvements	Upgrade Fountain Street drain and outfall, Replace 152 catch basins, Replace high risk drain components, Clean and perform CCTV inspection of drain line for high sediment lines	\$1,100,000	Framingham
Municipal	Farm Pond Sewer System Interceptor	The Farm Pond Sewer Interceptor, which handles wastewater flows for approximately one half of the Town of Framingham, has experienced severe damage due to hydrogen sulfide corrosion.	\$1,100,000	Framingham
Municipal	Goodnow Water Pump Station	As part of the Town's Water Master Plan the Goodnow Lane Pump Station was inspected and it was revealed that the pumps are at the end of their useful life and need to be replaced.	\$1,500,000	Framingham
Municipal	Goodnow Water Storage Tank Rehabilitation	Restore the interior lining of the tank, replace exterior lead paint on the structural supports, and upgrade instrumentation and control functions of the demand response system.	\$900,000	Framingham
Municipal	Grove Street Pump Station	Rehabilitation of this station is critical and will include replacement of pumps and drives with harmonic variable speed drives, which will improve the energy efficiency of this facility...	\$2,932,300	Framingham
Municipal	Lakeview Pump Station/Chateau LaSalle Water Main Replacement	This project will eliminate the need for the pump station through the construction of a new gravity sewer from the existing pumping station to a nearby sewer.	\$2,700,000	Framingham
Municipal	Framingham Public Library Parking Garage Renovations	Remediation of cracking and spawling concrete resulting in exposed re-bar must be undertaken to prevent further deterioration of this essential community facility.	\$460,000	Framingham
Municipal	Loring Arena Improvements	The Loring Arena, a Town-owned ice skating complex, is in desperate need of renovation.	\$3,500,000	Framingham
Municipal	Replacement of Memorial Building Front Steps including end walls.	This project will remove the existing cast-in-place concrete steps and replace them with pre-cast concrete steps. The project will eliminate all hazards.	\$350,000	Framingham
Municipal	Memorial Building Transitional Office Space	Significant renovations to the transitional office space are required in order to accommodate staff while Memorial Building is renovated.	\$1,400	Framingham
Municipal	Michaud, Ransom & Cypress Sewer Pump Stations	Three existing wastewater pumping stations and their associated force mains will be replaced as will approximately 2,000 feet of gravity sewer.	\$8,000,000	Framingham
Municipal	Framingham Park and Recreation Maintenance Facility	This project involves the replacement of a makeshift maintenance and operations facility that will be razed due to structural failure.	\$2,500,000	Framingham
Municipal	Pearl Harbor Drive Improvements	The project consists of replacing an existing 6-inch cast iron water main located in private lands off Pearl Harbor Road and reconstructing portions of the drainage system.	\$1,000,000	Framingham
Municipal	Pershing Ave. Water Main Replacement		\$500,000	Framingham
Municipal	Prospect Street Improvements		\$7,000,000	Framingham
Municipal	Public Works Building Upgrade and Renovation	The current Public Works facility no longer has the capacity to be an effective operations, engineering and administrative center.	\$17,000,000	Framingham
Municipal	Recycling Facility Improvements –(Resource Recovery Center) Former MSW incinerator currently	Replacement of the roof membrane and deteriorated steel decking of the upper roof section over the refuse pit, roof membrane replacement of the lower section over the tipping floor.	\$600,000	Framingham
Municipal	State Street Improvements	This project consists of the replacement of approximately 640 feet of sewer originally installed during the 1920's and 1300 feet of new water main originally installed in 1895.	\$2,450,000	Framingham
Municipal	Wireless Broadband Mesh Network – Intelligent Transportation System		\$0	Framingham
Municipal	Various Stormwater Drainage Work	Reconstruct the drainage system at McAdams Road to increase capacity and straighten flow path Reconstruct the drainage outfall at Carter Drive to restore eroded hillside...	\$400,000	Framingham
Municipal	Water Street Water Main Replacement	Replacement of 2.4 miles of 12-inch diameter cast iron water main that is aged to three times design life expectancy with new ductile iron pipe.	\$8,522,000	Framingham
Municipal	West Local Water Street Sewer/Vaillencourt	This project will allow for the removal from service of one of Framingham's current wastewater pump stations, as well as provide re-routing of sewers in the local area...	\$4,000,000	Framingham
Municipal	WJ Heights Pump Station	This project consists of the replacement of a water pumping station which has only a single 5HP domestic pump.	\$840,000	Framingham
Municipal	Bishop Street Traffic and Roadway Improvements		\$0	Framingham
Municipal	Bridge Improvements		\$0	Framingham
Municipal	Downtown Traffic and Streetscape Improvements	This project includes traffic and streetscape improvements in the downtown area. The work includes signaling intersections, sidewalk and accessibility improvements, period lighting...	\$3,000,000	Framingham
Municipal	Street Lighting - LED	This project will provide for the replacement of inefficient traditional street lights with highly energy efficient LED Street lights.	\$4,000,000	Framingham
Municipal	Local Roadway Improvements	Resurfacing and or rehabilitation of roadways including storm drains, pavement markings, curbing repairs/replacements, ADA sidewalk improvements and regulatory/directional signage.	\$11,500,000	Framingham
Municipal	Saxonville Intersection Improvements	The work would include installing fully actuated traffic signals, pedestrian signals, curbing and sidewalks, pavement markings and a mill and overlay of the existing roadway surface.	\$1,800,000	Framingham
Municipal	Public Water Treatment Facility at Birch Road	Construct energy efficient water treatment plant	\$4,390,000	Framingham
Municipal	Prospect Street Improvements	Eliminate I & I	\$7,000,000	Framingham
Municipal	Cove Ave Sewer Replacement	Eliminate I & I	\$1,953,000	Framingham
Municipal	West Local Water St Sewer/Vaillencourt	Eliminate sewer pump station	\$4,000,000	Framingham

# Commonwealth of Massachusetts

## Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	East Framingham Sewer Improvement Project (EFSIP)-North Concord St. Water Main and Rail Trail Development	Eliminate 3 sewer pump stations	\$45,000,000	Framingham
Municipal	Lakeview Pump Station/Chateau LaSalle Water Main Repl.	Eliminate sewer pump station	\$2,700,000	Framingham
Municipal	Concord Street Water/Sewer Main Replacement	Eliminate I & I	\$5,000,000	Framingham
Municipal	Central Street Siphon	Eliminate I & I	\$8,000,000	Framingham
Municipal	Phase 1 Ceiling insallation	Install R-38 insulation in the Memorial Building where there was no insulation previously	\$11,600	Framingham
Municipal	New Window Installation Project	Install replacement wood windows sashes in renovated existing wood frames.	\$400,000	Framingham
Private Development - Traditional Infrastructure (unreviewed)	Great Brook Valley Community Health Center	New satellite site	\$18,720,000	Framingham
Private Development - Traditional Infrastructure (unreviewed)	Framingham infrastructure improvements	For a water and waste water infrastructure improvements for Genzyme's cell culture manufacturing facility and purification plant containing office and lab facilities in the town of Framingham.	\$12,500,000	Framingham
Private Development - Traditional Infrastructure (unreviewed)	Business Park	sewer/wastewater upgrades at the Framingham Business Park	\$10,000,000	Framingham
Municipal	North Street Reconstruction	North Street Reconstruction. Rehabilitation and reconstruction of North Street (9,000+/- l.f.), which is a minor collector roadway that connects Route 1 with Route 140 within the Town of Foxborough.	\$4,500,000	Foxborough
Municipal	Payson Road Athletic Complex	Outdoor Recreation Complex. Project involves the construction of Phase 2 of the municipal recreation component of the redevelopment of the former Foxborough State Hospital.	\$2,000,000	Foxborough
Municipal	Interceptor Sewer Expansion Project	The scope of the project is to augment existing sewers and construct new infrastructure in a significant portion of the identified CWMP Need Areas, includes two new wastewater pumping stations	\$8,000,000	Foxborough
Municipal	TV Inspection and Cleaning of Critical Needs Area Sewers	The scope of the project is to clean and inspect 6-8-10-15 inch sewers in the critical needs area to identify sources of I/I in order to prepare plans and specifications for corrective repairs.	\$76,000	Foxborough
Private Development - Traditional Infrastructure (unreviewed)	Economic Dev.Overlay District - MBTA	Acquire ROW and construct improvements to offer daily commuter rail service from the existing Foxborough station (operational on event-day only)	\$51,800,000	Foxborough
Municipal	Integrated Software and Hardware I	Purchase software and hardware for Town Officials to include Municipal software tying together all departments and server to replace 4 free standing programs.	\$60,000	Florida
Municipal	Highway Department Equipment I	Replace 2 necessary highway equipment units - Replace 1979 AWD plow and wing and sander - replace 1972 AWD Road Grader w/cab 150hp 13' blade minimum	\$360,000	Florida
Municipal	River Road Reconstruction I	Reconstruction of approx 1 mile of roadway on River Road. This project is currently on the TIP with a start date in 2009	\$6,000,000	Florida
Municipal	Resurface Bituminous Roads I	Receive hotmix asphalt on approx 30 miles of existing bituminous roads and 2.7 miles of existing gravel roads (road resurfacing being initiated bmp with chapter 90 funds)	\$3,500,000	Florida
Municipal	Bridge Repairs I	Remove and replace guardrails, deck and steel girders on South County Road over cold River (Bridge replacement has exact footprint as existing bridge)	\$500,000	Florida
Municipal	Guardrail replacement I	Remove and replace damaged guardrails on roads town wide.	\$68,000	Florida
Municipal	Gabriel Abbott Memorial School Repairs I	Study and Conceptual design services for correction of water infiltration, building heating, ventilation electrical systems, roof and foundation repairs.	\$36,000	Florida
Municipal	Gabriel Abbott Memorial School Generator I	Purchase and install propane fueled generator at school to allow use of school as emergency shelter and backup for heat and electricity.	\$20,000	Florida
Municipal	Solar Heat Panels I	Install Solar panels at school garage, senior center, fire house, town hall/garage that produce warm air blown into building to help reduce oil consumption.	\$69,000	Florida
Municipal	Fire House Heating System I	Remove existing oil fired furnace and replace with 96% efficiency oil fired boiler with baseboard and aqua unit heaters (120,000 btu's)	\$15,000	Florida
Municipal	Gabriel Abbott Memorial School Gym Heating I	Installation of Tow Aqua Heating Units in Gym.	\$6,500	Florida
Municipal	Gabriel Abbott Memorial School Foundation Drainage I	Excavate, remove debris as needed, coat, seal and insulate foundation. Install wash stone and drainpipe, backfill with gravel and replace surface blacktop to stop flooding.	\$160,000	Florida
Municipal	Gabriel Abbott Memorial School Roof Replacement I	Remove and replace shingled roof, remove and replace sheathing as needed, install flashing in valleys and chimney areas, to include siding and roofing on cupola.	\$90,000	Florida
Municipal	Waste Management Facility Rehab I	Upgrade compactor hydraulic equipment to meet DEP requirements. Compactor is used 16 hours a week by approx 400 households, school, senior center and other municipal facilities	\$60,000	Florida
Municipal	Town Hall Window Replacement I	Remove and replace windows and exterior doors at town hall with energy efficient low E glass to meet Mass Building Code	\$15,000	Florida

Commonwealth of Massachusetts

Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Fitchburg –Mid State Fire Mutual Aid Association Radio Tower	Replace existing 45 foot radio tower with new 100 foot tower	\$122,259	Fitchburg on behalf of MA Fire District 8 and Mid-State Fire Mutual Aid Association
Municipal	Rebuild Retaining Walls	Remove and replace stone retaining walls that are in poor condition on Goddard Street, Mechanic Street and in Laurel Hill Cemetery to eliminate potential safety hazards	\$350,000	Fitchburg
Municipal	Fitchburg Public Schools ("FPS") energy efficient lighting installation	Complete the installation of energy efficient lights (and ballasts) throughout the district	\$120,000	Fitchburg
Municipal	Fitchburg Public Schools ("FPS") Information Technology ("IT") Network Restoration/Upgrade	Upgrade its IT network to offer state of the art educational content delivery and improve network capacity/efficiency	\$168,615	Fitchburg
Municipal	Crocker Elementary School Heating System Replacement	The Crocker Elementary School System has failed, and the Fitchburg Public School District has been approved by the Massachusetts School Building Authority to install new energy efficient gas boilers (and related electro-mechanical systems), roof, and wind	\$3,500,000	Fitchburg
Municipal	Fitchburg Public Schools ("FPS") Electrical system upgrade to 21st century level	Upgrade the electrical systems in its elementary and middle schools to support the information technology equipment and basic building infrastructure systems (refrigeration and heating)	\$5,000,000	Fitchburg
Municipal	Fitchburg Public Schools ("FPS") Academy Middle School Roof Replacement	Replace the roof at this Middle School as the roof is leaking in many places, and numerous attempts to patch the leaks have proven unsuccessful. Water damage is causing structural damage.	\$500,000	Fitchburg
Municipal	Fitchburg Public Schools ("FPS") BF Brown Underground Storage Tank Removal	Replace the underground storage tank formerly containing fuel oil at this middle school. This school installed a new energy efficient gas fired boiler two years ago.	\$50,000	Fitchburg
Municipal	Fitchburg Public Schools ("FPS") Emergency Boiler Repairs	Make emergency boiler repairs as a result of aged/obsolete equipment and deferred maintenance	\$20,000	Fitchburg
Municipal	Fitchburg Public Schools ("FPS") Coil Replacement	Replace a heating coil at the High School to avoid pipes bursting in uninsulated areas	\$30,000	Fitchburg
Municipal	Fitchburg Public Schools ("FPS") Goodrich Alternative High School Lift and extending life improvements	Install a handicapped lift at this school to comply with ADA requirements and comply with deficiencies noted in a Coordinated Program Review conducted by the DESE. In addition, Goodrich requires several building improvements to extend its useful life.	\$250,000	Fitchburg
Municipal	Fitchburg Public Schools ("FPS") Memorial Middle School boiler replacement (energy efficiency)	Replace the two (2) oil fired boilers (and related infrastructure) at this Middle School as the boilers have deteriorated to the point of imminent system failure and the insurance company will issue a certificate for these boilers.	\$1,600,000	Fitchburg
Municipal	Fitchburg Public Schools ("FPS") Memorial Middle School Roof replacement and ADA compliance	Replace the roof at this Middle School as the roof is leaking in many places, and numerous attempts to patch the leaks has proven unsuccessful.	\$800,000	Fitchburg
Municipal	Fitchburg Public Schools ("FPS") modular classrooms	Add modular classrooms to certain schools within the District as a lower cost alternative to expand certain individual school's capacity	\$900,000	Fitchburg
Municipal	Fitchburg Public Schools ("FPS") Reingold Elementary School boiler replacement (energy efficiency)	Replace the two (2) oil fired boilers (and related infrastructure) at this Elementary School as the boilers have deteriorated to the point of imminent system failure and the insurance company will NOT issue a certificate for these boilers.	\$1,600,000	Fitchburg
Municipal	Fitchburg Public Schools ("FPS") South Street Elementary School boiler burner replacement (energy efficiency)	Replace the #4 oil fired burner with one with Natural Gas capability at this Elementary School as the burner is inefficient and the district has been advised by the DPH to replace if possible	\$54,689	Fitchburg
Municipal	Fitchburg Public Schools ("FPS") South Street Elementary School West Building Roof Replacement	Replace the roof at this Elementary School as the roof is leaking in many places, and numerous attempts to patch the leaks has proven unsuccessful. Water damage is causing structural damage.	\$700,000	Fitchburg
Municipal	Fitchburg Public Schools ("FPS") Academy Middle School Plumbing/Piping Upgrade	Upgrade the existing original plumbing and piping systems in the Middle School. Original piping was installed in 1937. Replacement would also bring existing systems up to modern code requirements.	\$1,000,000	Fitchburg
Municipal	Fitchburg Public Schools ("FPS") B.F. Brown School Elevator Installation-Overall ADA Compliance	Install an elevator in the Brown School and bring the building into compliance with ADA requirements.	\$3,000,000	Fitchburg
Municipal	Fitchburg Public Schools ("FPS") B.F. Brown School Plumbing/Piping Upgrade	Upgrade the existing original plumbing and piping systems in the Middle School. Original piping was installed in 1928. Replacement would also bring existing systems up to modern code requirements.	\$1,000,000	Fitchburg
Municipal	Fitchburg Public Schools ("FPS") - District Wide Masonry	Repair exterior masonry walls and chimneys district wide.	\$100,000	Fitchburg
Municipal	Rindge Road Wind Turbine Installation	Erection of a 1.5 MW Wind Turbine at a previously identified site near the Fitchburg Water treatment Plant behind 1200 Rindge Road	\$4,770,000	Fitchburg
Municipal	Airport Road Industrial Park Access Road and Site Improvements	60 acres of city-owned land will be developed into an Industrial Park near the city's airport, including an access road and all necessary utilities	\$3,500,000	Fitchburg
Municipal	Replace Sewer Mains on Benson Street	The two sewer mains on Benson Street need to be replaced with a single 18" main for a distance of 1700'	\$650,000	Fitchburg

# Commonwealth of Massachusetts

## Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Central Steam Plant Improvements	Removal of metal storage silos and metal-attached buildings from a City-owned abandoned industrial structure, securing the building penetrations and other site improvements to prevent continued unauthorized access.	\$300,000	Fitchburg
Municipal	Chemically Enhanced Primary Treatment	Construction of building, tanks and appurtenances to provide chemicals addition to primary treatment system to significantly enhance project	\$1,500,000	Fitchburg
Municipal	City Telephony Infrastructure Modernization	Replace city Centrex line infrastructure with modern VoIP telephone system	\$80,000	Fitchburg
Municipal	City of Fitchburg Communications and Network Infrastructure Project	Install new radio communications tower at old Quarry location. Install microwave PTP radio/computer network system between public safety radio transmitter and receiver sites and municipal buildings. Install radio equipment.	\$936,888	Fitchburg
Municipal	Historic Restoration and Safety Improvements at Crocker Field	Replace grandstand roof of Crocker Field; replace the visitors' bleachers and complete concrete and wrought iron perimeter fence	\$600,000	Fitchburg
Municipal	Elm Street Sidewalk Improvement Project	Replacement of badly deteriorated concrete sidewalk and resetting of granite curbing	\$480,000	Fitchburg
Municipal	City of Fitchburg Fiber Build out	Continuation of fiber network. It will link many of our mission critical departments	\$112,576	Fitchburg
Municipal	Pedestrian Safety Improvements along John Fitch Highway for Fitchburg State College Students.	Construct pavement and guardrail	\$30,000	Fitchburg
Municipal	Replace Sewer Main and Manholes on John Fitch Highway	Improve sewer main on John Fitch Highway and replace 26 sewer manholes were constructed without proper bases	\$3,000,000	Fitchburg
Municipal	Replace Sewer Main at Kimball Street Bridge	Replace the Kimball Street bridge. The existing combined sewer that heads from the bridge site to the Nashua River needs to be separated and removed from the river	\$300,000	Fitchburg
Municipal	Replace Roof at Mausoleum at Forest Hill Cemetery	Existing roof at historic mausoleum is leaking, causing water damage to the building interior. Roofing and roof vents need to be replaced- will use rubber roof	\$150,000	Fitchburg
Municipal	Business District Parking Deck Rehabilitation	Remove 2" of pavement from parking deck, provide 2.5" pavement overlay, and seal	\$100,000	Fitchburg
Municipal	Putnam Place Access Improvements	Removal of two underground storage tanks, installation of loading docks, and creation of an entrance for trucks from Boulder Drive to service Building 4 in Putnam Place	\$540,000	Fitchburg
Municipal	Repave Rindge Road	Rindge Road, a key road into the city from points north is in poor condition and needs to be repaved from Route 31 to the city line	\$600,000	Fitchburg
Municipal	River Street Sidewalk Improvements	New concrete sidewalks, granite curbing, and street trees on both sides of River Street between Broad Street and the Cleghorn Rotary, a total of 2,500 feet.	\$500,000	Fitchburg
Municipal	Replace DPW Salt Shed	The salt shed in the DPW yard has inadequate height clearance for the equipment that is used to load road salt into trucks, and the side walls are buckling, exposing salt to the elements	\$500,000	Fitchburg
Municipal	Shea Street Drainage	Install 30" HDPE drainage pipe adjacent to existing 30" concrete pipe for distance of 300' to alleviate continuing drainage problems in residential area	\$150,000	Fitchburg
Municipal	Steamline Trail Retaining Wall	Installation of a 250 foot long retaining wall along a portion of the city's Steamline Trail where it abuts the Pan-Am Railroad property.	\$250,000	Fitchburg
Municipal	Retrofit Regional Drinking Water Clarifiers	Retrofit four drinking water clarifiers at our Regional Filtration Plant	\$1,100,000	Fitchburg
Municipal	Water Main Replacement	Project will replace 4,020 linear feet of existing water main that has been identified as being in poor to critical condition	\$492,220	Fitchburg
Municipal	Rindge Rd Wind Turbine	Installation of 1.5 MW wind turbine	\$4,768,348	Fitchburg
Private Development - Traditional Infrastructure (unreviewed)	Community Health Connections	CHC's proposes to purchase, renovate and expand its clinical facility located in Fitchburg MA.	\$11,000,000	Fitchburg
Municipal	Aquifer Storage Replenishment		\$700,000	Falmouth
Municipal	Davis Straits Sewers		\$4,000,000	Falmouth
Municipal	Rehabilitation of Major Sewer Force Main		\$1,500,000	Falmouth
Municipal	Odor Control for Major Sewer Lift Station		\$1,000,000	Falmouth

## Commonwealth of Massachusetts

### Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Scranton Ave Sewers		\$600,000	Falmouth
Municipal	Rehabilitation of Sewers in Village of Woods Hole		\$1,500,000	Falmouth
Municipal	Upgrade of HVAC Systems, Boilers and Electrical Controls at Various Municipal Buildings including, Town Hall, Recreation Center, Morse Pond School.	Deficiencies in the operation of the systems in the buildings	\$1,500,000	Falmouth
Municipal	Restoration of Chapoquoit Beach	Major beach nourishment project is necessary to restore recreational property	\$1,500,000	Falmouth
Municipal	Dune Wall at Old Silver Beach	Approximately 450 feet of dune retaining wall is in danger of collapsing at Old Silver Beach	\$50,000	Falmouth
Municipal	Septic System at Old Silver Beach (Reserved)	Replace septic system at Old Silver Beach	\$25,000	Falmouth
Municipal	Emergency Access/ Safety Improvements to Bikeway – road intersections	Rebuild existing intersections of Shining Sea Bikeway and town roads to permit entry of emergency vehicles and reduce hazards to bikeway users	\$60,000	Falmouth
Municipal	Safety Repairs to Shining Sea Bikeway	Repair fractured road surface on Shining Sea Bikeway, place root barriers to prevent further deterioration	\$5,500	Falmouth
Municipal	Renovation and Restoration of Historic Poor House	Renovation of Historic Poor House for municipal use	\$700,000	Falmouth
Municipal	New Falmouth Senior Center	Approximately 20,000 square foot Municipal Senior Center	\$10,000,000	Falmouth
Municipal	Ellen T Mitchell –Surf Drive Bathhouse renovation	Renovate and repair existing bathhouse located at Surf Drive Beach in Falmouth	\$805,000	Falmouth
Municipal	W Falmouth Sewerage System		\$30,000,000	Falmouth
Municipal	1.65 MW Wind Turbine at Wastewater Treatment Facility	Install 1.65 MGW Wind Turbine	\$5,000,000	Falmouth

Municipal	PCE Pipe Replacement	Replacement of Tetrachloroethylene and Vinyl-Lined Water Mains. This project will eliminate the leaching of a known carcinogen into the drinking water of Duxbury.	\$2,562,560	Duxbury Water Department
Municipal	Millbrook Equipment Storage Facility	Construction of 7,500 s.f. prefabricated steel equipment storage structure and renovation of an existing building to include bathroom facilities and septic system.	\$825,000	Duxbury Water Department
Municipal	RENOVATIONS TO THE PERCY WALKER POOL	Renovation and minor additions for the Town of Duxbury Swimming Pool building, a building first constructed in 1975	\$2,130,000	Duxbury
Municipal	Duxbury Public Safety Headquarters	The project is a new 31,000 square foot combined police and fire department facility. It is a basic, functional two storey masonry building.	\$14,275,000	Duxbury
Municipal	Turf Fields	The installation of artificial turf fields at high school and middle school. . This project corrects longstanding drainage and field condition issues.	\$1,500,000	Duxbury
Municipal	Water Storage Tank	Install an approximately 400,000 gallon water storage tank to service the town of Dunstable	\$1,000,000	Dunstable
Municipal	Water main replacement	The Dunstable Water Department would like to replace 2,000 feet of 4" asbestos water main on Pleasant Street with 12" ductile iron	\$345,000	Dunstable
Municipal	Environmentally Sound Storage Facility for Roadway De-icing Chemicals	Construct storage facility for roadway de-icing chemicals, retaining wall/foundation and site/prep work. Facility to be 50' x 72' high arch gambrel	\$250,000	Dunstable
Municipal	Dunstable Fire Department - firehouse upgrade	Repair/replace one wall in firehouse as well as replace 4 windows	\$13,000	Dunstable
Municipal	Forest St. @ North Tributary of Bridge Meadow Brook	Repair headwall collapse during ice storm 12/11/08	\$41,000	Dunstable
Municipal	Main St. Bridge @ Salmon Brook (MHD D-13-001)	Replace existing bridge, guardrail and wing walls	\$235,000	Dunstable
Municipal	Main St. retaining wall holding up Rt. 113 (Main St.)	Replace/rehab failing retaining wall located under and supporting Rt. 113 (Main St.)	\$250,000	Dunstable
Municipal	Mill St. @ Joint Grass Brook	Head and wing wall collapse during ice storm 12/11/08	\$60,720	Dunstable
Municipal	River St. @ Unkety Brook	Head wall washout from ice storm 12/11/08	\$53,350	Dunstable
Municipal	Pearle L. Crawford Memorial Library	Construction of a new, one level, 16,740 square foot library building to be located at 40 Schofield Avenue	\$6,883,649	Dudley
Municipal	Dudley Southbridge Road Reconstruction	Reconstruction of approximately 1.5 miles of road connecting the Town of Dudley and the Town of Southbridge.	\$450,000	Dudley
Municipal	Progress Avenue Interceptor Replacement	Replacement of the Progress Avenue Interceptor from West Main Street to Chase Avenue.	\$8,453,080	Dudley
Municipal	Cardinal Heights Sanitary Sewer Extension	Sanitary sewer extension into the Cedar Heights area.	\$6,966,025	Dudley
Municipal	Inflow and Infiltration Investigation and Removal	Identify and remove sources of extraneous flows (inflow and infiltration) entering the sanitary sewer system contributing to sanitary sewer overflows impacting Waters of the State.	\$5,840,000	Dudley

Commonwealth of Massachusetts

Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Progress Avenue Interceptor Improvements	Replacement of portions of the Progress Avenue Interceptor from West Main Street to First Avenue.	\$2,803,640	Dudley
Municipal	Brandon Road Resurfacing	Resurfacing of a .61-mile heavily utilized road located in the center of Town,.	\$160,000	Dudley
Municipal	Dresser Hill Road and Healy Road Water Main		\$2,580,000	Dudley
Municipal	Dudley Center Road Water Main		\$1,840,000	Dudley
Municipal	New Boston Road and Mill Street Water Main		\$1,320,000	Dudley
Municipal	Pine Street and Oxford Avenue Water Main		\$1,520,000	Dudley
Municipal	Saw Mill Road Water Main		\$1,000,000	Dudley
Municipal	Pearle Crawford Memorial Library	Demolition of existing building & Construction of new LEED Certified Library Building and associated site improvements	\$6,883,649	Dudley
Municipal	Modified Contract No. 27 – East Dracut Water System Expansion	The Peters Pond Area West Sewer project would add water mains throughout the area, and also in the area of Peters Pond East which will be under construction in 2009.	\$6,000,000	Dracut, MA, Kenwood Water Department
Municipal	Water Meters and Automatic Meter Reading System, Kenwood Water	This project would replace all 1,450 water meters in the Kenwood area and install a new drive-by automatic meter reading system.	\$500,000	Dracut(Kenwood Water District)
Municipal	Maintenance and Operations Building	Construction of a Maintenance and Operations Building for the Dracut Water Supply District including the installation of solar passive skylights to aide in the heating of the new facility.	\$2,500,000	Dracut Water Supply District
Municipal	Lakeview Avenue/Nashua Road/Tyngsboro Road Improvement Project	Reconstruction of Nashua Road from Forest Avenue to Oak Terrace, realignment of the intersection of Varnum, Nashua and Tyngsboro Roads and at the intersection of Lakeview Avenue and Nashua Road – State Highway Project ID #602200	\$2,400,000	Dracut
Municipal	Varnum Road Improvement Project	Rehabilitation of of roadway, installation of sidewalks, traffic signage, traffic controls and drainage improvements to provide efficiency and enhance vehicular and pedestrian safety.	\$2,400,000	Dracut
Municipal	Esplanade Park	The Town of Dracut seeks to eliminate the depreciated buildings and create a passive recreational park.	\$520,000	Dracut
Municipal	Arlington Street Area Sewers	The Arlington Street Area Sewer project includes 11,000 linear feet of new 8-inch gravity sewers and 1,000 linear feet of 2-inch pressure sewers.	\$2,800,000	Dracut
Municipal	Contract No. 27 – Peters Pond West Area Sewers	The Peters Pond Area West Sewers includes 8 and 12-inch gravity sewers, approximately 3,100 linear feet of 4-inch ductile iron force main, and two pump stations.	\$75,000,000	Dracut
Municipal	Arlington Street Reconstruction (Urban Collector)	This project will reconstruct and widen Arlington Street to provide bicycle and pedestrian accommodations, correct safety deficiencies and provide new resurfacing.	\$4,100,000	Dracut
Municipal	Canney Farm Recreation Park Development	15 Acre Park will includeing: walkways, parking area, a tot lot, baseball diamond, a multi-use practice field , basketball/tennis courts, a concession, parking spaces, lighting.	\$2,000,000	Dracut
Municipal	New Dracut Town Hall	A newly constructed Town Hall will house all municipal departments that are now housed in the Town Hall (1893), Town Hall Annex (1898), and the Sewer Department (1925 garage) Buildings.	\$9,000,000	Dracut
Municipal	CENTRE STREET BRIDGE	WIDEN CENTRE STREET BRIDGE OVER CHARLES RIVER FROM 18' TO 30' The existing width at its narrowest point is 18' tapering to 22' at the approaches.	\$1,750,000	Dover
Municipal	Former Caryl School – Replace Heating, Ventilating & Electrical Service	Replacing the existing oil-fired boiler, temperature controls, fin-tube radiation and unit ventilators. The aging electrical service equipment will also be replaced...	\$1,200,000	Dover
Municipal	Dover Police Department Safety Improvements	Police Department facility requires two improvements: emergency communication tower must be upgraded and replaced, Dispatch portion of the existing facility requires improvements...	\$430,000	Dover
Municipal	Guard Rail Installation and Replacement	Add guard rail at hazardous locations and replace damaged or missing components of existing guard rail. There are 9 types of guard rail throughout town on 14 or more streets.	\$750,000	Dover
Municipal	Former Caryl School	Replace Heating, Ventilating & Electrical Service	\$1,200,000	Dover
Municipal	Safety Complex Sewer Extension Project	The Project entails construction of approximately 4,500 linear feet of gravity sewer pipe; approximately 1,500 linear feet of force main; construction of a pump station.	\$2,500,000	Douglas
Municipal	North Street Roadway Improvements		\$0	Douglas

Commonwealth of Massachusetts

Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Martin Road Park Recreational Facility	Construction of Phase I which includes a Multi-Purpose Field, Concession Stand/Rest Rooms, Access Road, Parking Area, and Detention Basin.	\$1,345,000	Douglas
Municipal	Handicap Accessibility and Building Upgrade		\$0	Douglas
Municipal	Route 16 Sidewalk Construction	Construction of approximately 850' of sidewalk along Route 16 (Main Street). The Project is not being considered for any other source of State or Federal Funds.	\$100,000	Douglas
Private Development - Traditional Infrastructure (unreviewed)	Bowdoin Street Health Center	Expand clinical services, mental health services and add a wellness center	\$3,100,000	Dorchester
Private Development - Traditional Infrastructure (unreviewed)	Harbor Health Services #1	Renovate 6,000 SF of space to house WIC, quality assurance and pharmacy	\$1,200,000	Dorchester
Private Development - Traditional Infrastructure (unreviewed)	Harbor Health Services #2	Expand 8,000 SF of space for non-clinical support services	\$2,000,000	Dorchester
Private Development - Traditional Infrastructure (unreviewed)	Harbor Health Services #4	Purchase and install emergency generators	\$120,000	Dorchester
Private Development - Traditional Infrastructure (unreviewed)	Harvard Street Health Center	Expansion of Main site	\$6,750,000	Dorchester
Municipal	New Library Construction Project	This new library construction project will bring a new library building. The current library is not meeting all of the educational and recreational needs of our library users.	\$5,131,630	Dighton
Private Development - Traditional Infrastructure (unreviewed)	Jackson Road Phase IV	Realignment Jackson Road from Barnum Road to West main Street.	\$7,500,000	Devens
Private Development - Traditional Infrastructure (unreviewed)	Marne Road	Roadway and utilities reconstruction and realignment	\$3,500,000	Devens
Private Development - Traditional Infrastructure (unreviewed)	Public Safety Building	Construction of a combined public safety facility to house Police, Fire, EMS and Dispatch.	\$7,300,000	Devens
Municipal		Replacement, renovation or modernization of heating system to increase energy conservation and decrease related energy costs in the school.	\$0	Dennis-Yarmouth Regional School District
Municipal	Harbormaster Office / Harbor Security H.Q.		\$0	Dennis
Municipal	Fresh Pond Dog Park RT 134 South Dennis, Mass 02648		\$0	Dennis
Municipal	Town Hall Security	Dennis Town Hall is an unsecure building with little barrier to off hours entry, robbery or vandalism.	\$45,000	Dennis
Municipal	GIS Initiative	The Town of Dennis does not have a centralized GIS effort. This project will establish a networked server, software and distribution infrastructure to begin this process.	\$39,000	Dennis
Municipal	Digital Archive/Document Management	The Town of Dennis is rapidly losing historic documents which date back to the early 1800's due to storage conditions lack of standardized maintenance.	\$45,000	Dennis
Municipal	Town Hall Phone Replacement	The Town Hall in South Dennis is using an old Centrex system that is over trunked, lacks features a modern municipality should have to serve citizens and is excessively expensive	\$40,000	Dennis
Municipal	Corporation Beach Bathhouse Construction	Construction of a new accessible bathhouse at Corporation Beach that will include restroom facilities, concession stand, and the lifeguard office (bayside beach and communication center)	\$1,175,701	Dennis
Municipal	West Dennis Beach Nourishment and Dune Construction	Construction of a 300' by 40' dune and beach nourishment in front of the new dune as a soft sand solution to the failing bulkhead on the easterly end of West Dennis beach.	\$275,000	Dennis
Municipal	Site Improvements at Dennis Solid Waste Transfer Station and Recycling Center.	This project is meant to improve site conditions and efficiencies at the Town of Dennis Solid Waste Transfer Station and Recycling Center.	\$975,000	Dennis
Municipal	Restoration of the Rev. Josiah Dennis Manse house	The proposed construction will involve raising the existing building to construct a new foundation. The foundation is being replaced because the existing foundation, portions of which are stone	\$1,600,000	Dennis
Municipal	Fresh Pond Dog Park RT 134 South Dennis, Mass 02648		\$16,000	Dennis
Municipal	Upper County Road Bridge D-07-001 over Swan Pond River (tidal)	The existing timber supported concrete slab structure, which was built in 1949, is listed as structurally deficient.	\$2,600,000	Dennis

## Commonwealth of Massachusetts

### Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Route 134 & Airline Road Intersection Improvements	The intersection, especially during the summer (tourist) months and shoulder seasons, experiences long delays and numerous accidents.	\$600,000	Dennis
Municipal	Bass River Park Construction- 40 Route 28 West Dennis	Develop a former commercial property into a waterfront park with primarily open space and water related public activities for the residents of the town and its visitors.	\$1,400,000	Dennis
Municipal	Old Wharf Road Drainage and Overlay	Due to poor crown conditions, poor drainage, a number of utility patches, and numerous large commercial driveways, this project proposes to do a combination of either milling...	\$450,000	Dennis
Municipal	Route 134 Reconstruction (Route 28 to Upper County Road- South Dennis)	The project proposes to increase the pavement width to allow bicycle travel and add a pedestrian walk to make it safe for pedestrians.	\$2,000,000	Dennis
Municipal	Variable Frequency Drives	Install Variable Frequency Drives on selected pump motors	\$100,000	Dennis
Municipal	Town Hall HVAC System	Install Ductless Split Systems per engineer's recommendation	\$125,000	Dennis
Municipal	Town Hall, Senior Center, Carleton Hall Window replacement	Replace windows per engineer's recommendation	\$65,000	Dennis
Municipal	Town Hall ductless split System Heat Pumps	Install split system heat pumps as recommended by energy audit.	\$125,000	Dennis
Municipal	Photovoltaic array police station	photovoltaic array	\$98,300	Dennis
Municipal	Senior Center/town Hall window replacement	Assess and replace old windows with energy star rated windows.	\$85,000	Dennis
Municipal	Harbormaster's Office	Design and build Harbormaster's Office / Security Center	\$100,000	Dennis
Municipal	Dennis Highlands Golf Course Solar Panel	The Dennis Highlands is a major electricity user. The irrigation system places energy demands during the highest demand time periods. The proposal seeks to reduce the energy demands first for the irrigation system, second for the club house and third for the clubhouse.	\$438,500	Dennis
Municipal	Dennis Pines Golf Course	Similar to the Dennis Highlands proposal, the Dennis Pines Golf Course is a major seasonal electricity user. Irrigation places the highest demands on the system. The site is somewhat more constrained than the Highlands Golf Course, however, solar panels	\$438,500	Dennis
Municipal		Single system to serve estimated 25% the combined electrical needs of the two properties. This would require 9,742 of area for the panels	\$877,000	Dennis
Municipal	Town of Dennis Natural Resources	Provide solar panel to meet electrical needs of shellfish upweller. Project provides seed stock for residential and commercial shellfishing. System would be located on the ground and would meet 100% of the needs. This would require a 774 sf system.	\$69,700	Dennis
Municipal	Mill Village Emergency Watershed Protection (EWP)	Restore 480 feet of the east bank of the Deerfield River abutting Mill Village Road. The road runs between the river and lands preserved under the APR program	\$989,900	Deerfield
Municipal	Thayer Street Sewer and Storm water System Improvements	Repair and replacement of storm water and sanitary sewers along Thayer Street in South Deerfield Village, replace the marginal lines and open low/mod senior housing.	\$2,002,000	Deerfield
Municipal	Residential Water Meter Replacement	Replacement of approximately 7,000 water meters in residential houses that will be equipped with radio read technology	\$1,500,000	Dedham-Westwood Water District
Municipal	Water Main Replacement – Westwood Massachusetts	Replacement of asbestos cement pipeline within several neighborhoods located in Westwood Massachusetts	\$1,500,000	Dedham-Westwood Water District
Municipal	Water Main Replacement – Dedham Massachusetts	Replacement of old, unlined cast iron pipe located on River Street, Whiting Avenue and Reed Street in Dedham Massachusetts	\$1,500,000	Dedham-Westwood Water District
Municipal	Dedham High School Athletic Complex	Rebuild DHS and DMS outdoor athletic facilities and parking lots	\$8,720,000	Dedham – Public Schools
Municipal	Boiler Replacement – various schools	Replace three (3) boilers at high school, Oakdale Elementary School, and Dexter Elementary School	\$1,500,000	Dedham – Public Schools
Municipal	Window Replacement – District Wide (6 buildings)	Replace single pane glass windows with energy efficient rated triple pane windows	\$560,000	Dedham – Public Schools
Municipal	Dedham Regional Land and River Recreational Project (Municipal Facilities)	Creation of a regional recreational hub by interconnecting existing DCR parkland and trails to a two field athletic complex on land recently purchased by the Town of Dedham	\$600,000	Dedham
Municipal	Dedham Transit Orientated Development (TOD) Project: Making Public/Private Infrastructure Connections for Smart Growth and Sustainable	The Dedham TOD District: Pedestrian infrastructure proposal	\$705,746	Dedham

## Commonwealth of Massachusetts

### Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Town Hall renovations.	Renovate existing Finance Wing at Town Hall	\$800,000	Dedham
Municipal	Downtown Phase II – Streetscape and Traffic Improvements	Traffic safety and signal improvements, pedestrian improvements, and streetscape improvements in the Dedham Square area	\$5,000,000	Dedham
Municipal	Pavement Management Resurfacing	Resurfacing within the Town of Dedham	\$23,000,000	Dedham
Municipal	New Police Headquarters	Building inadequate for 60 officers, and 13 civilians. No locker room for females, No firing range, lockers in corridors, no call room, training room, interrogation room. Cell configuration inadequate. No handicap elevator, parking on street, records sto	\$9,126,040	Dedham
Municipal	Town of Dedham Municipal Solar Project	Install solar photovoltaic systems on municipal buildings to generate clean energy	\$1,680,000	Dedham
Municipal	Dedham Senior Center (Municipal Facility)		\$0	Dedham
Municipal	Avery Elementary School	Construct new 310 student elementary school in East Dedham	\$24,000,000	Dedham
Municipal	Expand Central Fire Station and Replace East Dedham Station	Expand station to include additional apparatus, bathrooms, storage, instructional rooms, and Haz-mat rooms	\$8,509,600	Dedham
Municipal	Municipal Solar	solar installation on municipal roofs to offset cost of electricity and to reduce Town's impact on the environment.	\$1,680,000	Dedham
Municipal	Modification and Rehabilitation of the Dartmouth Water Pollution Control Facility	Project consists of the rehabilitation and/or modification to the existing Dartmouth WPCF to improve energy efficiency and to replace inefficient treatment units.	\$11,175,840	Dartmouth
Municipal	Dartmouth Street Reconstruction Project – Phase II	The proposed project consists of pavement and sidewalk improvements along Dartmouth Street from Rogers Street southerly to Prospect Street.	\$1,100,000	Dartmouth
Municipal	Faunce Corner Road Congestion Remediation Project	The proposed project consists the engineering and construction of the recommendations set forth in the Dartmouth Faunce Corner Road/Route 6 Congestion Study.	\$7,000,000	Dartmouth
Municipal	George Street Reconstruction Project	The proposed project consists of pavement and sidewalk improvements on George Street from Rockland Street westerly to Elm Street. New sidewalks will be installed.	\$190,000	Dartmouth
Municipal	Potter Street Water Main Upgrade and Roadway Reconstruction Project	The proposed project consists of the installation of new water mains, pavement and sidewalk improvements on Potter Street from Milton Street to Russells Mills Road.	\$1,175,000	Dartmouth
Municipal	Russells Mills Road / Slocum Road Reconstruction Project – Phase IV	Pavement and sidewalk improvements along Russells Mills Road from Slocum Road to Elm Street. New sidewalks will be installed on the south side of the road from Russells Mills to Elm Street.	\$310,100	Dartmouth
Municipal	Elm Street / Wilson Street Water Main Upgrade and Roadway Reconstruction Project	Installation of new water mains, pavement and sidewalk improvements on Elm Street, and the installation of new water mains and pavement on Wilson Street.	\$1,200,000	Dartmouth
Municipal	Flagg Swamp Road Drainage & Roadway Reconstruction Project	The proposed project consists of the installation of new drainage and pavement improvements on Flagg Swamp Road from the Shingle Island River (STA 0+00) to STA 14+50.	\$185,000	Dartmouth
Municipal	Padanaram Causeway Rehabilitation Project	The proposed project consists the rehabilitation of the Padanaram Causeway a connector from Padanaram Village to Smith Neck and Gulf Roads.	\$3,000,000	Dartmouth
Municipal	Dartmouth Highway Safety Enhancements	The proposed project consists of the installation of MHD Standard guardrails at following bridge locations; Rock O'Dundee Road at Paskemansett River, Flagg Swamp Road	\$25,000	Dartmouth
Municipal	Rogers Street Sidewalk Project	The proposed project consists of curbing and sidewalk improvements on Rogers Street from Dartmouth Street easterly to the New Bedford City Line.	\$135,000	Dartmouth
Municipal	New Construction – Dartmouth Public Libraries- North Dartmouth Branch	A Building Program and a schematic design are in place to build a new 17,512 sq.ft. facility on Cross Road.	\$4,030,671	Dartmouth
Municipal	Wind Turbine Dartmouth Department of Public Works Water and Wastewater Power	The Town, through the work of its Alternative Energy Committee, has a fully site-evaluated Wind Turbine Project, will meet 100% of the electrical energy needs of our community.	\$10,500,000	Dartmouth
Municipal	Wood Electric Sub-Station	Replace an outdated major electric distribution substation with a modern energy efficient substation which will also increase system reliability.	\$3,978,000	Danvers
Municipal	Liberty Street Transportation Improvement Project		\$5,000,000	Danvers
Municipal	Automatic Water and Electric Meter Infrastructure	Replace outdated water and electric meters with modern automatically read meters with demand side energy management, conservation measures, and accuracy.	\$6,200,000	Danvers
Municipal	Chester, Milton, Healey Court Water Main Replacement Project	This project includes replacement of unlined cast iron water main in three streets. The water mains in these streets have frequent water main breaks and are in need of replacement.	\$492,000	Danvers
Municipal	Conant, Elliott & Poplar Intersection	Install traffic signals, roadway geometric improvements, and improve handicap accessibility at the intersection of Conant, Elliott and Poplar.	\$950,000	Danvers

Commonwealth of Massachusetts

Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Repair of the Dam Structure at Curtis Pond along Boston Brook.		\$1,250,000	Danvers
Municipal	Danvers Cabot Road Tennis Courts	Replace the aging and deteriorating five tennis courts on Cabot Road.	\$150,000	Danvers
Municipal	Danvers High School Stadium	Replace the aging Danvers High School Stadium Field and running track with a modern low maintenance facility.	\$1,200,000	Danvers
Municipal	Emerson Brook Dam Repairs		\$200,000	Danvers
Municipal	Endicott Park Playground	Replace an aging wooden playground structure which is past its useful life with a modern safe, kid friendly, and handicap accessible structure.	\$75,000	Danvers
Municipal	Great Oak School Roof Replacement	The Town needs to replace the aging and leaking roof on the Great Oak Elementary School.	\$825,000	Danvers
Municipal	Hobart Street Parking Lot Construction	The Town intends to construct a paved parking lot and install a sidewalk along Hobart Street. This new facility will provide 103 additional parking spaces for the Downtown Businesses.	\$425,000	Danvers
Municipal	Landfill Gas Extraction System		\$2,000,000	Danvers
Municipal	Reconstruction of Collins Street in Danvers, MA	Widening and reconstructing Collins Street from the intersection with Centre and Holten Streets to the intersection with Sylvan St includes sections of Centre St and Holten St	\$6,400,000	Danvers
Municipal	Transportation Improvement Project – Maple Street at Hobart Street/Locust Street	Sidewalk reconstruction and traffic signal system installation; minor roadway widening. No state or federal funds have been previously requested for this project.	\$415,000	Danvers
Municipal	Public Works Salt Shed	Construct a building for the storage of road salt to test roadway icing conditions. This project is needed to provide an environmentally safe way to store sufficient quantities of salt.	\$572,000	Danvers
Municipal	Riverside and Bates Street Water & Sewer Main Replacement Project		\$1,665,000	Danvers
Municipal	Sewer Extension Popes Lane		\$275,000	Danvers
Municipal	Town Hall Renovations	Renovate and repair the exterior of the historic Danvers Town Hall. Replace the inefficient and high energy consuming heating and cooling systems in Town Hall.	\$5,400,000	Danvers
Municipal	Pinecrest Drive Water Storage Tank	The project involves construction of a new 1.2 million gallon (MG) water storage tank off Pinecrest Drive in Dalton, Massachusetts. A new control building will be constructed.	\$2,200,000	Dalton Fire District
Municipal	May Brook Dam Removal	The project involves demolition of a 5 foot wide, 40 foot long, and 5 to 6 foot high dam on May Brook in Windsor, MA, followed by restoration of the riparian corridor.	\$200,000	Dalton Fire District
Municipal	Demolition & Site Clearance of the former Dalton High School	The former Dalton High & Middle School has been vacant for approximately 10 years. Removing the building will expedite redevelopment of the five acre site in the center of the community for alternate uses	\$1,100,000	Dalton
Municipal	Town Hall Renovations Phase III	Phase III of the project will undertake significant interior renovations particularly to the Library and the upper floor of the building which houses building inspection, public health, planning	\$1,941,600	Dalton
Municipal	Dalton Youth Center Renovations	The Dalton Youth Center, has been offered it to the Town and it is anticipated that the Town would accept the building if funding were available for its renovation.	\$921,535	Dalton
Municipal	L.P. Adams Brownfield Site Remediation	L.P. Adams will be required to clean up the site which will cost an estimated \$1,000,000 and prevent the company from going forward with a planned expansion due to the clean up cost.	\$1,000,000	Dalton
Municipal	Unknown at this time	Installation of solar photovoltaic cells to produce electricity to lower electric bill	\$0	Dalton
Municipal	Y Regional Recreation and Community Center (100% Shovel Ready)		\$0	County of Dukes County
Municipal	Bristol County Superior Courthouse – Historic Courtroom Repairs	Replace 14 large windows (10 ft X 80 in.) located in the Main Courtroom of the Superior Courthouse	\$100,000	County of Bristol
Municipal	Taunton Registry of Deeds -Accessibility Project	Install an Accessible ramp and elevator in the Registry of Deeds building.	\$1,200,000	County of Bristol
Municipal	Emergency Generator Replacement	This project will replace aged right-angle gear drives that supply back-up power to four (4) well stations that pump groundwater supplying the Village of Cotuit's water distribution system.	\$420,000	Cotuit Fire District Water Department, Cotuit Fire District(Barnstable)
Municipal	Elevated Water Storage Tank Project	The elevated water storage tank project proposed by the Cotuit Fire District – Water Department is designed to provide additional storage...	\$1,761,460	Cotuit Fire District Water Department, Cotuit Fire
Municipal	School Street Water Main Replacement Project	This project includes replacement of cast iron water main in School Street. The Town of Barnstable is resurfacing the roadway in 2009.	\$155,000	Cotuit Fire District Water Department, Cotuit Fire District
Municipal	Santuit-Newtown Road Water Main Transmission Project	This project includes 5,600 feet of new 8 and 12-inch ductile iron water main in Santuit-Newtown Road. The Water District is constructing a new water tank in 2009 for \$1,600,000.	\$105,000	Cotuit Fire District Water Department, Cotuit Fire District

## Commonwealth of Massachusetts

### Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Santuit-Newtown Road Water Main Project	This project consists of the construction of approximately 1,950 linear feet of 12-inch ductile iron water main, water services, and associated valves, fittings, and hydrants.	\$390,000	Cotuit Fire District Water Department
Municipal	Main Street Water Main Project	This project consists of the construction of approximately 1,500 linear feet of 8-inch ductile iron water main, water services, and associated valves, fittings, and hydrants.	\$240,000	Cotuit Fire District Water Department
Municipal	Water Distribution System Improvement Project	This project consists of the construction of approximately 2,200 linear feet of 12-inch ductile iron water main on Sampson Mill Road.	\$800,000	Cotuit Fire District Water Department
Municipal	Variable Frequency Drives	Install Variable Frequency Drives on selected pump motors	\$50,000	Cotuit
Municipal	Bardwells Ferry Road upgrade 2008-9	Construction to create safer passage in a narrow and steep section of roadway near a river bank and the Bardwells Ferry Bridge.	\$180,000	Conway
Municipal	North Poland Road Bridges (C-20-003, C-20-004, C-20-005)	Replacement of three structurally unsound bridges on North Poland Road, due to section loss in steel piles and general degradation in substructure, deck and elsewhere.	\$3,000,000	Conway
Municipal	Fire Station	Rehabilitation of existing Fire Station. The current building is shared between the Highway and Fire Departments, is 60 years old, and needs complete rehabilitation...	\$144,000	Conway
Municipal	Town Highway Department Garage	New structure to house Highway Department vehicles and equipment, including mechanics and wash bays on Town property. Replaces old building in disrepair and in riparian zone.	\$2,649,000	Conway
Municipal	High-speed Broadband Internet Access	Installation of new radio transmitters to carry wireless internet signal to more remote areas of town. Addition of at least four new radio towers and a series of repeaters...	\$160,000	Conway
Municipal	Green Power School	Add 'grid-tied' pole mount solar power system to grammar school to produce 50% of electricity for facility. Replace oil-based heating unit with modern bio-mass system...	\$915,000	Conway
Municipal	Compact Municipal Wastewater Treatment Facility	Compact localized sewer system needed to prevent further contamination of the South River near and around the town center, due to Title 5 failures of homes within riparian zone.	\$800,000	Conway
Municipal	South River Bank Stabilization	Town faces serious erosion of high river banks near town roads. Collapse of roadways is immanent. River banks need engineering study and eventual stabilization.	\$1,100,000	Conway
Municipal	Invasive Species Control	Control and/or eradication of invasive species such as Japanese Knotweed, Barberry, Honeysuckle, bittersweet, multi-flora rose, and others.	\$420,000	Conway
Municipal	Rehabilitate the Town Hall	Town Hall was built in 1948 and needs rehabilitation including an elevator, and a new 3rd story, using the existing height of the current 2nd story.	\$320,000	Conway
Municipal	Nashawtuc Bridge Parapet Wall and Spandrel Wall Repairs		\$450,000	Concord
Municipal	Nashawtuc Bridge Parapet Wall and Spandrel Wall Repairs		\$450,000	Concord
Municipal	Nagog Pond Dam Replacement - Drinking Water Reservoir		\$2,000,000	Concord
Municipal	Nagog Pond Dam Replacement - Drinking Water Reservoir		\$2,000,000	Concord
Municipal	Nagog Pond - Drinking Water Reservoir Intake Structure		\$1,100,000	Concord
Municipal	Nagog Pond - Drinking Water Reservoir Intake Structure		\$1,100,000	Concord
Municipal	Sewer Collection System Replacement		\$1,000,000	Concord
Municipal	Sewer Collection System Replacement		\$1,000,000	Concord
Municipal	Sewer Pumping Station Rehabilitation		\$1,000,000	Concord
Municipal	Sewer Pumping Station Rehabilitation		\$1,000,000	Concord
Municipal	Salt Storage Facility and Covered Storage Building		\$900,000	Concord
Municipal	Salt Storage Facility and Covered Storage Building		\$900,000	Concord

Commonwealth of Massachusetts

Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Proposed Wiggle Detention Construction (Design, Permitting and Construction Phases) (Project ID COH MP 2-3)	Development of design plans for the development of a 3 MCF stormwater detention/storage area in the middle watershed along James Brook to help reduce flood frequency...	\$350,000	Cohasset
Municipal	Various Dam Improvements – Sanctuary Pond Outfall Dam (Project ID COH MP 2-2) And Rattlesnake Run Outfall Dam (Project ID COH MP 4-1)	Sanctuary Pond Outfall Dam Improvements involving tree and shrub removal, outlet improvements and dam freeboard increases to allow improved outlet control and storage regulation.	\$460,000	Cohasset
Municipal	North Main Street sidewalk extension to east end of Cohasset commuter rail platform	Connect several neighborhoods with the most direct access route to the commuter rail platform to encourage pedestrian and other non vehicle access to public transportation.	\$650,000	Cohasset
Municipal	Treat's Pond Watershed –In-Basin Storage construction (Project ID COH MP 3-6) and BMP construction (Project ID COH MP 3-7)	Project involves the construction of new stormwater storage areas as well as over 30 stormwater Best Management Practices (BMP's) within the upper reaches of the Treat's Pond Watershed	\$380,000	Cohasset
Municipal	James Brook Watershed –In-Basin Storage construction (Project ID COH MP 2-4) and BMP construction (Project ID COH MP 2-5)	Project involves the construction of several new stormwater storage areas and over 100 best Management Practices (BMP's) within the upper to mid reaches of the James Brook Watershed.	\$1,200,000	Cohasset
Municipal	Various Drainage Culvert Replacements and Upgrades Locations included outlet flow control improvements at Ellms Meadow (Project ID COH MP 2-6)	Work proposed to prevent roadway collapse, reduce flood occurrence and enhance salt marsh areas, using an adjustable weir, improve flow regulation and reduce flood risks.	\$535,000	Cohasset
Municipal	Expansion of Water Treatment Plant to provide a new Pre-Treatment Process (Ion Exchange Process)	The project includes the construction of a new building at the water treatment facility to house a new pretreatment process to improve water quality and to comply with the DBP regulations.	\$50,000,000	Cohasset
Municipal	Drinking Water Distribution System Improvements – Lincoln Lane Loop and Cedar Street Loop	The project includes the construction of two (2) new water main loops to improve the level of service and to improve water quality.	\$500,000	Cohasset
Municipal	Installation of Water Meters and AMR system	The project includes replacement of water meters system wide, totaling about 2600 meters and the supporting automated meter reading system.	\$1,000,000	Cohasset
Municipal	Restoration of the Beechwood Street Culvert located at the Bound Brook Control Structure	The project includes the construction of twin pre-cast concrete culverts to replace the culverts and the control of leaks through Bound Brook Control Structure System/Beechwood Street.	\$1,000,000	Cohasset
Municipal	Central Cohasset Sewer Service Replacement Project (Project ID COH CSC- 2)	Project involves the replacement of leaking, cracked and deteriorated clay sewer service pipes in flood prone areas of the Central Cohasset Sewer District.	\$490,000	Cohasset
Municipal	Wind Turbine Power Generation- Cohasset Wastewater Treatment Plant (Project ID COH CSC- 1)	Project involves the installation of two 5KW and two 10KW vertical turbine wind power generation units at the Wastewater Treatment Plant to offset power consumption costs.	\$190,000	Cohasset
Municipal	Comprehensive Restoration and Rehabilitation of the Cohasset Town Hall Cohasset, MA		\$0	Cohasset
Municipal	Police Station Retaining Wall	Reconstruction of a brick and granite retaining wall that is crumbling and leaving debris on the adjacent private property.	\$30,000	Clinton
Municipal	South Meadow Pond Remediation - Clinton Landfill	Install groundwater collection and treatment facility adjacent to South Meadow Pond (Downstream of Clinton Landfill). Remediate contaminated pond sediments.	\$4,500,000	Clinton
Municipal	Clinton Senior Center	Construction of 6,000 square foot Senior Center with green technology and energy efficiency.	\$3,500,000	Clinton
Municipal	Oak Street reconstruction	Reconstruct Oak Street including sidewalks, curbing, retaining walls, drainage improvements, paving, etc.	\$3,000,000	Clinton
Municipal	Recycling Center	Construct new recycling center including retaining walls, grading, drainage, paving, fencing, compactor, electrical work, etc.	\$1,500,000	Clinton
Municipal	Route 110 Resurfacing	Scarify and resurface Route 110 (West Boylston St) from Sterling town line to Main Street	\$1,500,000	Clinton
Municipal	Bolton Road/Water Street Reconstruction	Reconstruct Bolton Road and Water Street including curbing, sidewalks, retaining walls, drainage improvements, gravel, paving, line painting, trees etc.	\$5,000,000	Clinton
Municipal	Burditt Hill Pre-Stressed Concrete Water Storage Tank	Construction of a 1.5 million gallon water storage tank to replace aged .75 million gallon tank	\$1,800,000	Clinton
Municipal	Clinton Emergency Management Facility Renovation	Municipal facility renovation to include new roof, garage demolition, update wiring, heating system, energy efficient windows & doors, paving and fencing.	\$100,000	Clinton
Municipal	Public Safety Communications Tower and Shelter	Construction of an 80' antennae tower with a 16'x16' building for controls to be used for public safety communications.	\$175,000	Clinton
Municipal	Energy Conservation Measures for Municipal Buildings	Implementation of energy conservation measures for all municipal facilities based on a preliminary report provided by Honeywell Building Solutions.	\$1,500,000	Clinton
Municipal	East Road Bridge	Repair structural problems located from a bend in the North Branch of the Hoosic river	\$250,000	Clarksburg
Municipal	North Hoosic River Restoration Project	North Hoosic River Restoration Project involves removing the Briggsville Dam	\$593,000	Clarksburg

### Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Middle Line Road Community Housing Program	Six Affordable Rental Housing Units & Six Affordable Homesite Lots	\$1,800,000	Chilmark
Municipal	Chilmark School Energy Efficiency Project	The goal is to dramatically improve the energy efficiency of Chilmark School by upgrading the air barrier insulation, installing a state-of-the-art heat exchange/ventilation system...	\$224,000	Chilmark
Municipal	Library	Photovoltaic	\$96,000	chilmark
Private Development - Traditional Infrastructure (unreviewed)	Westover Municipal Airport Improvements	Improvement Projects consist of: Passenger Terminal Building - parking lot improvements, Emergency Generator, this is a public safety issue; Hangar 11 - Metal Wall Panels to repair a leak; Hangar 11 - new tall door to allow larger planes to enter; safety improvements; baggage claim area improvements; roadway construction ( Hangar Drive) and fuel farm site remediation and relocation (will open up a 17 acre parcel at Chicopee Business Industrial Park for development).	\$3,436,500	Chicopee
Municipal	Connecticut River Clean-up Projects	The projects will each involve the elimination of combined sewer systems, which are replaced with separate stormwater and sanitary sewer networks.	\$46,383,000	Chicopee, Springfield, Holyoke, Palmer
Municipal	Academy Street Sewer Separation Construction	Sewer separation to provide relief from sewer backups to houses and streets within a residential neighborhood (referred by the Chicopee DPW as Drainage Area 29).	\$500,000	Chicopee WPC
Municipal	Allen Street to Ingham Street Sewer Separation Construction	Sewer separation to provide relief from sewer backups to houses and streets within a residential neighborhood (part of an area referred by the Chicopee DPW as Drainage Area 4.3).	\$3,500,000	Chicopee WPC
Municipal	Odor Control Construction at the Chicopee Water Pollution Control Facility	Construction of Odor Control system for Water Pollution Control Facility Facility (WPCF).	\$1,930,000	Chicopee WPC
Municipal	Fairview Interceptor Sewer Construction	Replacement of a section of cross-country sewer that includes 3 multiple-pipe inverted siphons, portions of which have been subject to failure on two occasions in the past ten years...	\$3,000,000	Chicopee WPC
Municipal	Flood Control – Pump Station & System Rehabilitation & Construction	Mechanical Repair of 8 Flood Pumping Stations, repair/replacement of 6500 ft of flood drainage pipe, Flood gate(s) replacement, flood wall repair, engineering/design and construction services.	\$2,500,000	Chicopee WPC
Municipal	Secondary Clarifier Mechanism Replacement Project	Project involves replacement of clarifier mechanisms in four existing 75-ft by 75-ft secondary clarifier tanks.	\$800,000	Chicopee WPC
Municipal	Supervisory Control and Data Acquisition (SCADA) – 20 Pump and Meter Stations	This project involves installation of a SCADA system at the Water Pollution Control Facility (WPCF) to monitor 20 pump stations and meter stations.	\$500,000	Chicopee WPC
Municipal	Roberts Pond Dam Removal and Sewer Construction	Improvements to the embankment and spillway would reduce the risk of further failure; the site would provide significant potential as a stormwater management facility...	\$2,997,000	Chicopee WPC
Municipal	North Chicopee Street - Slope Stabilization Construction	Repair of a failed slope at the north end of North Chicopee Street located aside an existing twin 84-inch culvert headwall along the Connecticut River.	\$80,000	Chicopee WPC
Municipal	McKinstry Avenue / Stedman & Lorraine St. Area Sewer Separation	Sewer separation to provide relief from sewer backups to houses and streets within a residential neighborhood (part of an area referred by the Chicopee DPW as Drainage Area 7.1).	\$3,000,000	Chicopee WPC
Municipal	Irene Street Sewer Separation Construction	Sewer separation to provide relief from sewer backups to houses and streets within a residential neighborhood (part of an area referred by the Chicopee DPW as Drainage Area 4.3).	\$500,000	Chicopee WPC
Municipal	Fair Street Area Sewer Construction	Repair of a section of cross-country sewer that is subject to failure.	\$400,000	Chicopee WPC
Municipal	City Drainage 6 locations & Slope Stabilization Construction	Repair of a failed slope at each of these locations and Installation of drainage pipes and manholes.	\$1,000,000	Chicopee WPC
Municipal	Atkins Street & Emery Street Sewer Construction	Repair of a section of cross-country sewer that is subject to failure.	\$300,000	Chicopee WPC
Municipal	Anson Street Sewer Separation Construction	Sewer separation to provide relief from sewer backups to houses and streets within a residential neighborhood (part of an area referred by the Chicopee DPW to as Drainage Area 3).	\$300,000	Chicopee WPC
Municipal	Downtown Fire Station Replacement	Replacement of inadequate late Victorian Fire Station with new building that supports personnel, contemporary fire equipment and technology	\$4,000,000	Chicopee
Municipal	Senior Center	Construction of new senior center to replace inadequate facility with no expansion potential	\$8,000,000	Chicopee
Municipal	Chicopee Police, Fire and Health Department Safety Complex	Replacement of dated, inadequate safety complex housing fire department, police department and health department	\$5,000,000	Chicopee
Municipal	Chicopee City Hall Reorganization and Former Main Library Reuse	Rehabilitate and remodel the former Main Library and portions of Chicopee City Hall	\$2,300,000	Chicopee
Municipal	Uniroyal Demolition, Phase 1, Lower Tier Buildings 1-15		\$0	Chicopee
Municipal	Connecticut Riverwalk, Chicopee	The Connecticut Riverwalk and Bikeway in Chicopee is a proposed five mile pedestrian and bicycle pathway along the Connecticut River providing both recreational and commuting...	\$4,029,136	Chicopee

# Commonwealth of Massachusetts

## Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Traffic Signals – Fuller Road	Install and reconstruction 3 signal systems on Fuller Road. Update geometry and signal equipment at Fuller Road-Sheridan Street and Fuller Road-Veteran's Bridge.	\$1,500,000	Chicopee
Municipal	Cold Plane & Resurface – Various Locations	Remove wearing course of pavement cross section and replace with either bituminous concrete or a combination of stress absorbing membrane interlayer with bituminous concrete.	\$6,325,000	Chicopee
Municipal	Public Works Facility	Construct 70,000 square feet of vehicle storage and upgrade existing facilities to accommodate the Water Dept., Sanitation Dept. and Central Maintenance Garage.	\$19,840,000	Chicopee
Municipal	Parking Areas – District Court Parking	The City owns a vacant lot adjacent to the District Court. This project would convert this property into a parking facility for the courthouse and surrounding businesses.	\$500,000	Chicopee
Municipal	Parking Areas – Downtown Chicopee	Rehabilitation of a parcel located in the downtown business district with a parking area.	\$700,000	Chicopee
Municipal	Parking Areas – Chicopee Schools (Bowie, Bowe, Litwin)	This project will add and upgrade the existing parking facilities at each school.	\$800,000	Chicopee
Municipal	Road Reconstruction – Rolf Avenue & Orange Street	Full reconstruction of both streets to increase the overall safety. Road re-alignment and drainage will be included. Work is planned within the current city layout.	\$800,000	Chicopee
Municipal	Traffic Signals – Broadway/Grattan Street	Redesign the signal systems along 4 intersections to include coordination. These signal systems see approximately 20,000 vehicles per day.	\$3,000,000	Chicopee
Municipal	A. Solar Panel Project	Place solar panels on roof to offset 50 – 100 % of electricity. Project dependent on replacing the roof on the Elementary School	\$147,400	Chesterfield-Goshen Regional School District
Municipal	B. Paving School Parking lot and driveway	Pave the driveway and parking lot of the school, reset curbing	\$40,000	Chesterfield-Goshen Regional School District
Municipal	C. Retention Pond	Pond needs to be dredged, overflow pipe needed to be re-installed, and work needs to be done in this pond to make it serve the purpose it was intended for – Fire Protection for the School.	\$40,000	Chesterfield-Goshen Regional School District
Municipal	Public Safety Complex	Construction of a new public safety complex to house the emergency management, fire, and police departments	\$2,900,000	Chesterfield
Municipal	Municipal Highway Facility	Demolition of the current structure and the construction of a new energy efficient building	\$2,300,000	Chesterfield
Municipal	Municipal Office Building	Demolition of the existing facility and the construction of a new Municipal Office Building	\$2,100,000	Chesterfield
Municipal	Russell Park Tennis Court Reconstruction	Complete the renovation of the Town's public park by reconstructing two existing tennis courts which are currently unusable	\$110,000	Chesterfield
Municipal	Chesterfield Senior Housing	Construct 12 units of affordable rental housing designated for persons over the age of 62 years and having low and moderate incomes	\$2,400,000	Chesterfield
Municipal	Route 143 Improvements	Overlay with structure adjustments on 4.5 miles of Route 143	\$1,500,000	Chesterfield
Municipal	Ireland Street Reconstruction and Overlay	Improvement of one (1) mile of Ireland Street with overlay on two (2) miles	\$500,000	Chesterfield
Municipal	East Street Reconstruction	Improvement of 3.2 miles of East Street from Westhampton Town Line to Intersection with South Street	\$2,600,000	Chesterfield
Municipal	Solar Energy	Offset electricity costs	\$147,364	Chesterfield
Municipal	Town Hall restoration project.	Pointing brick façade and repairs to internal gutter system. Currently the Town Hall façade is in poor repair and has begun leaking in to the interior of the building.	\$195,000	Cheshire
Municipal	Rehabilitation of Greenville and West Street Tanks	This project consists of the rehabilitation of the 0.5 million gallon capacity prestressed concrete Greenville Tank and the two 0.211 mg capacity steel West Street Tanks.	\$625,000	Cherry Valley & Rochdale Water District
Municipal	The Commonwealth's Interactive Renewable Energy Park	The nation's first interactive energy park featuring three windmills, smart metering, a fleet of cars charged by wind power in an ecological setting that serves residential, recreational and educational activities	#REF!	Chelsea and Revere
Municipal	Highland Park Synthetic Soccer Field Installation	Installation of a synthetic soccer field and associated infrastructure in Highland Park replacing the existing natural turf field	\$1,100,000	Chelsea
Municipal	Washington Avenue Infrastructure	Separation of Combined Storm and Sanitary Sewer into New Storm and Sanitary Sewer lines, replacement of water main, reconstruction of roadway and sidewalks	\$6,545,295	Chelsea

Commonwealth of Massachusetts

Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Demolition of buildings in urban renewal area.	Demolition of six buildings in the City's Everett Avenue North Urban Renewal District to allow for redevelopment of the parcels	\$300,000	Chelsea
Municipal	E911/Emergency Operations Center Renovations	Renovation and upgrade of E911/EOC building to comply with existing codes relative to fire protection, egress, life safety systems, interior space improvements, installation of adequate independent HVAC systems	\$1,039,000	Chelsea
Municipal	Engine 3 Fire Station Renovations	Renovate Central Fire Station and Mill Hill Station would be the first facility	\$1,645,500	Chelsea
Municipal	Life Safety and Building Code Renovations to the Chelsea Department of Public Works City Yard	Interior and Exterior Improvements to bring building envelope, mechanical, electrical, plumbing, fire protection and life safety systems to a level of standard that will last a minimum of ten (10) years	\$4,000,000	Chelsea
Municipal	Market Street Culvert Rehab	Replace drainage culverts of 1,700 linear feet and 15'-6"x9'-5" diameter and 1,350 feet of a 6'-6"x5' that serves a catchment area encompassing portions of Chelsea MA and Everett MA and transports surface runoff from the densely developed industrial and r	\$12,000,000	Chelsea
Municipal	Design & install renewable energy system to light ball fields, play areas and grounds	Replace dated lighting systems with energy efficient systems including operating systems that can match lighting requirements with use requirements	\$295,000	Chelsea
Municipal	School Building Seal/Re-point	Clean and reseal	\$625,000	Chelsea
Municipal	Replace rubber steps in interior stairwells	Replace the rubber steps	\$100,000	Chelsea
Municipal	Refurbish Little League Field at Mary C. Burke Complex	Replace field, including the irrigation system.	\$350,000	Chelsea
Municipal	School Building Painting - Interior	Paint public areas, stair wells, bathrooms in all schools	\$575,000	Chelsea
Municipal	Re-lamp cafeterias and auditoriums with energy efficient lighting	Replace dated lighting systems with energy efficient systems	\$165,000	Chelsea
Municipal	Replace chain link fence on ball field perimeter	Upgrade and replace fencing at the high school	\$125,000	Chelsea
Municipal	Repair sewer line from high school to street	Replace connection between the high school and the City sewer line	\$75,000	Chelsea
Municipal	Refurbish exterior play areas	Restore/ replace ground cover, replace playground equipment, due to extensive use.	\$190,000	Chelsea
Municipal	Replace vinyl tile flooring in corridors and high traffic areas	Replacing vinyl tiles	\$125,000	Chelsea
Municipal	Replace and install food service equipment	Replace with new equipment aligned with current food production requirements	\$100,000	Chelsea
Municipal	School Building Painting - Exterior	Repainting	\$225,000	Chelsea
Municipal	School Building Demolition	Correct structural deficiencies in the unused portion of the school and exterior masonry work	\$1,200,000	Chelsea
Municipal	Replace carpets in all libraries and high traffic areas	Carpet replacement at the high school library	\$100,000	Chelsea
Municipal	Refurbish fleet of elevators	Replace elevator control panels	\$600,000	Chelsea
Municipal	Early Learning Center Parking	Investment in a drainage system and line markings, lighting and landscaping	\$600,000	Chelsea
Private Development - Traditional Infrastructure (unreviewed)	Spruce / Everett Reconstruction	475 in housing units. Major roadway and sewer improvements.	\$3,500,000	Chelsea
Municipal	Re-painting Turnpike Road Tank	The project consists of the painting of the interior and exterior of a 4 million gallon distribution water storage tank.	\$1,200,000	Chelmsford Water District
Municipal	Locke Road Water Tank	The project consists of the construction of a 500,000 gallon concrete water storage tank, the demolition of an existing elevated tank and upgrades to a booster pumping station.	\$1,250,000	Chelmsford Water District
Municipal	Chelmsford Phase 4I Sewer Project		\$0	Chelmsford
Municipal	New Department of Public Works Facility	New facility to include land and buildings necessary to house Sewer, Highway, Parks and Engineering Division.	\$10,000	Chelmsford

## Commonwealth of Massachusetts

### Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	New Central Fire Headquarters	Current facility is severely deteriorated to the point that structural cribbing has been installed to support the Apparatus Bays.	\$7,000	Chelmsford
Municipal	Window Replacement - Chelmsford High School	The entire window system would need to be replaced. The window system is now outdated by today's more energy efficient systems in terms for thermal seal.	\$1,700,000	Chelmsford
Municipal	Univent, Air Handling Replacement and DDC Control System – Chelmsford High School	The univents and air handlers have outlived their expected life cycles. These systems will be replaced with new energy efficient unit ventilators, air handlers and DDC controls.	\$950	Chelmsford
Municipal	Billerica Road (Route 129)/ Riverneck Road Traffic Safety Improvements.	This project entails a minor road widening, traffic signal installation, and sidewalk re-construction. Traffic flow and pedestrian movements are currently restricted at his location.	\$825,000	Chelmsford
Municipal	Construct sidewalks along Billerica Road (Route 129).	This project constructs sidewalks along Billerica Road from Riverneck Road to Omni Way.	\$760,000	Chelmsford
Municipal	Construct upgrades to the Mill Road Sanitary Sewer Pump Station.	This project involves upgrading the capacity of an existing sewer pump station located on Mill Road.	\$750,000	Chelmsford
Municipal	Stadium Bleachers and Press Box Replacement – Chelmsford High School	Replace 29 year old wooden bleachers and press box with new aluminum bleachers and steel framed modular press box. The current bleachers are not ADA compliant.	\$625	Chelmsford
Municipal	Univent, Air Handling Replacement and DDC Control System – Parker Middle School	The univents and air handlers have outlived their expected life cycles. These systems will be replaced with new energy efficient unit ventilators, air handlers and DDC controls.	\$600	Chelmsford
Municipal	Univent, Air Handling Replacement and DDC Control System – Harrington Elementary School	The univents and air handlers have outlived their expected life cycles. These systems will be replaced with new energy efficient unit ventilators, air handlers and DDC controls.	\$480	Chelmsford
Municipal	Univent, Air Handling Replacement and DDC Control System – Byam Elementary School	The univents and air handlers have outlived their expected life cycles. These systems will be replaced with new energy efficient unit ventilators, air handlers and DDC controls.	\$480	Chelmsford
Municipal	Dam Safety Improvements at Swains Pond Dam.	This project involves constructing safety improvements at the dam and in the immediate downstream area, these improvements be completed to ensure the dam's integrity.	\$475,000	Chelmsford
Municipal	Univent, Air Handling Replacement and DDC Control System – Westlands Elementary School	The univents and air handlers have outlived their expected life cycles. These systems will be replaced with new energy efficient unit ventilators, air handlers and DDC controls.	\$450	Chelmsford
Municipal	Construct sidewalks in the South Row School area.	This project constructs sidewalks in the area of South Row School with is located in the southern section of Chelmsford. Construction of sidewalks will greatly benefit the students.	\$360,000	Chelmsford
Municipal	Building Façade and Exterior Upgrade – Chelmsford High School	Building Façade – Power wash, caulk and seal. Building Exterior – Paint all metal roof panels and univent intakes.	\$350	Chelmsford
Municipal	Construct upgrades to the Progress Avenue Sanitary Sewer Pump Station.	This project involves upgrading the capacity of an existing sewer pump station located on Progress Avenue.	\$350,000	Chelmsford
Municipal	Construct sidewalks in the North Chelmsford/Senior Center area.	This project constructs sidewalks in the area of Vinal Square (the business center of North Chelmsford) and connecting with the Chelmsford Senior Center.	\$325,000	Chelmsford
Municipal	Construct sidewalks in the Byam School area.	This project constructs sidewalks in the area of Byam School with is located in the southern section of Chelmsford. Byam Schools is an elementary school with grades K-3.	\$210,000	Chelmsford
Municipal	Drainage Improvements at Beaver Brook in the area of Lisa Lane	This project involves replacing an old, undersized metal arch culvert that Beaver Brook flows through. This area has flooded several times affecting several homes, infrastructure and the actual roadway itself.	\$210,000	Chelmsford
Municipal	Renovation to Gymnasium and Restrooms – Town Offices	Renovate gym and restrooms – Install new energy efficient windows, replace 40 yr old heater, replace wood coating on walls, fix stage area and renovate restrooms.	\$160	Chelmsford
Municipal	Construction of a relief sewer in Chelmsford Center.	This project involves upgrading the capacity of a section of sanitary sewer in Chelmsford Center which currently acts as a deterrent to further development.	\$110,000	Chelmsford
Municipal	Traffic Safety Improvements at Acton Road (Route 27) and Maple Road, aka "Kate's Corner".	This project involves safety improvements consisting of flashing beacons, road narrowing, improvement traffic markings and vehicle speed advisory signs.	\$80,000	Chelmsford
Municipal	Light Sensor Project – All Town and School Buildings	This project will allow us to effectively manage lighting usage. The investment for this project will payback in the first 2 years.	\$80	Chelmsford
Municipal	Drainage Improvements at Chelmsford Street (Route 110) in the area of Fletcher Street.	This project involves replacing old, corroded, undersized metal culverts that convey area stormwater flows off the streets to nearby receiving wetlands.	\$75,000	Chelmsford
Municipal	Development of computerized sanitary sewer records.	This project involves transforming paper asbuilt construction drawings to state-of-the-art computerized mapping records, will allow faster response to problems.	\$55,000	Chelmsford

Commonwealth of Massachusetts

Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Drainage Improvements at North Road (Route 4) in the area of Fletcher Street.	This project involves supplementing old, corroded, undersized metal culverts that convey area stormwater flows off the streets to nearby receiving wetlands.	\$50,000	Chelmsford
Municipal	Traffic Safety Improvements at Chelmsford Street (Route 110) and Golden Cove Road	Safety improvements consisting of updated traffic signals with protected left turns as warranted, updated signals computer system, pedestrian crossing phasing and improved signage.	\$100,000	Chelmsford
Municipal	Drainage Improvements at Stony Brook as it passes under Meadowbrook Road.	This project involves replacing old, corroded, undersized metal culverts that Stony Brook flows through at Meadowbrook Road.	\$500,000	Chelmsford
Municipal	Light Sensors	Install wall sensors and power packs	\$80,000	Chelmsford
Municipal	Univents	Univent, Air Handling Replacement and DDC Control Sytem	\$950,000	Chelmsford

Private Development - Traditional Infrastructure (unreviewed)	CENTRAL BOSTON/DUDLEY 202	New construction of a 57-unit elderly housing project. Tax credits and 202 awards pending. Both City and State (DHCD) administered funding has been awarded	\$11,370,292	Boston
Private Development - Traditional Infrastructure (unreviewed)	CENTRE/LAMARTINE	New construction of 30 affordable rental units, ground floor retail and office space. Also demolition of existing 6-unit building. City and State administered funds have been awarded	\$4,577,338	Boston
Private Development - Traditional Infrastructure (unreviewed)	JP APARTMENTS	Rehab of 103 rental units, incl. conversion of 5 to handicap accessible. Both City and State (DHCD) administered funding has been awarded	\$9,350,000	Boston
Private Development - Traditional Infrastructure (unreviewed)	KASENOF BAKERY (Rental)	New construction of 48-unit mixed-use building with community room. . Both City and State (DHCD) administered funds have been awarded	\$8,398,080	Boston
Private Development - Traditional Infrastructure (unreviewed)	1015-1019 Blue Hill Avenue, Dorchester	Beacon Dental Group intends to construct a two-story office building with a gross building area of 5,000 square feet. 50% of the space will be occupied by the developer's dental practice and the remaining 50% will be leased to professional businesses	\$1,000,000	Boston
Private Development - Traditional Infrastructure (unreviewed)	154 Maverick Street, East Boston	Renovation of a former municipal building to create affordable retail space on the first floor, affordable office space on the second floor, and residential on the third floor	\$1,300,000	Boston
Private Development - Traditional Infrastructure (unreviewed)	20 Eustis Street, Roxbury	Developer will enter into a long term lease with the City of Boston (50 years +) and will renovate a historic former firehouse. HBI will rehabilitate & restore the existing building to its original footprint – this will involve both the restoration of the existing building's exterior and the reconstruction of the two-story wood-framed addition in the rear. The developer intends to apply for Federal & State Historic Tax Credits, and New Market Tax Credits		Boston
Private Development - Traditional Infrastructure (unreviewed)	741 Washington Street Volatile Organic Compound (VOC) Groundwater Plume	Data indicates that there are Underground Storage Tanks (USTs) on the City's parcel. This includes: 500 gallon waste oil tank, one 2000 gallon unknown, and two 3000 gallon unknowns. Past bulk storage of solvents, likely Perchloroethylene (PCE) was stored in the other tanks. A plume causing indoor-air issues in at least two buildings is impacting residences on the surrounding property. Both buildings have occupied basement level apartments. The City must develop a response under the Massachusetts		Boston
Private Development - Traditional Infrastructure (unreviewed)	872 Morton Street, Mattapan	Demolition of an existing structure, a former police station, and construction a new 27, 280 square foot building that will include 28 residential units (7 affordable) and 2,000 square feet of commercial space	\$6,000,000	Boston
Private Development - Traditional Infrastructure (unreviewed)	Remediation of Alger Street Extension Polychlorinated Biphenyl (PCB) and Heavy Metal Soil Contamination	The Alger Street property (Parcel: 07-00028001) is part of a disposal site as defined under the Massachusetts Contingency Plan (MCP) and as tracked by the Massachusetts Department of Environmental Protection (MA DEP) as Release Tracking Number (RTN) 3-3607. The property is still undergoing remedial actions in accordance with the MCP. As such the area was to remain fenced and undisturbed until final remedial actions, and/or controls are put in place. The property's topsoil, subsurface materials, and		Boston
Private Development - Traditional Infrastructure (unreviewed)	Remediation of Magnolia Street Asbestos Soil Contamination	The City of Boston acquired this property through tax foreclosure; as such the City is the Responsible Party (RP) for contamination found at the site. Asbestos has been identified in the soil at the site from past demolition operations. As the RP we must prevent migration of the asbestos, and contact with the asbestos containing debris. Asbestos is a fibrous material found in some building material used in past construction, such as floor and roofing tiles, concrete additives, and insulation. It migrates most		Boston
Private Development - Traditional Infrastructure (unreviewed)	Environmental Remediation of Former Lewis Chemical Facility, Hyde Park, MA	Lewis Chemical was involved in the collection, transportation, storage, and processing of hazardous waste from 1963 until 1983. The facility was cited for numerous violations of Federal, State, and local laws regarding the safe handling, transport, storage, and treatment of hazardous materials during its operation. Reuse of the existing building would be costly and not recommended due to solvent inhalation issue. Demolition of the building, removal of the source materials, installation of a sub-slab	\$1,300,000	Boston
Private Development - Traditional Infrastructure (unreviewed)	40-42 Terrace Street	Creation of a building, which will consist of three artist live/work condos and a fourth unit for commercial space.	\$600,000	Boston

## Commonwealth of Massachusetts

### Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Private Development - Traditional Infrastructure (unreviewed)	97-99 and 101-103 Quincy Street, Dorchester	Municipal parking area for Blue Hill Avenue commercial district		Boston
Private Development - Traditional Infrastructure (unreviewed)	Remediation of B-Street Extension Polychlorinated Biphenyl (PCB) Soil Contamination			Boston

Commonwealth of Massachusetts

Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	The Belchertown Economic Development & Industrial Corporation Site Preparation		\$0	Belchertown
Municipal	Police Garage, Replacement floor to Police Department building	Construct a 32' X 50' 5 bay garage with paved parking area and replace cracking floor within the existing police building.	\$55,000	Belchertown
Municipal	EMS Building upgrades	Installation of energy efficient windows and doors at the emergency Medical Services building that was constructed in 1950.	\$15,000	Belchertown
Municipal	Finnerty House upgrades	Installation of energy efficient windows at the Finnerty House that was constructed in 1855.	\$15,000	Belchertown
Municipal	Freedom Center Building Insulation	Installation of insulation above the main area of the Recreation Department building that was constructed in 1950.	\$10,000	Belchertown
Municipal	Freedom Center Building upgrades	Installation of energy efficient windows and doors at the Freedom center building that was constructed in 1950.	\$75,000	Belchertown
Municipal	George Hannum Street Resurfacing	The George Hannum Street corridor is 2.94 miles long and is need of maintenance consisting of cold planing and resurfacing. Safety improvements consisting of new signs and pavement markings will also be included as part of the project	\$800,000	Belchertown
Municipal	Gold Street Resurfacing	The Gold Street corridor is 2.04 miles long and is need of maintenance consisting of cold planing and resurfacing. Safety improvements consisting of new signs and pavement markings will also be included as part of the project	\$560,000	Belchertown
Municipal	Highway Garage Addition	Construction of a 3,500 sf addition to the town's existing highway garage	\$500,000	Belchertown
Municipal	Highway Garage Solar Photo Voltaic	Installation of 140 Evergreen 190 watt solar modules, which will produce approximately 76% of the facility's power.	\$205,000	Belchertown
Municipal	LMH boiler upgrade	Installation of a new boiler at the Lawrence Memorial Hall that was constructed in 1923.	\$50,000	Belchertown
Municipal	LMH Heating upgrades	Installation of a new heat delivery system at the Lawrence Memorial Hall that was constructed in 1923.	\$400,000	Belchertown
Municipal	LMH Building upgrades	Installation of energy efficient windows at the Lawrence Memorial Hall that was constructed in 1923.	\$500,000	Belchertown
Municipal	North Liberty/ South Liberty Street resurfacing	The North Liberty/ South Liberty Street corridor is 4.13 miles long and is need of maintenance consisting of cold planing and resurfacing. Safety improvements consisting of new signs and pavement markings will also be included as part of the project	\$1,325,000	Belchertown
Municipal	Old Town Hall Building upgrades	Installation of energy efficient windows at the Old Town Hall that was constructed in 1865.	\$80,000	Belchertown
Municipal	Police Department Building Insulation	Installation of insulation above the first floor ceiling at the Police Station.	\$100,000	Belchertown
Municipal	Recreation Department Building Insulation	Installation of insulation above the main area of the Recreation Department building, that was constructed in 1950.	\$10,000	Belchertown
Municipal	Recreation Department Building upgrades	Installation of energy efficient windows and doors at the Recreation Department building that was constructed in 1950.	\$75,000	Belchertown
Municipal	Senior Center Building Insulation	Installation of insulation above the main area at the Senior Center. Currently, there is no insulation in the ceiling.	\$150,000	Belchertown
Municipal	Warren Wright Road Resurfacing	The Warren Wright Road corridor is 2.69 miles long and is need of maintenance consisting of cold planing and resurfacing. Safety improvements consisting of new signs and pavement markings will also be included as part of the project	\$740,000	Belchertown
Municipal	Waste Water Treatment Plant Solar Photo Voltaic	Installation of 600 Evergreen 195 watt solar modules, which will produce approximately 18% of the facility's power.	\$980,000	Belchertown
Municipal	Central Office Renovation Project	ADA access ramp, bathroom renovations, resurface parking lot, asbestos removal, install emergency generator	\$221,100	Belchertown
Municipal	Chestnut Hill Community School Building Renovations	HVAC heat pump replacement, video surveillance camera system, carpet removal / tile installation, floor replacement, painting, replace door hardware, replace parking lot lighting, locker room renovations	\$591,800	Belchertown
Municipal	Cold Spring School Renovation Project	Upgrade wiring, ceiling replacement, fire alarm system upgrade, asbestos floor tile removal / replacement, replace steam lines, reclaim / resurface parking lot pavement / sidewalks, bathroom renovations, replace countertops, upgrade plumbing, install emer	\$824,517	Belchertown
Municipal	Energy Saving Project 1	Boiler replacement, window replacement, energy management system upgrade and replacement, HVAC upgrade and replacement, pool cover	\$1,410,988	Belchertown
Municipal	Jabish Brook Middle School Renovations	Asbestos tile removal / replacement, gym bleacher replacement, locker room renovations, stairway renovations, bathroom renovations, painting, generator replacement, hall locker replacement, drop ceilings	\$605,990	Belchertown

## Commonwealth of Massachusetts

Municipal	Swift River Elementary School Renovations	Painting, door hardware replacement, bathroom partition replacement	\$96,800	Belchertown
Municipal	Tadgell School Renovation Project	HVAC replacement, electrical & plumbing upgrade, asbestos removal, painting, roof and ceiling repairs, door and hardware replacement, elevator upgrade	\$417,450	Belchertown
Municipal	The Belchertown Community Sustainable Enterprise Center at the New England Small Farm Institute		\$0	Belchertown
Municipal	Road Reconstruction South Main Street and North Washington Street	The reconstruction of South Main Street and North Washington Street will consist of full depth pavement replacement, including paving, curbing, sidewalks, grass strips...	\$3,300,000	Belchertown
Municipal	Route 181 Reconstruction and Minor Widening	The proposed project consists of approximately five and a half (5.5) miles of pavement rehabilitation along Route 181, between Maple St. and the Belchertown Pal Town line.	\$5,300,000	Belchertown
Municipal	Intersection Improvements to Main Street (Route 202) at Maple Street (Route 202/21) at South Main Street (Route 181) and Jabish Street (Route 21)	The proposed project includes widening South Main Street to provide an exclusive left turn lane, includes relocating existing curbing, reconstructing sidewalks, roadway box widening...	\$650,000	Belchertown
Municipal	South Main Street Sewer Improvements	The sewer improvements on South Main Street will consist of replacing existing pipe, begins at the South Main St./Route 181 intersection to the Fuller St. intersection.	\$225,000	Belchertown
Municipal	Route 181 Sewer Improvements	The sewer improvements on Route 181 will consist of replacing existing pipe, begins east of the Main Street/Jabish Street intersection and extends to the Fuller Street intersection.	\$300,000	Belchertown
Municipal	EMS Building	Windows and doors	\$15,000	Belchertown
Municipal	Lawrence Memorial Hall	Windows	\$500,000	Belchertown
Municipal	EMS	Upgrade	\$50,000	Belchertown
Municipal	WWTP	Solar-PV	\$980,000	Belchertown
Municipal	Town Hall Standby Generator	The Town Emergency Planning Committee recommended an upgrade the Town Hall generator project to provide space for government operations during no-power emergencies.	\$150,925	Bedford
Municipal	MIDDLESEX TURNPIKE WATER MAIN REPLACEMENT	Replace the existing 10-inch diameter cast iron water main. The pipe will be upgraded to a 12-inch diameter ductile iron pipe.	\$450,000	BEDFORD
Municipal	MINUTEMAN DRIVE/SPRINGS ROAD SEWER INSTALLATION	Install a Springs Road gravity sewer main and Minuteman Drive sewer pump station and force main.	\$500,000	BEDFORD
Municipal	NORTH ROAD REHABILITATION	The Town of Bedford will construct a new sidewalk to link properties to the center of Town and the current MBTA bus system, as well as to replace the 80+ year old water main.	\$1,450,000	BEDFORD
Municipal	SALT SHED	The Town of Bedford will build a new facility or storing salt/sand, the new facility will have doors on both ends so that the material can be segregated.	\$225,000	BEDFORD
Municipal	SUMMER STREET BRIDGE REPLACEMENT AND DRAINAGE IMPROVEMENTS	The Summer Street Bridge should be replaced with a structure capable of carrying today's 15,000 vehicles per day. As part of this project, a stormwater treatment unit will be installed.	\$1,200,000	BEDFORD
Municipal	SYNTHETIC TURF PLAYING FIELD	The Town of Bedford's would install a sythetic turf football field.	\$920,000	BEDFORD
Municipal	SHAWSHEEN WELL #2 REPLACEMENT	Relocate the well to a "clean" area of the wellfield and repipe the new well to the existing distribution system.	\$150,000	BEDFORD
Municipal	WILSON MILL DAM REPLACEMENT	This request is to rebuild the Wilson Mill dam, provide flood control and enhance this historical site with a small parking area, benches and safety fencing.	\$950,000	BEDFORD
Municipal	Bedford High School Energy Conservation Project	Expand the lighting control system to manage all night and emergency lights at the High School.	\$109,583	Bedford
Municipal	Bedford High School Site Work	Remove and replace with a code compliant stair at F Wing Entrance. Install ramp at G Wing Entrance to make it ADA compliant. Construct new ADA access to flag pole and install new pole.	\$197,807	Bedford
Municipal	Davis School Emergency Generator	Provide additional emergency shelter space needed by the town and eliminate safety concerns at the elementary school during a power outage	\$205,000	Bedford
Municipal	Bedford Depot Building Renovation	Selected demolition, interior and exterior renovation and mezzanine addition. Design Development is complete. No state or federal funding is being considered for this project.	\$952,120	Bedford

## Commonwealth of Massachusetts

### Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Lane School Refrigerator Freezer Replacement	he scope of work of this project includes replacing the existing box with a new 50% larger box and installing new refrigeration equipment.	\$31,030	Bedford
Municipal	Multi-site Retro-commissioning Project (3 Schools and 5 Town Buildings)	Retro-commission the Police Station, Fire Station, Town Center, DPW Office/Garage, Public Library, Davis School, Lane School and John Glenn Middle School.	\$323,675	Bedford
Municipal	Public Safety Video System Upgrade	Upgrade the video surveillance systems at the Police and Fire stations to improve image quality, coverage, and functionality of the system.	\$63,000	Bedford
Municipal	Town Center Flooring Replacement	Removal and replacement of the flooring in the Union School room and corridor. Remove existing asbestos floor tile and install new vinyl composition tiles in the North Wing.	\$106,450	Bedford
Municipal	Bedford High School Energy Conservation Project	1. Expansion of the Lighting Control System to manage night and emergency lighting. This will reduce the lighting by 5120 hours/per year.	\$109,583	Bedford
Municipal	Town Center Window Replacement	Replacement of 59 single pane windows in Town Center North Wing, containing asbestos material with new energy efficient window units	\$76,750	Bedford
Municipal	John Glenn Middle School Demand Limiting Project	Implement a demand limiting program to reduce peak demand costs	\$30,615	Bedford
Municipal	Multi-site Retro Commission	Retrocommission on building renovated between 4 to 12 years ago. Will focus on HVAC and Electrical systems in order to improve the work environment and conservation of energy	\$323,675	Bedford
Municipal	Bedford High School Energy Conservation Project	2. Implement a demand limiting program to reduce peak demand costs	\$109,583	Bedford
Municipal	Becket Washington Elementary School Gutters	Install gutters on school building. Due to financial constraints, gutters were eliminated from construction/renovation. Their absence is causing serious water and flooding problems.	\$12,000	Becket
Municipal	Becket Washington Elementary School Masonry Repair	Repair crumbling mortar, cracks, broken bricks; power wash all surfaces to remove algae and mold.	\$20,000	Becket
Municipal	Bancroft Rd. bridge repairs	Replace westbound lane wing wall	\$100,000	Becket
Municipal	Yokum Pond bridge replacement	Replace existing steel span, with pre-cast concrete structure	\$300,000	Becket
Municipal	Wade Inn Road reconstruction	Full depth bituminous concrete reclamation, new drainage and additional sub-base, for a distance of 2.75 miles	\$750,000	Becket
Municipal	Algerie Road/Bonny Rigg Hill Road reconstruction	Full depth bituminous concrete reclamation; new drainage; additional sub-base and repaving.	\$650,000	Becket
Municipal	Barre Common (center) infrastructure upgrades	Replace and repair drainage in the Common area, reclaim and resurface all paved areas and reconfigure traffic patterns	\$3,600,000	Barre
Municipal	Gateway to Hyannis – Hyannis Access Study Implementation	Design and construction of connectivity, capacity, and safety improvements to benefit motorists, pedestrians, cyclists, and freight movements in the north/eastern area of Hyannis.	\$58,000,000	Barnstable County
Municipal	Roadway and Bridge Infrastructure Resurfacing, Preservation, Replacement, and Enhancement Program	County wide program primarily to bring pavement and bridge conditions to operating conditions.	\$250,000,000	Barnstable County
Municipal	Ted Kennedy Recreational Trail		\$70,000,000	Barnstable County
Municipal	Cape Cod Real-Time Traffic/Transportation Management System	Install capital improvements including cameras, software, computer systems for a coordinated transportation monitoring system to collect and dispense system information...	\$66,450,000	Barnstable County
Municipal	Cape Cod Passenger Rail Feeder Service		\$6,000,000	Barnstable County
Municipal	Chatham Wastewater Facility Plan and Implementation	For the completion of Wastewater facility design, completion of regional facility capacity analysis, sewer extensions and Wind power generation.	\$55,000,000	Barnstable County
Municipal	Orleans Wastewater Facility Plan and Implementation	Implementation of the Comprehensive Wastewater Facility Plan including 1) treatment facility design and 2) construction and sewer collection system design and construction.	\$49,000,000	Barnstable County
Municipal	Lake Wequaquet Wastewater Collection and Treatment Facility Improvements in the Town of Barnstable	Sewer Extensions, pump stations and grinder pumps for sewer extension to Lake Wequaquet Area Treatment Plant Improvements	\$69,600,000	Barnstable County
Municipal	Outer Cape Water Supply Projects – Eastham, Wellfleet, Provincetown	Installation of Public Water Supply Wells, Water Towers, and New Source Assessments	\$14,000,000	Barnstable County
Municipal	Falmouth Wastewater Infrastructure Improvements	Expansion of sewers to Davis Straits Area, West Falmouth Harbor Watershed, Rehabilitate Force Main, Rehabilitate Woods Hole Sewer for I&I, Odor Control, Aquifer Storage...	\$39,300,000	Barnstable County

## Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Road, Traffic, Sidewalk, Multimodal Path, Water Supply, Sewer, and Streetscape Improvements to South Street Hyannis	Make needed improvements to the water and sewer pipes in South Street. The water pipes are old and inadequate to handle current flows.	\$8,082,000	Barnstable
Municipal	Solid Waste Building	Construction of new Solid Waste Administration and Operations Building including solar energy system and enclosure.	\$771,200	Barnstable
Municipal	West Bay bulkhead replacement	An engineering and cost analysis of reconstruction options has determined that the best option is to replace the existing sheet steel structure with a new steel sheet pile bulkhead.	\$250,000	Barnstable
Municipal	West End Pump Station Improvements	Construction of a pump station at the west end of Main Street Hyannis to service the planned sewer expansion program.	\$6,220,000	Barnstable
Municipal	Barnstable Police Department Facility Improvement	The Police Department facility was constructed over 20 years ago. The original building equipment and systems are coming to the end of their useful life.	\$601,590	Barnstable
Municipal	Barnstable Police Facility Cellblock Renovations	To renovate and bring up to current code and standards the cellblock detention and booking area at the Barnstable Police Facility.	\$973,400	Barnstable
Municipal	Multi-purpose and Emergency Equipment Depot	Construction of a basic metal heated building to stand on the vacant site on the southerly side of the police department property located on Phinney's Lane.	\$1,182,200	Barnstable
Municipal	Composting Evaluation	Engineering evaluation of sludge disposal practice. Presently sludge is disposed of off site by tanker trucks, and composting should be evaluated for future sludge disposal practices.	\$50,000	Barnstable
Municipal	Upgrade Sludge Processing Capacity	Construct and install a 3rd gravity belt thickener or equivalent	\$1,200,000	Barnstable
Municipal	Gravity Belt Thickener Replacement	Replace gravity belt thickeners. In FY 2012 the gravity belt thickeners (GBT) will be 22 years old and at the end of their service life. The supporting equipment - progressive cavity pumps (PC pumps) and plunger pumps, electrical panels, speed controls,	\$910,000	Barnstable
Municipal	Septage and Pretreatment Buildings – Odor Scrubbers	Engineering evaluation and replacement of present circa 1990 odor scrubbers at septage and pretreatment buildings.	\$1,100,000	Barnstable
Municipal	Freezer Road Pump Station Siding	Replace the siding on the building, replace the doors.	\$70,000	Barnstable
Municipal	Horace Mann Charter School Treatment Plant Painting	The plant is 20 years old and at its design life. To extend the life of the plant it is necessary to repaint all of the steel equipment which is showing preliminary corrosion.	\$55,000	Barnstable
Municipal	Portable Generator Garage	Construct a garage to house the portable generators and pumps	\$110,000	Barnstable
Municipal	Old Colony Pump Station Upgrade	Upgrade the existing Old Colony Rd. wastewater pumping station.	\$5,750,000	Barnstable
Municipal	Sewer Collection System Expansion – Wequaquet Lake (CE4)	This is a multi-year project involving the design and construction of sewer collection systems for sewerage of Areas of Concerns (AOC's) identified by the Wastewater Facilities Plan.	\$43,340,000	Barnstable
Municipal	Barnstable Village Manhole Replacement	Remove the existing sewer manhole and replace it	\$40,000	Barnstable
Municipal	Chlorine Distribution System Replacement	Leaks are a continuous problem, the pumps fail regularly and the system does not take advantage of the latest technology to control expenses.	\$250,000	Barnstable
Municipal	Sludge Reduction Process	Design and construct a sludge reduction process, e.g. PMC Bio Tech process, an innovative biochemical method that reduces normal biomass sludge production theoretically to zero.	\$1,315,000	Barnstable
Municipal	Force Main Manhole Demolition	Demolish air release and drain manholes on the force main from the Freezer Road pump station to the wastewater treatment plant on Bearse's Way. T	\$540,000	Barnstable
Municipal	Solar Power System Installation	Installation of a solar electrical energy generating system at the Water Pollution Control Facility site.	\$1,000,000	Barnstable
Municipal	Septage Building Receiving Upgrade	Upgrade the septage building rag, rock, grease and grit removal systems.	\$1,570,000	Barnstable
Municipal	Horace Mann Charter School Sand Filter Upgrade	Replace the present sand filter with a modern, and specifically designed for, denitrification filter.	\$140,000	Barnstable
Municipal	Air scrubber, Grit Pump and Degritter Replacement	Replace Septage and Pretreatment building odor scrubbers.	\$575,000	Barnstable
Municipal	Construction of a New Water Storage Tank	The siting, design, permitting and construction of a new water storage tank is one of two prioritized capital improvement recommendations of the Hyannis Water System Master Plan	\$4,158,000	Barnstable

# Commonwealth of Massachusetts

## Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Pipe Replacement and Upgrade Program	This 30-year phased improvement program is a continuous pipe replacement and upgrade program for the Hyannis Water System as recommended by Weston & Sampson Engineering...	\$5,250,000	Barnstable
Municipal	Public Roads Maintenance	This is a continuing essential program aimed at combating the progressive deterioration of the Town's roads and provision of new storm water handling capacity.	\$16,250,000	Barnstable
Municipal	Guard Rails	Removal of damaged and deteriorated guardrails; and installation of new guardrails at new locations in various villages to insure the safety of the driving public.	\$992,000	Barnstable
Municipal	Traffic Signals	Traffic engineering inventory, analysis, reporting and field observations of twenty-four (24) existing Town-owned traffic signal systems throughout Town...	\$925,000	Barnstable
Municipal	Dredging Cotuit Bay Entrance Channel	Removal of approximately 15,000 cubic yards of material from the channel leading into Cotuit Bay and the Seapuit River. The material will be placed on Dead Neck.	\$220,000	Barnstable
Municipal	Stewart's Creek Restoration	This is a multi-year project to improve the flushing, water quality, aesthetic appeal and habitat value of Stewart's Creek in Hyannis.	\$1,246,800	Barnstable
Municipal	Coastal Discharge Mitigation (including Nutrient Removal)	This is an on-going program to improve coastal water quality by addressing road runoff and road related water quality problems affecting coastal waters.	\$1,250,000	Barnstable
Municipal	Structures and Grounds Existing Facility Upgrades	The existing Structures & Grounds building was constructed over 25 years ago and is in need of renovations and upgrades to extend its useful life.	\$481,300	Barnstable
Municipal	Town Hall Exterior Envelope Restoration	This project will focus on the exterior renovation of the Town Hall including brick masonry walls, brownstone trim, slate roofs and copper gutters and downspouts.	\$3,070,700	Barnstable
Municipal	Parking Lots (Town Owned)	Rehabilitation of existing parking lot surfaces. Existing surfaces are cracked, broken & sunken in areas resulting in inadequate drainage and safety hazards associated with uneven surfaces	\$1,700,000	Barnstable
Municipal	Mosswood Cemetery Improvements	The project will fund an addition onto the present Mosswood office for the purpose of providing bathroom facilities for mourners, the public, and employees...	\$307,450	Barnstable
Municipal	Traffic Calming	The project consists of installing a variety of improvements to slow traffic traveling through the residential neighborhoods of the Town.	\$250,000	Barnstable
Municipal	Highway Division Facility Improvements	The construction of (1) Phase I of a new Emergency Response Center (ERC) in FY2010 within the existing highway garage/office area, Phases II and III in subsequent years...	\$1,069,550	Barnstable
Municipal	Handicapped Pier Extension	Addition of approximately 40 feet to the existing handicapped fishing pier at Dowses Beach.	\$230,000	Barnstable
Municipal	Facilities Condition Survey and Assessment Study	These funds will provide for a professional study of the inventory and condition analysis of various Town owned buildings.	\$165,000	Barnstable
Municipal	Sidewalk Construction Program	This is a continuation of the ongoing program to expand the Town's sidewalk network in order to provide a safe way for people to walk along our streets.	\$1,600,000	Barnstable
Municipal	Hyannisport Breakwater Repair	Repairs to the Town (inner) portion of the Hyannisport Breakwater	\$1,236,000	Barnstable
Municipal	West Bay Breakwaters Repair	Rebuild the two breakwaters that protect the entrance into West Bay	\$2,040,000	Barnstable
Municipal	Private Roads – Acceptance and Taking	Phase I authorizing acceptance of the roads by the process of Layout and Taking by easement. This involves survey work to establish the Layout, preparation of plans for recording...	\$4,250,000	Barnstable
Municipal	Barnstable Police Department Sewer Connection	Connect the Police Station to the Town's sewer collection system. This requires the installation of a duplex pumping station and directional drilling to install a force main under Iyannough...	\$180,000	Barnstable
Municipal	Highway Site Buildings – Replacement/Consolidation	Phase II-A involves only the design work of a new enclosed and insulated truck garage, with drive-through capability, which will be used to park, store and perform daily maintenance...	\$13,291,000	Barnstable
Municipal	200 Main Street Facility Upgrade – Design and Construction	This phase of the project is to complete the reconstruction of the second floor, the remainder of the first floor, and the basement of the building.	\$4,887,944	Barnstable
Municipal	Main Street, Hyannis – Road Improvements	This project is the reconstruction of two sections of Main Street, Hyannis that require improvements but are not presently included in approved capital improvement projects.	\$3,022,700	Barnstable
Municipal	Parker's Pond Dredging	Dredging 12,500 cubic yards of sediment and accumulated organics from Parker's Pond.	\$1,340,000	Barnstable
Municipal	Route 132 Corridor (Town Section)	Design and reconstruct approximately 6,500 linear feet of the town section of Route 132 as a four lane roadway with landscaped esplanade and/or physical separator with dedicated left turn...	\$5,500,000	Barnstable
Municipal	Roof Mounted Solar Initiatives - Barnstable	It is estimated that under the optimum conditions, 942,252 square feet of available space could be outfitted with solar panels.	\$0	Barnstable

Commonwealth of Massachusetts

Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Hyannis Youth and Community center – renewable energy Initiatives	The Hyannis Youth and Community center, which is currently under construction, has been designed for several energy related initiatives including Wind, Roof mounted Solar...	\$910,000	Barnstable
Municipal	Nutrient Management Planning Study, Phase III and Design/Permitting and Construction of new Wastewater Treatment Facility	The Nutrient Management Planning Study (Study) is designed to develop baseline and build-out evaluations of nutrient loading to all of the town's watersheds and associated estuaries...	\$165,700,000	Barnstable
Municipal	West Bay Bridge Repairs	The project consists of additional design, and permitting; and installation of a new span drive motor, motor brake, motor control center, connecting shaft and couplings...	\$2,469,922	Barnstable
Municipal	Town Hall Improvements	This project continues the interior and exterior work needed to maintain the existing building. The slate roof and major masonry repairs/replacement are carried in another project...	\$711,000	Barnstable
Municipal	School Administration Building Improvements	The funding of this project would provide for the installation of an emergency generator, the updating of the passenger elevator, the installation of a new gas fired absorption chiller...	\$727,900	Barnstable
Municipal	Old Town Hall Improvements	Renovations to the men's & women's restrooms on the 2nd floor Minor renovations and repairs to 2nd floor Installation of new roof hatch and access ladder Mold remediation...	\$165,000	Barnstable
Municipal	Bridge Repairs and Maintenance – 6 locations	Repair and Maintenance of all Bridge deficiencies as identified in periodic reports from MassHighway and DPW staff observations.	\$170,000	Barnstable
Municipal	Rushy Marsh Pond Reconnection to the Sea	Project seeks to re-establish a permanent connection from Rushy Marsh Pond to Nantucket Sound.	\$80,000	Barnstable
Municipal	Mystic Lake Alum Treatment	Project seeks to combat documented decline in water quality by alum treatment to confine sediment nutrients. Supplemental funding of \$50,000 is sought to conduct impact analyses.	\$50,000	Barnstable
Municipal	Shooting Range Improvements	Shooting range improvements to enhance range safety and usability; reduce noise generated by firing activities by constructing noise abating berms...	\$546,000	Barnstable
Municipal	Mill Pond Restoration	This funding request is for dredging of Mill Pond.	\$250,000	Barnstable
Municipal	Wequaquet Lake Project	Recently-released diagnostic study recommends important measures to help preserve water quality of Wequaquet Lake. Components of this project are: 1) sediment sampling...	\$225,000	Barnstable
Municipal	Barnstable Public Schools Wireless Internet Project	The intention of this project is to construct a wireless Internet infrastructure that allows secure wireless internet access to staff and students at all Barnstable Public Schools.	\$81,146	Barnstable
Municipal	Barnstable Database Systems School Interoperability (SIF) Compliance Model	A SIFWorks® Integration Platform streamlines the administration of pK-12 schools by allowing various applications to share data automatically and securely.	\$50,000	Barnstable
Municipal	Barnstable Public School Technology Infrastructure Upgrade	This is project is to address technology infrastructure needs within the Barnstable Public School District.	\$118,400	Barnstable
Municipal	Barnstable Channel 22 or Barnstable to Barnstable K-12 (B2BK12TV)	Barnstable would like to expand, improve and increase the educational opportunities for communication to the residents of Barnstable on the educational television channel 22...	\$100,000	Barnstable
Municipal	Improved Safety in Our Schools	This funding would allow other schools to receive a security upgrade of locks and controls to tightly limit access and make accountable the staff actions.	\$224,000	Barnstable
Municipal	Horace Mann Charter School Grades 5-6 Repairs	This project will fund the repair, replacement of systems and alterations to the structure of BHMCS 5/6 building in order to resolve the issue of high humidity in that building...	\$1,108,800	Barnstable
Municipal	Exterior Door Replacement at Hyannis West Elementary School	This project would fund the replacement of the rotted metal exterior doors and the in-room sink bases and countertops.	\$225,000	Barnstable
Municipal	Playground Equipment	To remove existing and install replacement Playground Equipment at three elementary schools.	\$300,000	Barnstable
Municipal	Cogeneration at the Middle School	The installation of a 150kw cogeneration gas fired turbine at the Middle school will generate electricity at the facility which will be used on site to offset the purchase of electricity...	\$375,000	Barnstable
Municipal	Athletic and Facilities Upgrades	This project provides for safe athletic facilities for Barnstable students as well as for those students participating from other school districts.	\$989,600	Barnstable
Municipal	Air Conditioning Installation	To install A/C systems to moderate temperatures and humidity levels in 12 critical areas of the High School.	\$176,000	Barnstable
Municipal	Preventative Maintenance Basics/Facilities and Equipment	This program would start with a comprehensive inspection of all facility components including building envelopes, finishes, HVAC, electrical and plumbing systems, grounds...	\$100,000	Barnstable
Municipal	Buy out of Leased Hyannis East Portable	The funding of this project will allow us to buy out the lease on the portable at Hyannis East and own it outright. This portable was installed in the summer of 2006 and is an annual...	\$156,000	Barnstable

# Commonwealth of Massachusetts

## Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Athletic Facility and Field Reconstruction	This project addresses a long standing need to provide safe athletic facilities for Barnstable students as well as for those students participating from other school districts.	\$3,100,000	Barnstable
Municipal	School Facilities Repairs	Some of the repairs included in this project would include contracted work on our exterior masonry walls which are cracked and in need of tuck pointing and structural repairs.	\$657,600	Barnstable
Municipal	School Window Replacement	This project would fund the replacement of the single pane window system, and a new building envelope upgrade would maintain the schools efficiently and wisely with safety built in.	\$1,259,000	Barnstable
Municipal	Repairs to Maintenance Building	This project will fund the much needed repairs and upgrade of the maintenance department facility.	\$175,000	Barnstable
Municipal	Consolidation of Maintenance and Transportation	Consolidate the Maintenance Department and Transportation Department under one roof, sharing resources and combining expenses.	\$250,000	Barnstable
Municipal	Parking Lot Reconstruction	This project is critical in preserving the structural integrity of our schools' parking lots and driveways.	\$986,870	Barnstable
Municipal	Plumbing Upgrade and Repairs	Most of our elementary schools are over 40 years old. Most of the plumbing fixtures are original and in need of replacement.	\$425,000	Barnstable
Municipal	School Kitchen Equipment	This project embraces the continued replacement of many failing pieces of kitchen equipment found in all 11 of our schools throughout the town.	\$495,900	Barnstable
Municipal	Carpet/VCT, Rubber Floor Replacement	This project will fund the replacement of failed carpeting with VCT/new carpeting/Nora rubber products in our schools.	\$520,000	Barnstable
Municipal		Install modular replacement condensing boilers; indirect fired water heater; infrared heaters	\$90,000	Barnstable
Municipal		Upgrade existing heating/cooling equipment in several buildings; perform air sealing and insulation work in 2 buildings; upgrade lighting in one building and the parking lot	\$375,000	Barnstable
Municipal	Variable Frequency Drives, Premium Efficient Motors	Install VFD's and premium efficiency motors	\$75,000	Barnstable
Municipal	Municipal Regional Wind	Building upon the current initiative for a regional Green Communities designation, the Cape Cod Commission, partnering with other County programs, will pursue alternative energy facility siting, specifically wind, to offset municipal electrical needs acro	\$81,000,000	Barnstable
Municipal	Develop pilot scale integrated biofuels algae refinery	Develop a pilot scale integrated biofuels facility on the Massachusetts Military Reservation (MMR) that will provide research and development opportunities to refine algae strains and a current practice for biofuels production suited for the New England C	\$15,000,000	Barnstable
Municipal	Solid Waste Support Building	Construction of new Solid Waste Administration and Operations Building including solar energy system and enclosure.	\$771,200	Barnstable
Municipal	150KW Cogeneration Plant	Installation of a gas fired Cogen plant to produce elctricity on site and use captured waste heat for building	\$350,000	Barnstable
Municipal	Solar Installation at WPCD	Dedicated solar array (50Kw) for running motor	\$1,000,000	Barnstable
Municipal	Solar Installation Town Wide	Solar panels on 942,000 sq feet of ground and	\$28,000,000	Barnstable
Municipal	HYCC energy initiatives	Wind, Solar and Cogen	\$900,000	Barnstable
Private Development - Traditional Infrastructure (unreviewed)	Hyannis Gliz Water Supply Upgrade	Repair and upgrades to 100 year old water supply in the Hyannis Growth Incentive Zone	\$6,422,983	Barnstable
Municipal	Downtown Parking and Pedestrian Improvements	The proposed parking facility and green space is located in the heart of a National Register historic downtown district with a commuter rail station, banks, restaurants, personal service...	\$4,850,000	Ayer
Municipal	Water System Improvements	This project consists of the following system improvements: Grove Pond Well Site: Installation of two replacement wells and one new well at the Grove Pond Well Site.	\$4,300,000	Ayer
Municipal	Middle/High School Heating Ventilation Renovation	See attached Statement of Interest (SOI)	\$600,000	Ayer
Municipal	Page Hilltop Heating Ventilation Renovation	See attached Statement of Interest (SOI)	\$600,000	Ayer
Municipal	Route 24 NHS Preservation, Micromilling, Resurfacing and Related Work	Pavement Preservation Project for Route 24 in Avon and Stoughton that includes Micromilling, Resurfacing and Related Work.	\$4,000,000	Avon and Stoughton - MassHighway Jurisdiction

## Commonwealth of Massachusetts

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Avon - Rehabilitation/ Resurfacing, Mill and overlay, and related improvements on federal aid eligible roadways	Use Economic Stimulus Funds to perform rehabilitation/resurfacing, mill and overlay work and streetscape improvements on the following federal aid eligible roadways (Central Street, East Main Street, East Spring Street, Main S	\$2,591,826	Avon
Municipal	South Avon Street Rehabilitation project	Rehabilitation of the roadways to include full depth and mill overlay as needed. Sidewalk installation and improvements to existing sidewalks.	\$1,224,359	Avon
Municipal	Nichols Avenue Neighborhood Street Rehabilitation project	Rehabilitation of the roadways to include full depth and mill overlay as needed. Sidewalk installation and improvements to existing sidewalks.	\$582,074	Avon
Municipal	Central Avon Street Rehabilitation project	Rehabilitation of the roadways to include full depth and mill overlay as needed. Sidewalk installation and improvements to existing sidewalks.	\$392,273	Avon
Municipal	North Avon Street Rehabilitation project	Rehabilitation of the roadways to include full depth and mill overlay as needed. Sidewalk installation and improvements to existing sidewalks.	\$594,201	Avon
Municipal	East Avon Water and Street Rehabilitation project	Replacement of failing 100+ year old water mains and lines, reconstruction of streets, sidewalk installation and repair.	\$3,282,492	Avon
Municipal	Pond Street Drainage/Rehabilitation	The rehabilitation of Pond Street in Avon along with new drainage system to eliminate flows to down-gradient streets. This will include new catch basins and modification of existing basins.	\$2,890,671	Avon
Municipal	New Public Safety Facility for the Town of Avon, Massachusetts	The project is a new Public Safety Facility to house the operations of the Town's Police, Fire and EMS Departments, will include offices, staff facilities, prisoner holding, apparatus bays.	\$14,430,400	Avon
Municipal	New Public Safety Facility	New 36,000 s.f. building	\$14,500,000	Avon
Municipal	Auburn High School Athletic Complex Upgrade	High School project consisting of Press Box, Synthetic Infield, Scoreboards, and Concession Stand storage	\$400,000	Auburn
Municipal	Auburn High School Wireless Project	Implement a wireless networking solution for the Auburn High School	\$18,000	Auburn
Municipal	Auburn Middle School Building Project	Improve space and renovate facilities at Auburn Middle School	\$38,000,000	Auburn
Municipal	Energy Management Upgrades	Monitor and reduce energy consumption in the 7 school buildings. Convert existing HVAC equipment to more energy-efficient systems	\$1,172,000	Auburn
Municipal	Town-wide Municipal Fiber Optic Project		\$0	Auburn
Municipal	Operational Upgrades	Roof replacement, window replacement, work on exterior brickwork, and safety doors	\$1,058,000	Auburn
Municipal	Town Hall Heating, Ventilation, and Air Conditioning System	Replacing the existing HVAC system with a modern and more energy efficient heating system.	\$700,000	Auburn
Municipal	Townwide Guardrail contract	Installation and upgrade of guardrails on town roads to mitigate potential road hazards	\$500,000	Auburn
Municipal	Townwide roadway resurfacing contract	Reclamation, resurfacing, drainage improvements and crack sealing of accepted Town roads	\$10,000,000	Auburn
Municipal	Auburn Route 12 (Southbridge Street)	Roadway Reconstruction/Signalization, including development of the Veteran's Memorial Corridor and associated parks.	\$200,000	Auburn
Municipal	Auburn Wind Turbine Project	Relocation of up to three utility scale wind turbines on a Town owned parcel. These turbines would be used to power Town owned facilities with the excess power being sold to the grid for use by Town residents and businesses	\$12,000,000	Auburn
Municipal	SSS Implementation & Pumping Station Replacement Project	Removal of Cost Effective Infiltration & Inflow and a Pumping Station Replacement Project	\$2,060,000	Auburn
Municipal	Townwide SCADA Alarm System Upgrade and Expansion Project	Upgrade and expansion of existing SCADA Alarm System which monitors intrusion and fire alarms in all Town buildings including schools and Auburn Housing buildings.	\$218,000	Auburn
Municipal	Aurilla Street and Warwick Street Roadway Improvement Project	Reconstruction of approximately 0.25 miles of roadway, including drainage improvements	\$150,000	Auburn
Municipal	Barbara Ave, Marion Ave Drainage Improvement Project	Replace approximately 700ft. Of an existing 30 inch stormdrain with a 36 inch drain line. Also included is the replacement of 8 manholes and 3 catch basins along with resurfacing portions of Barbara and Marion Avenues to resolve a major flooding issue.	\$250,000	Auburn
Municipal	Eddy Pond Dam	Rehabilitation and repair of Eddy Pond Dam and Sluice Gate. The existing Dam is rated "Poor Condition" and considered High Hazard	\$600,000	Auburn

Commonwealth of Massachusetts

Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Hardscrabble Road Reconstruction Project	Reconstruction of approximately 0.5 miles from West Street to End. This project was previously approved as a Public Works Economical Development Project (PWED)	\$500,000	Auburn
Municipal	Heating System Replacement	Heating System Replacement for Highway Department with a modern and energy efficient heating system	\$35,000	Auburn
Municipal	Chain-link Fence installation	Installation of a 5ft chain-link fence around the perimeter of the Auburn Landfill.	\$500,000	Auburn
Municipal	Millbury Street Reconstruction Project	Reconstruction of approximately 0.7 miles from Route 20 to Central Street	\$720,000	Auburn
Municipal	New Auburn Public Library	Replacement of a 1967, single-story 14,500 sq. ft. library with a new two-story 39,650 sq. ft. facility	\$16,000,000	Auburn
Municipal	National Pollutant Discharge Elimination System (NPDES) Phase II	Provide funding necessary to infiltrate the implementation of NPDES Phase II as mandated by the Environmental Protection Agency	\$5,000,000	Auburn
Municipal	Pakachoag Meadows	Recreational and Athletic Fields	\$3,821,622	Auburn
Municipal	Joint Public Safety Facility	Public Safety Facility to house Auburn Police, Fire/EMS, and Emergency Management in a 60,000 sq. ft. building on Town owned land adjacent to Water St. Facility	\$24,002,000	Auburn
Municipal	Auburn Route 12 & 20 Overlap – Design of State Highway Improvements	Design of the MassHighway approved reconstruction project from Washington St. (Route 20) to Worcester Rd. (Route 12)	\$375,000	Auburn
Municipal	Auburn Wind Turbine Project at Granger Cliffs	Installation of 1-3 utility scale wind turbines	\$12,000,000	Auburn
Municipal	Attleboro Industrial/Business Park	Completion of ongoing infrastructure including roadways, water, sewer, drainage and utilities	\$10,000,000	Attleboro
Municipal	Oak Hill Residential Community Wastewater Treatment System Upgrade	Repair and upgrade on-site wastewater treatment system for 174-home residential community located at Oak Hill Avenue, Attleboro, MA.	\$0	Attleboro
Municipal	New city Department of Public Works Facility	Relocation and construction of a new DPW facility to make way for the planned Intermodal Transportation Center.	\$8,000,000	Attleboro
Municipal	New Animal Shelter	Construct a new animal shelter	\$1,000,000	Attleboro
Municipal	New DPW Facility	Relocation and construction of new DPW facility to make way for Intermodal Transit Center	\$8,000,000	Attleboro
Municipal	High School Rehabilitation	Upgrade and install new windows, HVAC, and electric system	\$30,000,000	Attleboro
Municipal	Highland Avenue and Redgate Road Water Mains	Replace old small diameter water pipe with larger water main.	\$1,100,000	Attleboro
Municipal	Hyman Fine and Hill Roberts Elementary Schools	Waterproof concrete building exteriors and replace roofs	\$1,600,000	Attleboro
Municipal	Oak Hill Avenue Sewer and Pump Station and Force Main	Construct new sewer system extension to service Oak Hill Avenue and Briggs Corner area (an area with many failing septic systems).	\$3,500,000	Attleboro
Municipal	Paint six million gallon Oak Hill Water Tank	Paint the outside and inside of the City's aging six million gallon water storage tank and installation of mixing system to eliminate stagnant drinking water.	\$1,360,000	Attleboro
Municipal	Police Station	This project addresses the critical need for additional space to allow for the needed upgrade and expansion of aging 911 and telecommunication function of the Police Department.	\$7,500,000	Attleboro
Municipal	Construction of Attleboro Business Row, a/k/a "Roadway A" in the new Industrial Business Park	Construction of a minor roadway (approximately 1,828 feet) intended to open up numerous industrial lots	\$1,925,000	Attleboro
Municipal	Construction of "Roadway D" in the new Industrial Business Park	Construction of a minor roadway intended to open up numerous industrial lots	\$660,000	Attleboro
Municipal	South Attleboro Veterans Memorial Park and Liddell Pool upgrade	Construct new bath house, pool, and filter room. Includes new sports fields, lighting and parking area.	\$10,000,000	Attleboro
Municipal	Downtown Streetscape Improvements	Entails physical improvements within the City's right of ways in the Central Business District including but not limited to sidewalks, cross walks, street lights, street trees, street furniture.	\$4,000,000	Attleboro

## Commonwealth of Massachusetts

### Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Tilda B. Stone Pool (Twin Village Recreation area upgrade)	Construct new Bath House and Pool and filter room. Improved lighting, and parking.	\$975,000	Attleboro
Private Development - Traditional Infrastructure (unreviewed)	Attleboro Industrial/Business Park	Project consists of the completion of ongoing infrastructure improvements including roadways, water, sewer, drainage and utilities, etc. to enable the development of the 190-acre park in Attleboro	\$10,000,000	Attleboro
Municipal	Athol-Royalston Middle School/Masscare Shelter Emergency Power Project		\$0	Athol
Municipal	Lake Ellis Dam Low Level Outlet	Construction of a new outlet works for Lake Ellis in Athol to prevent flooding of shoreline residences and allow for drawdown to control invasive aquatic plants	\$188,600	Athol
Municipal	Phillipston Reservoir Dam Removal	Decommissioning of a dam classified as a significant hazard. The dam impounded a former water supply reservoir that was drained to avoid failure of the earthen embankment.	\$150,000	Athol
Municipal	Renovation / Expansion / Energy Upgrade of the Athol Public Library	Renovate and expand the Athol Public Library. Our plan is to be a green building, as energy efficient as possible.	\$0	Athol
Municipal	Community Senior Center Project	Renovation of new senior center, maintaining 6,000 square feet of existing commercial retail.	\$2,519,158	Athol
Municipal	South Athol Rd. Resurfacing	Reclamation and resurfacing of South Athol Road	\$2,245,122	Athol
Municipal	Pedestrian Bridge over the Millers River	Allan E. Rich Environmental Park includes the construction of a prefabricated walking bridge, accessible ramps up to the bridge and connecting paths.	\$315,000	Athol
Municipal	Rehabilitation of Exchange Street Bridge over Millers River (A-15-007)	Clean and paint bridge structure Replace concrete deck Replace handrails Repair corroded steel members Reinforce selected steel members Replace bearings Repair spalling in concrete abutments.	\$1,500,000	Athol
Municipal	West Royalston Road Resurfacing	Reclamation and resurfacing of West Royalston Road	\$1,000,293	Athol
Municipal	Renovation/Expansion	Renovation / Expansion / Energy upgrade	\$4,000,000	Athol
Municipal	Replacement of the West Union Transmission sewer	Replacement of the West Union gravity sewer with a larger capacity sewer main to provide additional wastewater capacity for planned developments.	\$1,700,000	Ashland
Municipal	Downtown Drainage System Replacement	Replacement of the existing drainage system from the Sudbury River to the CSX railroad crossing near Megunko Road.	\$2,890,000	Ashland
Municipal	Replacement of the Brackett Road Forcemain	The project includes the replacement of approximately 1,550 linear feet of six inch (6") diameter wastewater pumping station forcemain with a twelve inch (12") diameter forcemain.	\$420,000	Ashland
Municipal	Cherry Street/Main Street "Quiet Zone"	The Town is seeking to make improvements to the Cherry Street intersection leading up to and away from the tracks to conform with the federal "quiet zone" requirements.	\$1,000,000	Ashland
Municipal	Cordaville Bridge over Sudbury River	Mass Highway has inspected the bridge and found safety deficiencies in the structure that will require the bridge to be replaced.	\$700,000	Ashland
Municipal	Fiber connectivity for School and General Government buildings	Improvements include connecting fourteen (14) buildings with fiber optic cable, as well as upgrading some switches & firewalls to accommodate the fiber at all locations.	\$275,000	Ashland
Municipal	Reconstruction of Route 135/Frankland Road intersection	Improvements will include signalization, to be coordinated with existing signalized intersections on Route 135.	\$430,000	Ashland
Municipal	Olive Street Culvert Replacement	Inspect the existing culvert, design a replacement, delineate wetlands and file with the Conservation Commission.	\$20,000	Ashland
Municipal	Reconstruction of Fox Hill Road, Hunting Hill Lane, Kings Row	Reconstruction of the roadway by removing the existing pavement and excavation below the finish pavement elevations so an appropriate base course layer can be constructed.	\$736,000	Ashland
Municipal	Replacement of Mindess Elementary School roof	Recommendations include removing the skylights, replacing and raising the HVAC duct, and replacing all drains. The planned source of the project costs is Town funds.	\$1,900,000	Ashland
Municipal	Road Improvements for Oak Street	Oak Street improvements include reclamation and finish coat of 4" of new top. Oak Street is a major connector road between Cordaville Road and Route 9.	\$200,000	Ashland
Municipal	Road Improvements for Route 135 (Cherry Street to Main Street)	The improvements include milling the surface and repaving the full width of the road. The area to be improved is part of the Boston Marathon route through Ashland.	\$140,000	Ashland
Municipal	Sidewalk from Indian Springs to Frankland Road (Route 135)	The addition of the sidewalk that connects the downtown and the Senior/Community Center would promote walking from Frankland/Olive section of Town to Middle School.	\$130,000	Ashland
Municipal	Town Hall and Fire Station Energy Improvements	Blowing insulation into the town hall and fire station as well as replacing windows in both buildings	\$35,523	Ashfield
Municipal	Town Hall Wall Insulation	blow insulation into the walls	\$4,389	Ashfield

## Commonwealth of Massachusetts

### Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Town Hall Window Replacement	replace current windows with energy efficient ones	\$12,576	Ashfield
Municipal	Fire Station Wall Insulation	blow insulation into the walls	\$8,025	Ashfield
Municipal	Fire Station Window Replacement	replace current windows with energy efficient ones	\$10,533	Ashfield
Municipal	Bernhardt Road Bridge Replacement	Demolition and reconstruction of the Bernhardt Road Bridge in the Town of Ashby that partially collapsed and remains a dangerous safety hazard after four years	\$1,200,000	Ashby
Municipal	Mason Road Reclamation and Resurfacing	Engineer and reconstruct a badly devastated road	\$300,500	Ashby
Municipal	Ashby Police Department and Communication Center Design and Construction	Construct a 7000 square foot building to house the Ashby Police Department and Communications Center. Building will replace current structure that is a trailer	\$3,132,400	Ashby
Municipal	Ashby Town Hall Insulation and Exterior Renovation	This project includes window and door replacements, complete insulation, basement water proofing, and possible installation of roof solar panels. In addition to the sealing of the building, a portion of the exterior siding needs replacing and then paint	\$585,000	Ashby
Municipal	Reclamation and Paving of Various Roads in Ashburnham	7 Separate roads which require reclamation and paving. Stowell Rd, East Rindge Rd, Dunn Rd, Rindge Turnpike Rd, Packard Hill Rd, Kraetzer Rd and Hastings Rd.	\$3,200,000	Ashburnham
Municipal	Replace a 1912 Concrete Water Tank and Install 4500' of 12" water main	Install a 1 million gallon water tank, concrete (Natgun design), requires 4500' of new water mains and pump upgrades at the Water Treatment Plant	\$3,200,000	Ashburnham
Municipal	Construct a New DPW Facility (Green Building)	Build a new DPW Facility to include a salt/sand shed, truck wash bay, 130kw solar panels and radiant heat floors	\$2,300,000	Ashburnham
Municipal	Repair Gardner Hill Water Tank	Paint and coat the Gardner Hill Water Tank inside and out	\$600,000	Ashburnham
Municipal	Rebuild the Thompson Elementary School		\$23,000,000	Arlington
Municipal	Refurbish the Stratton Elementary School		\$5,800,000	Arlington
Municipal	Arlington High School Boiler Replacement	Professional engineering studies by On-Site Insight strongly recommend that both of these boilers have exceeded their thirty-year useful life and should be replaced.	\$800,000	Arlington
Municipal	Arlington High School: Pneumatic Control Panel/Energy Management System/Condensate Feed Water	A recent engineering study by On-Site Insight recommends the total replacement of this panel. The estimate for this replacement is \$40,000...	\$87,000	Arlington
Municipal	Arlington High School: Exterior Architectural & Structural Improvements Including Waterproofing	Exterior: Work around the building is necessary to address issues with mortar loss and crack that have recently been discovered (via a recent engineering study) at various locations...	\$1,000,000	Arlington
Municipal	School Bus Purchase: Replace 1998 35 Type C passenger and a 2000 Type A 20 passenger w/ new vehicles <del>on the</del> <i>the Mass Clean Diesel Initiative</i>		\$130,000	Arlington
Municipal	Public Works Yard Energy Rehabilitation and Renovations	Install roof-top Photovoltaic panels. This is a local demonstration project for green electricity generation with fixed incline, roof top panels that will both generate on-grid electricity...	\$990,000	Arlington
Municipal	Reconstruction and Resurfacing of Various Roadways	The project includes reconstruction of roadway with a Pavement Condition Index less than 50 and resurfacing of 25,570 LF of roadway with a Pavement Condition Index less than 60.	\$2,000,000	Arlington
Municipal	Mill Brook Culvert Replacements	The project involves the replacement of culverts at three locations along the Mill Brook.	\$1,400,000	Arlington
Municipal	Construction of Sidewalks on Identified Safe Routes to School locations	The Town has identified critical routes to schools where sidewalk are missing or inadequate. The project would construct sidewalks in these areas.	\$1,500,000	Arlington
Municipal	Public Works - Replace Streetlight Fixtures - Energy Efficient LED Units	This project replaces 3,165 (all) Arlington Streetlight fixtures with energy savings LED lamps.	\$2,200,000	Arlington
Municipal	Automatic Water Meter Reading System	The proposed project involves the development of an automatic water meter reading system.	\$2,800,000	Arlington
Municipal	DPW: Replace 2 Winter Road Salt Sheds	Replace 2 existing salt sheds at DPW Town Yard. These sheds are more than 25 years old and have broken doors, badly leaking roofs and roof truss damage.	\$300,000	Arlington
Municipal	Sewer Main Improvement Project	The proposed project would repair/replace sewer mains located throughout various areas of Town identified as significant sources of groundwater infiltration and stormwater inflow.	\$1,100,000	Arlington
Municipal	Whittermore Robbins House repairs	Replace gutters on lower roof approx. 200 liner feet. Complete paint job including porches and shutters. Carpentry repairs to Cupola and porches. .	\$100,000	Arlington
Municipal	Rehabilitation of Arlington Fire Headquarters, 1 Monument Park and Highland Fire station, 1007 Mass Ave	Complete renovations of 2 fire stations that are in physical, mechanical and structural disrepair. Both building were built in the 1920s and has not had any major upgrades.	\$10,000,000	Arlington

# Commonwealth of Massachusetts

## Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Community Safety Building Renovations		\$6,000,000	Arlington
Municipal	Upgrade municipal fire, police and DPW radio systems.		\$150,000	Arlington
Municipal	Upgrade municipal fire alarm system to wireless system.		\$300,000	Arlington
Municipal	Replacement of Public Safety Vehicles	Replacement of four (4) Public Safety Vehicles due to age.	\$120,000	Arlington
Municipal	Replacement of outdated and high maintenance inefficient signal traffic controllers	The proposed project will replace 28 existing traffic signal controllers and their housings throughout the Town with more energy efficient units.	\$280,000	Arlington
Municipal	Robbins Library Radio Frequency Identification (RFID) Project		\$225,000	Arlington
Municipal	Robbins Library Energy Efficient and Renovations Project		\$625,000	Arlington

Municipal	Mendall Road Resurfacing Project, Acushnet		\$150,000	Acushnet
Municipal	Acushnet Town Hall Renovations/Infrastructure Improvement		\$450,000	Acushnet
Municipal	Town of Acushnet Comprehensive Waste Management Program -EIR		\$350,000	Acushnet
Municipal	Acushnet Long Plain Museum Infrastructure Improvement		\$100,000	Acushnet
Municipal	Acushnet Transportation (Parking) Facility & Environmental Remediation		\$1,100,000	Acushnet
Municipal	Gammons Road Reconstruction Project, Acushnet		\$375,000	Acushnet
Municipal	Acushnet Municipal Building Septic System Upgrades		\$175,000	Acushnet
Municipal	Acushnet Water Meter Radio Reading System		\$432,000	Acushnet
Municipal	Acushnet Recreational Facility Reconstruction at Pope Park		\$0	Acushnet

Commonwealth of Massachusetts

Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Acushnet Library/Community Center (Howard School) Renovation		\$1,100,000	Acushnet
Municipal	Acushnet Public Safety Building Feasibility Study		\$75,000	Acushnet
Municipal	Acushnet Town Hall Complex Tank Removal Project		\$30,000	Acushnet
Municipal	Acushnet Fire Station #1 Sewer Tie-In		\$20,000	Acushnet
Municipal	Acushnet Ford Middle School Solar Power System Installation		\$3,000,000	Acushnet
Municipal	Acushnet Elementary School Solar Panel Installation		\$3,000,000	Acushnet
Municipal	Hathaway Road Drainage Improvements	Construction of a new storm sewer system along Hathaway Road and Perry Hill Road	\$1,000,000	Acushnet
Municipal	Mendall Road Drainage Improvements	Construction of a new storm sewer system along Hathaway Road between Noyer Street and Mendall/Mattapoisett Road	\$1,000,000	Acushnet
Municipal	Middle Road Pump Station Replacement and Sewer Connection	Construction of the Middle Road Pump Station and the approximately 150 grinder pump sewer service connections, including all piping, valves and appurtenances, electrical and control systems and pavement restoration	\$1,575,000	Acushnet
Municipal	Acushnet Elementary School	Installation of 300 KW Solar Power (PV)System	\$3,000,000	Acushnet
Municipal	Ford Middle School	Installation of 300 KW Solar Power (PV)System	\$3,000,000	Acushnet
Municipal	Main Street (Route 27) & Hayward Road Intersection Safety Improvements	The purpose of this project is to widen the road pavement to improve the turning movements & the overall operation of the vehicular traffic at the intersection. There are also sidewalk enhancements proposed to improve pedestrian safety.	\$140,000	Acton
Municipal	Sidewalk Construction - Central Street (Windsor Street to Willow Street)	The purpose of this project is to construct sidewalks on existing roads to improve life safety for pedestrians.	\$222,190	Acton
Municipal	Department of Public Works - Equipment Storage Facility	The purpose of this project is to construct a facility to store seasonal Public Works' equipment.	\$300,000	Acton
Municipal	Sidewalk Construction - Great Road (Davis Street to Main Street)	The purpose of this project is to construct sidewalks on existing roads to improve life safety for pedestrians.	\$113,500	Acton
Municipal	Sidewalk Construction - High Street (#30 to #46)	The purpose of this project is to construct sidewalks on existing roads to improve life safety for pedestrians.	\$192,546	Acton
Municipal	Sidewalk Construction - High Street (#77 to Parker)	The purpose of this project is to construct sidewalks on existing roads to improve life safety for pedestrians.	\$812,560	Acton
Municipal	Main Street (Route 27) & Quarry Road Drainage Improvements	The purpose of this project is to improve the drainage system to prevent surface flooding during high intensity rainfall events.	\$200,000	Acton
Municipal	Sidewalk Construction - Main Street (Post Office Square to Route 2)	The purpose of this project is to construct sidewalks on existing roads to improve life safety for pedestrians.	\$399,140	Acton
Municipal	Sidewalk Construction - Prospect Street (Main Street to Central Street)	The purpose of this project is to construct sidewalks on existing roads to improve life safety for pedestrians.	\$89,430	Acton
Municipal	Rehabilitation of Town Owned Bridges	The purpose of this project is to evaluate 10 bridges in Acton and develop a maintenance & repair plan in order to extend the structural capacity and upgrade the safety features of these bridges.	\$923,828	Acton
Municipal	Department of Public Works - Road Salt Storage Shed	The purpose of this project is to construct a facility to store The Town's supply of road salt and also provide sufficient room to load and handle the material to improve the overall winter maintenance operation.	\$300,000	Acton
Municipal	North Acton Fire/EMS Station	This project is to construct a new Fire/EMS station to serve the Town of Acton. This station will especially serve to reduce response times to the Northern area of town where excessive fire/ems response times currently exist.	\$6,250,000	Acton
Municipal	Heating System replacement at Fire Station #2	Full replacement of original 1960s vintage heating system at the South Acton Fire Station.	\$250,000	Acton
Municipal	Renovations of Three (3) Fire/EMS Stations	This project would renovate three (3) Fire/EMS stations that date from 1951-1961.	\$4,687,500	Acton
Municipal	Heating System replacement at Fire Station #3	Full replacement of original 1960s vintage heating system at the West Acton Fire Station.	\$250,000	Acton
Municipal	Acton WWTP Grid Tied Solar Energy System	This project will offset the electricity cost and allow the Town to sell electricity back to the utility. This project includes a 450 KW solar electric array that requires 90,000 square feet of space for installation.	\$3,825,000	Acton
Municipal	Spencer, Tuttle, & Flint Sewer Extension Project	The proposed sewer extension of approximately 14,850 LF of sewers. This project will provide sewers in approximately eight (8) streets that consist of 127 single-family residences.	\$6,030,000	Acton
Municipal	West Acton Center Sewer Extension Project	This project includes sewerage a portion of West Acton Center. The new sewers will discharge to Acton's existing Wastewater Treatment Plant.	\$5,411,000	Acton

## Commonwealth of Massachusetts

### Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Acton WWTP Upgrade and New Surface Water Discharge	This project would include the construction of a new treatment works, process equipment, and a new discharge to the Assabet River. The new discharge will consist of a drain pipe extending into the river.	\$3,000,000	Acton
Municipal	27 Concord Road, Retaining Wall/Driveway Repair/Landscaping	An Acton Housing Authority driveway needs to be pulverized and replaced, the retaining wall needs to be reconstructed, the side walk entrance needs to be rebuilt, and the property needs landscape improvements.	\$16,000	Acton
Municipal	Sachem Way Pre-Development and Development Funds	The Acton Housing Authority project would eventually develop new units of affordable housing.	\$2,676,000	Acton
Municipal	Sachem Way Roof Replacement	All of the roofs of an elderly-disabled housing and state-aided family housing units are original and need to be replaced. The elderly development could also have solar panels installed if a new roof is put on.	\$320,000	Acton
Municipal	Towne School Affordable Housing Project	Conversion of a former school building to 17 units of affordable housing.	\$5,657,057	Acton
Municipal	Windsor Green- Hot Water Heater Replacement	Windsor Green is a 68 unit State Aided elderly-disabled housing development. This would replace 12 water heating units.	\$23,040	Acton
Municipal	ASSABET RIVER RAIL TRAIL (ARRT) – Acton & Maynard section	Construct multiuse path from South Acton train station to Maynard/Stow line - +/-3.5 miles.	\$9,000,000	Acton
Municipal	BRUCE FREEMAN RAIL TRAIL (BFRT) – Westford, Carlisle, Acton, Concord section (Phase 2 A, B, & C)	Construct multiuse path from Westford (Route 225) through Carlisle, Acton and Concord - +/-8.6 miles.	\$25,500,000	Acton
Municipal	EAST ACTON VILLAGE GREEN (EAV GREEN)	This project will re-establish the village green as a small public park for the area, preserve and highlight the remaining elements of the former depot, complement the Bruce Freeman Rail Trail, and highlight and educate people about the history of the area.	\$130,000	Acton
Municipal	Senior Center Construction	Design and Construction of new Senior Center to replace existing senior center, no longer adequate to meet needs of fast growing senior population.	\$7,200,000	Acton
Municipal	Removal and replacement of underground fuel storage tanks at Acton Town Hall	Remove superfluous twenty-three year old underground 5000 gallon #2 heating oil tank (building has been converted to natural gas). Remove and replace twenty-three year old 500 gallon diesel tank used for the emergency generator.	\$50,000	Acton
Municipal	Acton Town Hall historic window restoration	Historic restoration of 32 windows located in the Acton Town Hall, built in 1864, and listed on the National register of Historic Places. Work would also include furnishing and installing 32 historically appropriate wooden storm windows.	\$110,000	Acton
Municipal	Historic Preservation and Adaptive Reuse of the Windsor Building	Restoration and reuse of the Windsor Building, a 1904 Fire Station. Work would include new roof, window restoration, creation of handicap access to both floors, construction of vestibule and public restroom, creation of two public meeting spaces (one per floor).	\$650,000	Acton
Municipal	Building Department Paperless document Program	Upgrade the computer hardware and software infrastructure and to transfer existing documents from their current format to a digital format.	\$265,078	Acton
Municipal	Recreation Field Building with Bathroom	Project consists of design and construction of a 30' x 30' snack bar/bathroom adjacent to ballfields at NARA Park. Work will include the design & installation of a septic system on-site.	\$200,000	Acton
Municipal	Gravel Parking Lot and Outdoor Ice Rink	Construct 75-car (gravel) parking lot attached to the existing NARA parking lot off Quarry Road.	\$50,000	Acton
Municipal	Solar Illumination of NARA Park Parking Lots	Solar light fixtures to illuminate parking lot at NARA Park.	\$23,450	Acton
Municipal	Acton Performing Arts Center	Purchase of (parcel 38-1, C-5 estimated purchase price \$300,000) and purchase of (parcel 30, B-5 estimated purchase price \$500,000), then construction of a cultural & performing arts center to service Acton and surrounding region.	\$15,000,000	Acton
Municipal	Picnic Pavilion at NARA Park	Project consists of design and construction of a 40' x 84' timber framed structure and roof. Pavilion will also include construction of concrete patio surrounding the structure.	\$250,000	Acton
Municipal	Solar Illumination for NARA Park Walkway	Energy Project consisting of solar bollards to illuminate handicap accessible walkway around the NARA Park perimeter.	\$133,502	Acton
Municipal	Cemetery Storage Building	40' x 60' Storage building to house recreation and cemetery field maintenance equipment.	\$250,000	Acton
Municipal	Acton Arboretum Education Center	Design and construction of a 4,000 sq. ft. education center in the Acton Arboretum.	\$1,500,000	Acton
Municipal	Acton Solar Farm	The Town of Acton will build two 10 megawatt (MW) solar farms in the providing an additional 20 MW of electricity generating capacity. This project constitutes a significant step in greening of Massachusetts and making the Commonwealth a leader in solar electricity. As a result, these solar farms will generate enough green electricity to supply 3,000 Acton homes.	\$42,000,000	Acton
Municipal	ABINGTON PUBLIC SCHOOLS UPDATE AND REPLACEMENT OF OBSOLETE ELECTRICAL SYSTEMS AT ABINGTON HIGH SCHOOL, FROLIO SCHOOL, WOODSDALE SCHOOL AND THE EARLY CHILDHOOD CENTER	Replace outdated electrical service panels and sub-panels, replace classroom lighting and branch circuits, replace and relocate electrical transformers, replace emergency generator...	\$825,000	Abington Abington Public Schools
Municipal	WINDOW, DOOR AND ROOF REPLACEMENT: WOODSDALE ELEMENTARY SCHOOL	The windows at woodsdale elementary school are original construction single-pane steele sash windows. the windows and doors are 50 years old, require constant maintenance...	\$2,650,000	Abington Abington Public Schools
Municipal	Abington - Rehabilitation/ Resurfacing, Mill and overlay, and related improvements on federal aid eligible roadways	Use Economic Stimulus Funds to perform rehabilitation/resurfacing, mill and overlay work and streetscape improvements on the following federal aid eligible roadways (Randolph Street, Brockton Avenue, Chestnut Street, North Str	\$3,999,666	Abington

# Commonwealth of Massachusetts

## Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Sewer Department Garage Expansion	The Sewer Department needs to expand their garage by 1500sq. ft. for the storage of equipment and vehicles.	\$500,000	Abington
Municipal	Abington Sewer Interceptor	This project is to design and construct a dedicated pipeline to transport flows to the Brockton Wastewater Treatment Facility	\$12,000,000	Abington
Municipal	Sewer Department SCADA System	Build a SCADA system for the operation of 10 pump stations and 2 meter station. SCADA system would provide efficiencies in personnel use and potential energy savings.	\$265,000	Abington
Municipal	DPW Facility	150'x80' pre engineered clear span building	\$2,000,000	Abington
Municipal	ISLAND GROVE SWIMMING AREA RETAINING WALL	This project will replace a 321 foot telephone pole retaining wall which was built in 1968, when the swimming area first opened to the residents of Abington.	\$100,000	ABINGTON
Municipal	Memorial Field Tennis Court Reconstruction	Abington only "owns" three (3) public tennis courts, which were originally built with WPA Funding. This project includes demolition costs, site preparation, asphalt, tennis nets and posts, court striping, fencing and lighting.	\$250,000	ABINGTON
Municipal	Rivers Edge Adult Community		\$0	Abington
Municipal	SCADA System	The SCADA System would allow for remote monitoring and control of 10 pump stations and 2 flow metering chambers.	\$265,000	Abington
Municipal	Daniel Drive cross-country easement.	Installation of approximately 1,200' of sewer main with 5 manholes in order to eliminate pump station.	\$325,000	Abington
Municipal	Caring Health Center Facility	The Caring Health Center plans to redevelop the acquired vaant building, using local project managers and contractors, to create a state-of-the-art community health facility	\$15,000,000	
Municipal	Resurfacing Sunderland Route 47	Resurface approximately 7 miles of roadway on existing layout	\$1,500,000	
Municipal	Port of Salem Expansion Project	Construction of a multi-use transportation facility with waterside and upland improvements.	\$20,000,000	
Municipal	Fuel Tank	Replace 10,000 gallon underground gas tank and two 1000 gallon diesel tanks located at two different locations .The new fuel tank system would be above ground with split tanks in one location.	\$125,000	
Municipal	Solar Generation Facility – Maynard Landfill	3 Megawatt Solar Energy Generation Facility to be installed on the Maynard Landfill.	\$24,000,000	
Municipal	Replace Boiler	Remove Asbestos, replace boiler, insulate pipes	\$50,000	
Municipal		install photo voltaic cells	\$0	
Municipal	Pioneer Renewable Energy, LLC	45 MW (net) clean wood biomass power plant that will generate approximately 400,000 MWh per year of renewable energy.	\$275,000,000	
Municipal	Variable Frequency Drives	Install Variable Frequency Drives on selected pump motors	\$100,000	
Municipal	Lighting Retrofit	Replace lamp & ballast existing fixtures where practical and replace fixtures where fixtures are obsolete	\$70,844	
Municipal	Variable Frequency Drives	Install Variable Frequency Drives on selected pump motors	\$112,022	
Municipal	Compressor Replacement		\$25,843	
Municipal	Lighting, Controls, Variable Frequency Drives	Upgrade selected lighting equipment and controls; install VFD's on air handler and heating equipment; install water efficiency devices	\$75,000	
Municipal	Lighting, Controls, Variable Frequency Drives	Upgrade selected lighting equipment and controls; install VFD's on air handler and heating equipment; install water efficiency devices	\$40,000	
Municipal		Recommission existing energy management systems and/or install new EMS front-end on to existing legacy EMS systems	\$800,000	
Municipal	Barnstable High School	Install up to 2.0 MW of PV	\$13,340,000	
Municipal	Barnstable Middle School	Install up to 864 kW of PV	\$5,762,880	
Municipal	1st District Courthouse	Install up to 175 kW of PV	\$1,167,250	
Municipal	Registry of Deeds & Probate	Install up to 100 kW of PV	\$672,000	
Municipal	Brewster Eddy School	Install up to 130 kW of PV	\$873,600	
Municipal	Wellfleet DPW	Install up to 50 kW of PV	\$333,500	
Municipal	Sandwich High School	Install up to 500 kW of PV	\$3,360,000	
Municipal	Nauset Middle School	Install up to 90 kW of PV	\$600,300	
Municipal	wind turbine	construction of wind turbine	\$2,000,000	

# Commonwealth of Massachusetts

## Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Municipal	Project 2 - Electricity/Energy Reduction Project - New Technology/High Efficiency Mixers on	Replace Existing 12 Year Old Mixers with New State of the Art High Efficiency Mixers that Use Less Electricity	\$625,000	
Municipal	Project 5 - Wind Turbine - Onsite Generation of Wind	Install Wind Turbine Electric Generator	\$4,200,000	
Municipal	Pump Station Elimination	Permanantly Eliminate Sewage Pump Station	\$1,400,000	
Municipal	PV solar install	insall 10+KW of PV for existing & proposed use	\$85,000	
Municipal	Repower Green	SOLAR PANELS	\$500,000	
Municipal	Hale school energy efficiency	Re-lamping gymnasium with energy efficient lights	\$5,400	
Municipal	Hale school energy efficiency	Replacement of lighting fixtures to higher efficience ballests and installation of occupancy sensors	\$5,000	
Municipal	Hale school energy efficiency	Updating our boiler room to include building management controls	\$15,000	
Municipal	WWTF Aeration System Upgrade	Aeration System Upgrade	\$1,000,000	
Municipal	Transit Oriented Develop	New construction of WRTA office and operations; transit hub; retail, office and residential	\$48,000,000	
Municipal	Pump Station Elimination	Permanantly Eliminate Sewage Pump Station	\$500,000	
Municipal	Pump Station Elimination	Permanantly Eliminate Sewage Pump Station	\$500,000	
Municipal	Pump Station Elimination	Permanantly Eliminate Sewage Pump Station	\$500,000	
Municipal	Photovoltaic array police station	photovoltaic array	\$98,300

### Infrastructure Mobilization Effort - Unreviewed List of Projects Submitted for State Consideration

Task Force	Project title	Project description	Total Federal Act Request (\$)	City/ Town
Private Development - Traditional Infrastructure (unreviewed)	Bourne Rotary Bypass	The project includes a new bypass road to facilitate access to a major commercial development area and relieve traffic at the existing bottleneck (Bourne Rotary) to the Cape. It will also include essential infrastructure to facilitate economic development of 200 acres near the Vocational Tech High School.	\$12,000,000	
Private Development - Traditional Infrastructure (unreviewed)	Lowe's of Brighton	Development of new Brighton Commuter Rail location and Lowe's Retail Center	\$10,000,000	
Private Development - Traditional Infrastructure (unreviewed)	Upham's Corner Health Center	Renovations and equipment	\$190,000	
Private Development - Traditional Infrastructure (unreviewed)	Westerly Wastewater Treatment Plant Upgrades	The project consists of designing and constructing upgrades to the existing Westerly Wastewater Treatment Plant to meet existing NPDES permit requirements and also to meet 20 year growth projections		
Private Development - Traditional Infrastructure (unreviewed)	Forest Street and Bartlett Street Roadway Reconstruction (from I-495 Bridge to Town-line)	These roadway reconstruction projects encompasses approximately 9,000 linear feet from the Interstate-495 bridge to the Town-line. The project will include roadway reconstruction, drainage reconstruction, drainage system improvements, pavement markings and sidewalk construction.		
Private Development - Traditional Infrastructure (unreviewed)	Crossroads Initiative	Twelve Crossroads cross the Rose Fitzgerald Kennedy Greenway in Boston and connect people to neighborhoods and destinations on either side. These streets link the city to the Greenway and the Greenway to the Harbor. They also connect neighborhoods formerly isolated by the Central Artery—districts such as the West End, Bulfinch Triangle and the North End, as well as South Boston, Fort Point Channel, the Leather District and Chinatown. The network and vistas these improved streets and the Greenway form		
Private Development - Traditional Infrastructure (unreviewed)	Phase II at Gateway Park: A Project Ready for Immediate Construction and in Need of Federal Funding	To provide expansion space for established, rapidly growing life science companies, facilities for workforce training for the life science industries, and support for interdisciplinary research and development in areas of critical national need.		
Private Development - Traditional Infrastructure (unreviewed)	Winter Street-Waltham MA Infrastructuer Upgrades	Replace 50+ year old 12 inch water pipe with new 16 inch water pipe along 5,532 linear feet along Winter street. Current infrastructure inadequate for fire protection, prone to breaks, cause work stoppages to 500,000 sq ft future development		
Private Development - Traditional Infrastructure (unreviewed)	Beal Street Corridor Improvements	As part of the redevelopment of the Hingham Shipyard, improvements are proposed for the Beal Street corridor for a portion of Beal Street between Downer Avenue and Wm B. Terry Drive. A signal is also proposed at the intersection of Beal Street and Wm B. Terry Drive to help alleviate back-ups that occur at this intersection associated with the MBTA commuter ferry.		
Private Development - Traditional Infrastructure (unreviewed)	Massachusetts Small Business Matching Grant Fund	\$10,000,000 shall be deposited in the Massachusetts Small Business Matching Grant Fund established in section 9 of said chapter 231 of the General Laws
